SSH Open Marketplace

powered by *cessda* CLARIN DARIAH-EU

The SSH Open Marketplace is a discovery portal which pools and contextualises resources for Social Sciences & Humanities research communities.

Resources

- tools and services **2000+**
- training materials **400+**
- datasets **1700+**
- publications **3000**
- workflows **40+**

All Categories ⌄ | Search... | **Search**

Core Principles

1. **Contextualisation:** the tools and services are placed in context via publications, training materials, datasets, and workflows
2. **Curation:** automated checks and manual review to ensure (meta)data quality
3. **Community:** collaborative work and user-centric approach

Governance & sustainability

- Funded and maintained by 3 ERICs under the umbrella of the **SSHOpenCluster** Social Sciences & Humanities Resources | **eosc**

- 17 Editorial Board members moderating and curating the content
- A growing community of contributors

Are you a researcher in Social Sciences and Humanities, a support staff member, a librarian, someone interested in digital tools & methods in SSH?

You want to put your favourite resources on the EU map and contribute to the European Open Science Cloud?

You can not find your favourite tool? The methods and standards in use in your discipline are not well represented in the catalogue?

Join us and contribute!

The SSH Open Marketplace is maintained and will be further developed by three European Research Infrastructures - DARIAH, CLARIN and CESSDA - and their national partners. It was developed as part of the "Social Sciences and Humanities Open Cloud" SSHOC project, European Union's Horizon 2020 project call H2020-INFRAEOSC-04-2018, grant agreement #823782.
