Apply for the HSbooster services

Home / HSbooster.eu Open Call /

HSbooster.eu Open Call

The HSbooster.eu Open Calls provide the opportunity for ongoing or complete H2020, Horizon Europe and Digital Europe projects to apply for practical guidance to assess the standardisation readiness of project results and match them up with standardisation experts who can guide the project on how these results can feed into standardisation working groups or technical committees.

Applications are now open. To apply you should provide information on the project, its standardisation-related objectives and what you hope to gain from the booster service. The call will run continuously until June 2024.

Our step-by-step guide can help you throughout the application process.

Apply here

Standards Orientation Tool

Standardisation self-assessment tool

- Take the first steps towards informed standardisation strategies (for ongoing projects and proposal writing)
- Downloadable standardisation recommendations report
