

## ELITMa Module “Data Management Strategy” | Finland 28-29 June 2023

*Best practices from the ELIXIR portfolio of data management tools and services. A quick guide to adopting ELIXIR resources and optimising an ELIXIR Node's data management strategy*

### Organisers

ELIXIR-NL

- Mijke Jetten (mijke.jetten@health-ri.nl)
- Celia van Gelder (celia.vangelder@health-ri.nl)

With contributions from:

- ELIXIR-Hub, Fabio Liberante
- ELIXIR-CH, Vassilios Ioannidis
- ELIXIR-CZ, Anna Strachotova
- ELIXIR-EE, Diana Pilvar
- ELIXIR-FI, Riku Riski
- ELIXIR-FR, Hervé Ménager
- ELIXIR-IT, Ivan Mičetić
- ELIXIR-LU, Pinar Alper & Danielle Welter
- ELIXIR-NL, Joeri van der Velde
- ELIXIR-NO, Korbinian Bösl & Nazeefa Fatima
- ELIXIR-SE, Niclas Jareborg
- ELIXIR-UK, Allyson Lister
- ZonMw, Margreet Bloemers

### Context

ELITMa is a ELIXIR training program in Management, developed for Node Coordinators by ELIXIR-CONVERGE WP6 and WP2 in collaboration.

ELITMa is directed to ELIXIR middle management people, namely, the already mentioned Node Coordinators, who could benefit from the complete program. In addition it is also designed for people involved in training, computing, data or bioinformatics services, who are interested in selected modules, according to their needs and previous background.

This module aims to guide Node Coordinators and Node Data Managers (f.i. ELIXIR-CONVERGE WP<sub>1</sub> member) in strengthening data management in their Node. Its focus are best practices from the ELIXIR portfolio of data management tools and services. After this module, trainees should be able to navigate the ELIXIR data management portfolio and plan for consolidation of the relevant tools and services in their Nodes, aimed at strengthening data management life science research for and by the Nodes' data stewards

and researchers. The module aims to inspire Node Coordinators and Node Data Managers, providing them with new ideas to optimise (if applicable: create) their Nodes' DM strategy in the context of the ELIXIR Programme.

This is a hybrid event, but we expect Nodes to benefit most from the module when joining F2F. To work on a Node Data Management portfolio most optimally, it necessitates your Node Data Manager (f.i. ELIXIR-CONVERGE WP1 member) to be present as well.

As part of ELIXIR, we follow the [ELIXIR Code of Conduct](#) for events.

The training (two days) is part of a three-day event (27-29 June 2023), in Espoo, Finland. The first day of the event is dedicated to ELITMa Module: ELIXIR Governance and Organisational Behaviour, Contacts: Ana Portugal Melo & Ivana Versic. Subtopics for Module 1 are Research Infrastructures, ELIXIR as Research Infrastructure, ELIXIR governance, ELIXIR operational structure and ELIXIR people and communications. The documents from that module are not included in this document/deposit.

## Program June 28

Time (CEST)	Topic
9:00	Welcome & introduction
9:30	Data management: examples of ELIXIR tools and services from a Node strategy perspective - part 1
11:00	Lunch
12:00	Data management: examples of ELIXIR tools and services from a Node strategy perspective - part 2
13:00	Funder requirements to FAIR data
14:00	Break
14:30	Data stewardship roles and competences
15:30	Learn from & share with
Evening	Finland: dinner & hike

## Program June 29

Time (CEST)	Topic
9:00	Maturity/services model, Node strategy and the ideal Node team [Part 1]

10:30	Break
11:00	Maturity/services model, Node strategy and the ideal Node team [Part 2] + wrap up
12:00	Finland: Feedback lunch

*ELIXIR-CONVERGE has received funding from the European Union's Horizon 2020 Research and Innovation programme under grant agreement No 871075*
