Community Discussions.

This chapter was developed with the support and input of the AI for Multiple Long Term Conditions **Public and Patient Involvement and Engagement Community of Practice.**

It summarizes the learnings and recommendations from 25 different projects and their public contributors on how to best **actively** involve patients and members of the public in research events.

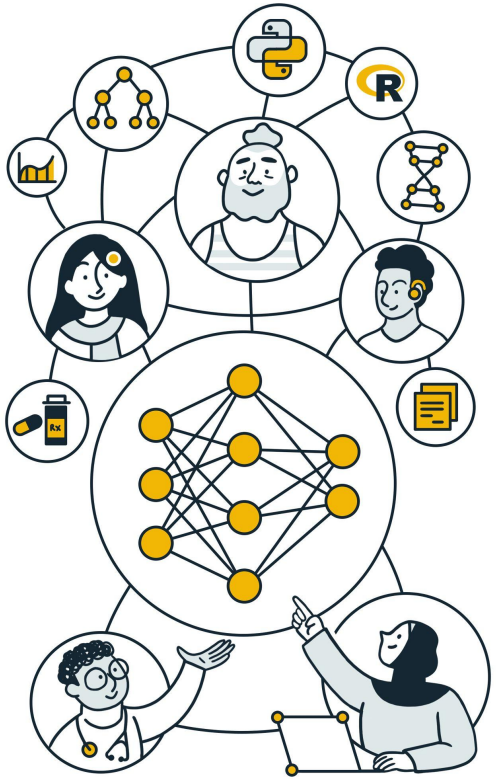
Public Involvement at Research Events.



Rather than research participants where research happens ‘to’, ‘about’ or ‘for’ them.

Public involvement in research is research being carried out **‘with’** or **‘by’** members of the public.

It is an **active partnership** between researchers and members of the public who develop an expertise in a particular area through a first hand “lived” experience.

Thank you.

Dr Kirstie Whitaker
Programme Director for Tools, Practices and Systems

Professor Ronan Lyons
Clinical Professor of Public Health, Medicine, Swansea University

Dr Evelina Gabasova
Principal Research Data Scientist

Gabriella Linning
Communications & Engagement Officer based at the Usher Institute, The University of Edinburgh

Dr Batool Almarzouq
Research Project Manager, AI for Multiple Long-term Conditions

Monica Fletcher
Honorary Research Fellow, Usher Institute, University of Edinburgh

Bastian Greshake Tzovaras
Senior Researcher

Lily Quinlan
Research Administrator at the University of Edinburgh

Mahwish Mohammad
Data Wrangler

Dr Rachael Stickland
Data Wrangler, Data for Research

Chris Orton
Programme Manager at Swansea University Medical School

Sophia Batchelor
Research Community Manager

Dr Ann-Marie Mallon
Data Wrangling Lead, Research Data Team

Sydney Ambrose
Programme Manager

Dr Emma Karoune
Senior Researcher - Research Community Building | Tools, Practices and Systems
