## FAIR-IMPACT overall objective

### WHAT:

to realise a FAIR EOSC by **supporting the implementation** of FAIR-enabling practices across scientific communities and research outputs at a European, national, and institutional level;

### HOW:

- **identifying** current and emerging components for enabling FAIR (practices, policies, tools & technical specifications);
- **translating** viable solutions, guidelines and frameworks that have been developed for one domain or research output and **supporting** their application in others;
- taking the next step in implementation by **defining** the support, governance, and coordination mechanisms required to ensure the continuous function of FAIR-enabling practices in the EOSC.

# Introduction to FAIR national initiatives support programme

**A focus on methodology:**

**At country level, how can we develop a FAIR implementation action plan?**

Workshop series on  
**targeted topics**

# Main objective: to draft a FAIR implementation action plan

1. Objectives

2. Actions

3. Milestones

4. Roles & responsibilities

5. Priority
