

09:01:12 From Joan Starr : Will it be recorded?

09:01:30 From Lusia : yes

09:10:20 From Anne Donlon to Lusia (Privately) : I'm not sure if people not muting themselves is still an issue but it looks like you can change a setting on zoom to mute us all: <https://support.zoom.us/hc/en-us/articles/203435537-Mute-All-And-Unmute-All>

09:14:54 From jb : Hi - will the slides be available ? it makes a big difference wrt note taking ...

09:14:56 From Lusia to Anne Donlon (Privately) : Thank you, yes, everyone are muted except the Jeroen

09:15:18 From Katrin Leinweber (TIB) : They are already:
https://docs.google.com/presentation/d/1Nz1FGTZE5V4vPdem_1OVMw7nQqTroFY6khroBy3zC7I/edit#slide=id.g28e52fb032_0_2

09:15:25 From jb : thanks

09:16:01 From Katrin Leinweber (TIB) : You're welcome :-)

09:16:37 From Danny Kingsley : Is the twitter handle a typo or is it misspelt deliberately?

09:16:47 From Danny Kingsley : Ahh there's my answer

09:18:08 From Katrin Leinweber (TIB) : The proof of the hyperlink is in the loading ;-)

09:19:03 From Bianca : There's a strict character limit to Twitter handles still :-)

09:19:24 From Rusty Speidel : makes sure you're muted!

09:30:22 From Ricardo Hartley Belmar : :)

09:53:20 From Danny Kingsley : Thanks for the shout out Fiona!!

09:56:22 From iPad : someone needs to mute or stop eating.

09:57:12 From Maryann Martone : OR shuffling cards

09:57:33 From iPad : please!

09:58:26 From amyprice : I think it is mike interference as everyone is muted

09:58:43 From Jessica : Don't we have a moderator/admin to detect the user?

09:59:00 From Maryann Martone : Lusia, can you check whether everyone is muted

09:59:47 From Jessica : I think it is Fiona's mic!

10:00:21 From amyprice : I think an admin can mute all except speaker until questions?

10:01:22 From Jessica : Please! If necessary, we will raise hands.

10:01:38 From Maryann Martone : Sent a text to the administrators to see if they can help

10:02:15 From Bianca : Don't know if it works this way in Zoom (Lusia?), but again, if it's mic interference (which sounds like it's likely) there's little that can be done

10:04:33 From Danny Kingsley : Loving the car analogy but I have to ring off now - have a good weekend everyone

10:04:54 From Maryann Martone : Everyone but Ron Margolis is muted and we can't seem to mute him.

10:05:45 From Bianca : Thanks for joining Danny, and have a great weekend

10:08:32 From TerryLongstreth : Build the whole? OK, but it mediates against agile development, success oriented funding, and the human nature that says "The prototype is good; let's use it as is"

10:10:00 From fionamurphy : Sorry to hear that the sound wasn't good.

10:10:21 From TerryLongstreth : Put differently; build the whole presupposes that you can

know in advance what the whole will look like.

10:10:25 From Nicky Agate : Half the Humanities Commons team is on this call, and we fully endorse this notion of a distributed Commons and are excited to get involved.

10:10:46 From Jeanine Finn : I appreciate the holistic view articulated here. It is a much needed antidote to the "chaotic innovation" week I've been having! Thank you, everyone.

10:11:51 From Rusty Speidel : Same for COS / OSF. This is a terrific vision.

10:13:04 From Maryann Martone : Thank you Rusty, Nicky and Jeanine

10:17:30 From fionamurphy : Hi Terry - I see what you're saying but we are trying to convey that tools should be developed with these underlying values inherently baked in so that workflows can use a variety of media without lots of cutting and pasting or other barriers.

10:21:01 From Bianca : Yes, thanks Rusty, Nicky and Jeanine! It's energizing to hear the enthusiasm - I'm personally much looking forward to exploring further how existing platforms fit into a 'distributed commons', as well as what comes out of the exploration of new technology/systems (what Chris is talking about now)

10:21:02 From TerryLongstreth : Watching the WG4 preso now, and it seems to more in keeping with my thoughts. I'm a literalist and I apparently misconstrued 'building the whole' to mean the actual production and deployment of a solution.

10:21:17 From amyprice : where will slides be posted is there a link or app

10:21:46 From Maryann Martone : Terry, as you can see that is a possible interpretation.

10:21:54 From Katrin Leinweber (TIB) : That's the Unix Philosophy, right? Small programs that do one thing well and play well together (clearly defined data in- & output, piping, etc.)

10:22:30 From Lauren Bianchini : Can someone post the link to the list of scenarios that were previously mentioned? Thx!

10:22:32 From Ricardo Hartley Belmar :

<https://docs.google.com/document/d/1CMva3sV2R1wcvNfK08CYF0m6FIBWC-1ESV7j5uaJFdg>

10:23:22 From Bianca : Slides are currently online as Google Slides (slides from Chris' will be added), we intend to make them open, fair and citable afterwards, too :-)

10:24:20 From Jessica : Is this the link for the poll? <https://simplevote.ml/#!/poll/NRD>

10:24:23 From Katrin Leinweber (TIB) : Is there some tool (maybe Firefox or Chrome plugin, or Google App) that enables assigning a DOI to a Google Doc?

10:24:35 From Maryann Martone : I would certainly love one

10:24:35 From Bianca : Thanks Jessica :-)

10:24:59 From Jessica : I can't reach it myself :)

10:25:04 From Jeroen Bosman : The link to the poll is also in the Google Doc, and here: <https://tinyurl.com/commonspollwebinar>

10:28:48 From Bianca : Re: DOIs for Google Docs - that raises interesting questions about versioning :-)

10:29:38 From Bianca : Thanks so much Dominique. Slides and recording will be shared!

10:30:06 From Dominique Babini - CLACSO : thank you Bianca

10:30:19 From Rusty Speidel : Terrific call, thank you.

10:30:31 From amyprice : Thanks this is great!
