FAIR-IMPACT overall objective

WHAT:

to realise a FAIR EOSC by **supporting the implementation** of FAIR-enabling practices across scientific communities and research outputs at a European, national, and institutional level;

HOW:

- **identifying** current and emerging components for enabling FAIR (practices, policies, tools & technical specifications);
- **translating** viable solutions, guidelines and frameworks that have been developed for one domain or research output and **supporting** their application in others;
- taking the next step in implementation by **defining** the support, governance, and coordination mechanisms required to ensure the continuous function of FAIR-enabling practices in the EOSC.

Introduction to FAIR national initiatives support programme

A focus on methodology:

At country level, how can we develop a FAIR implementation action plan?

Workshop series on
targeted topics

Main objective: to draft a FAIR implementation action plan

1. Objectives

2. Actions

3. Milestones

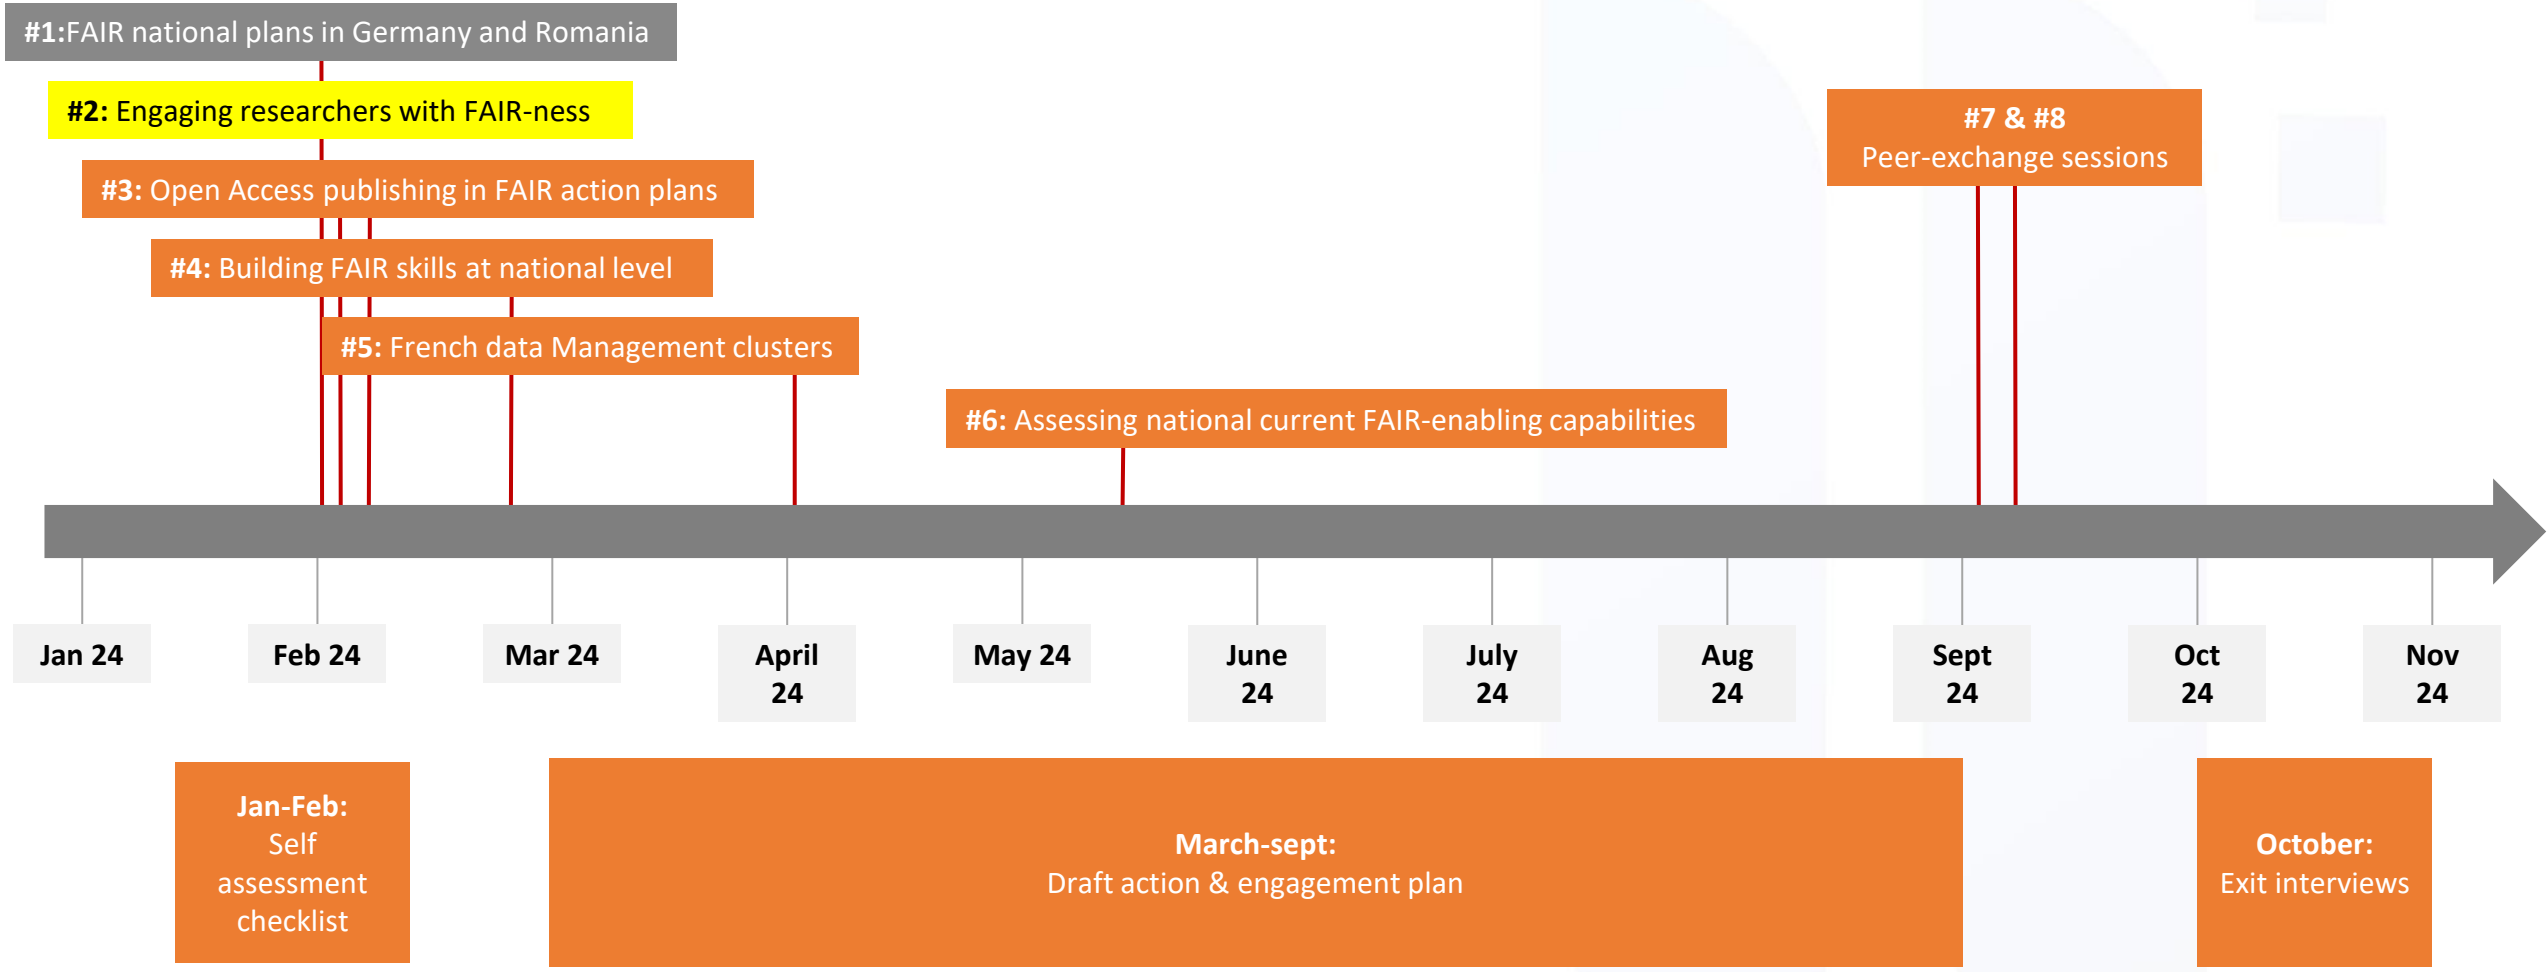

4. Roles & responsibilities

5. Priority

Workshops detailed planning

Introduction to today's keynote speaker

Sverker Holmgren

Co-chair of the EOSC Researcher Engagement & Adoption Task
Force (REA TF)

Director of Chalmers e-Infrastructure Commons

Introduction to today's topic: engaging researchers with FAIR-ness

The aim of this workshop is:

To present and discuss **methods**

To focus on the importance of **national level**

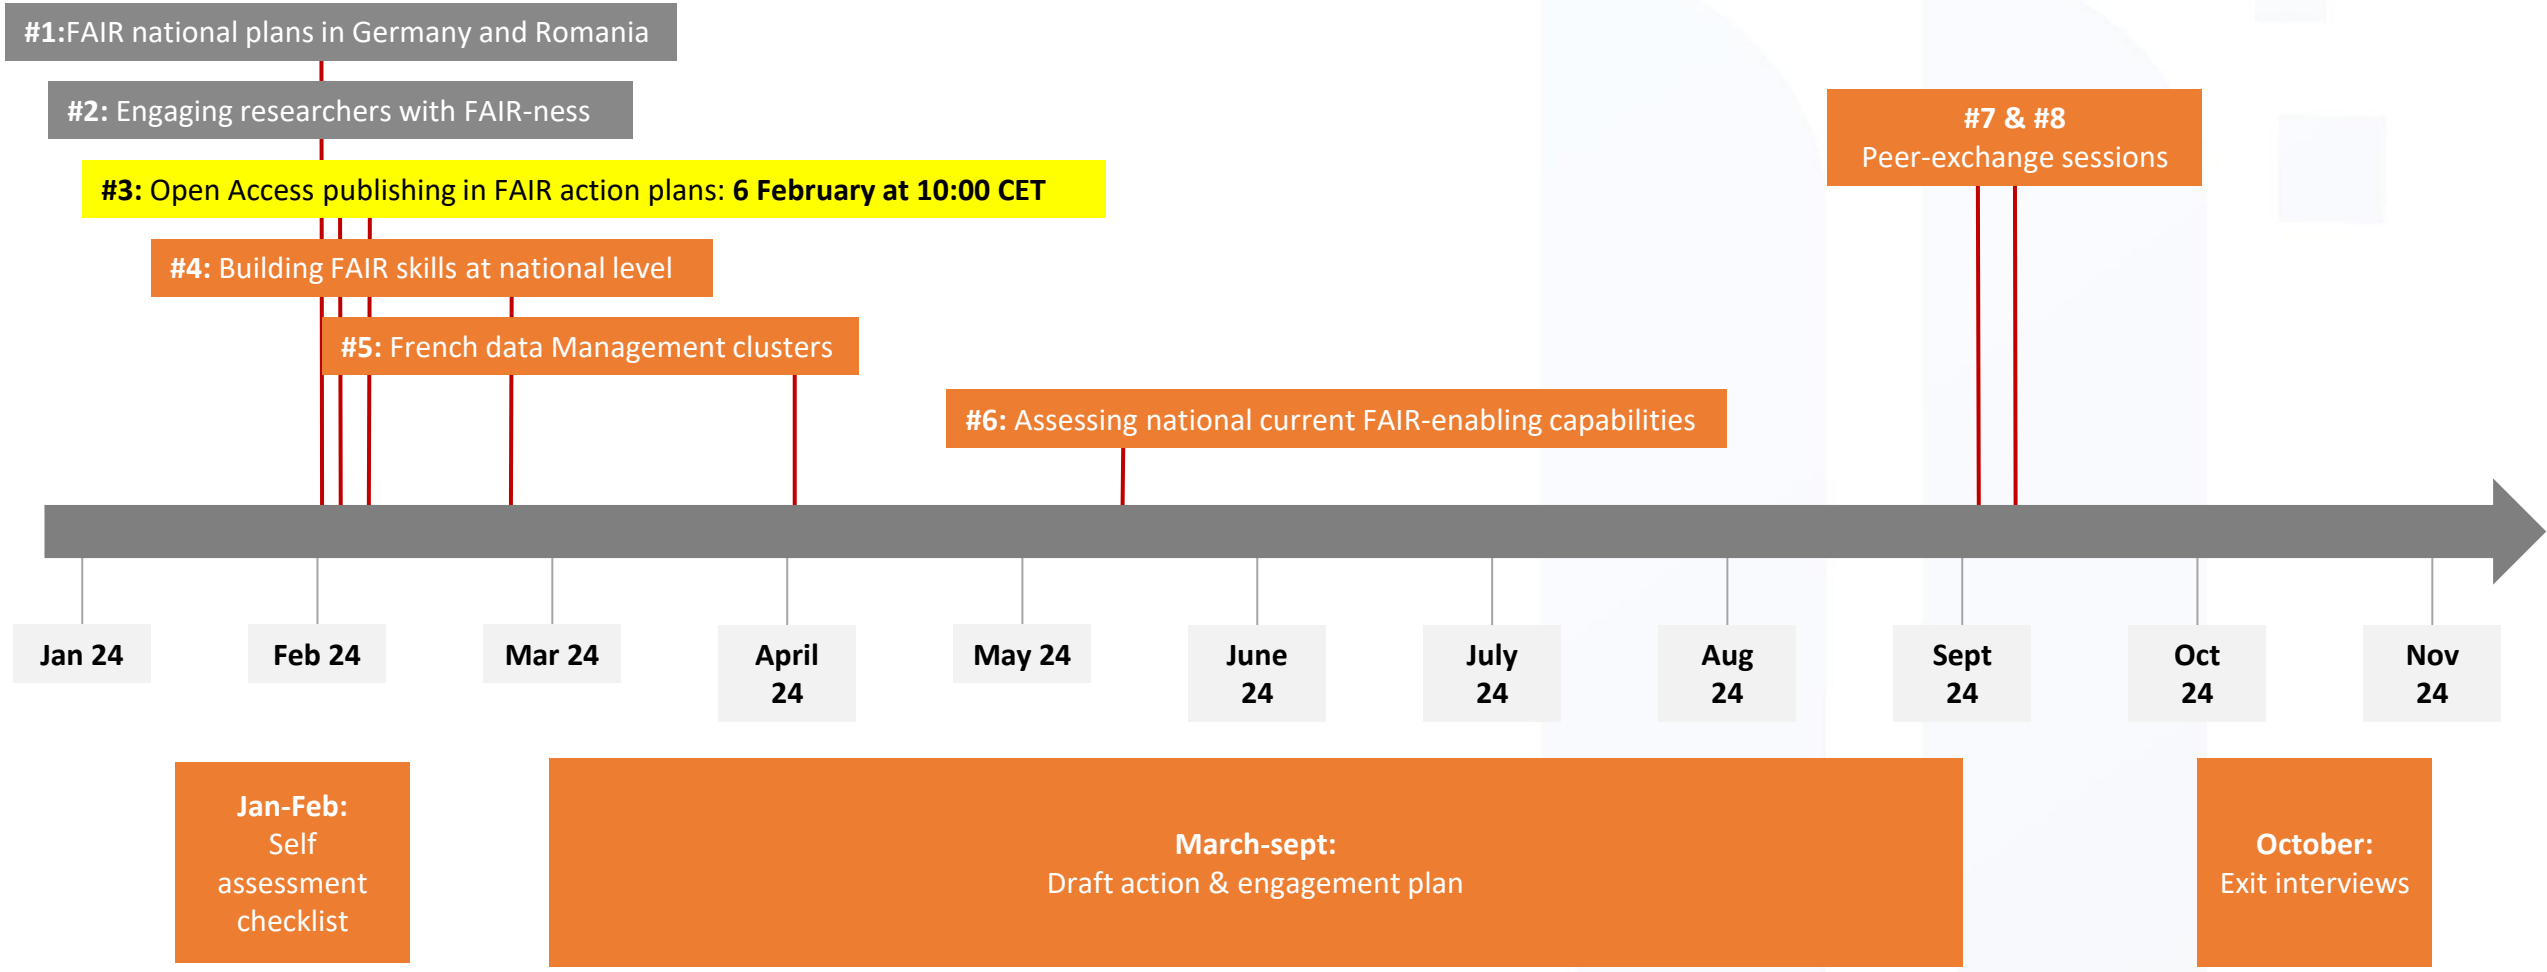

To engage **a broad community** with diverse stakeholders from various scientific communities

For **producing and using FAIR data**
