Adoption & Implementation support

Route 1: via support programmes providing guidance and one-to-one support:

The second open call under this route opened on 30 April 2024:

- Targeting Repositories & Data Services Providers
- Webinar to introduce support programme 8 May 2024 ([recording available](#))
- **Virtual clinic 5 June 2024** to answer questions from potential applicants
- **Deadline for applications: 14 June 2024**
- Notifications to applicants: end of July / early August 2024
- Start of support action: later September 2024

Route 2: via cascading grants to enable testing of specific tools, approaches and methods

The call is currently closed, the support programme is ongoing

The final Route 2 open call opens on **30 September 2024**.

FAIR Implementation Workshops

New Repositories for New Biodiversity Research

11:00 - 12:00 CEST
13 June 2024

Online

AUDIENCE

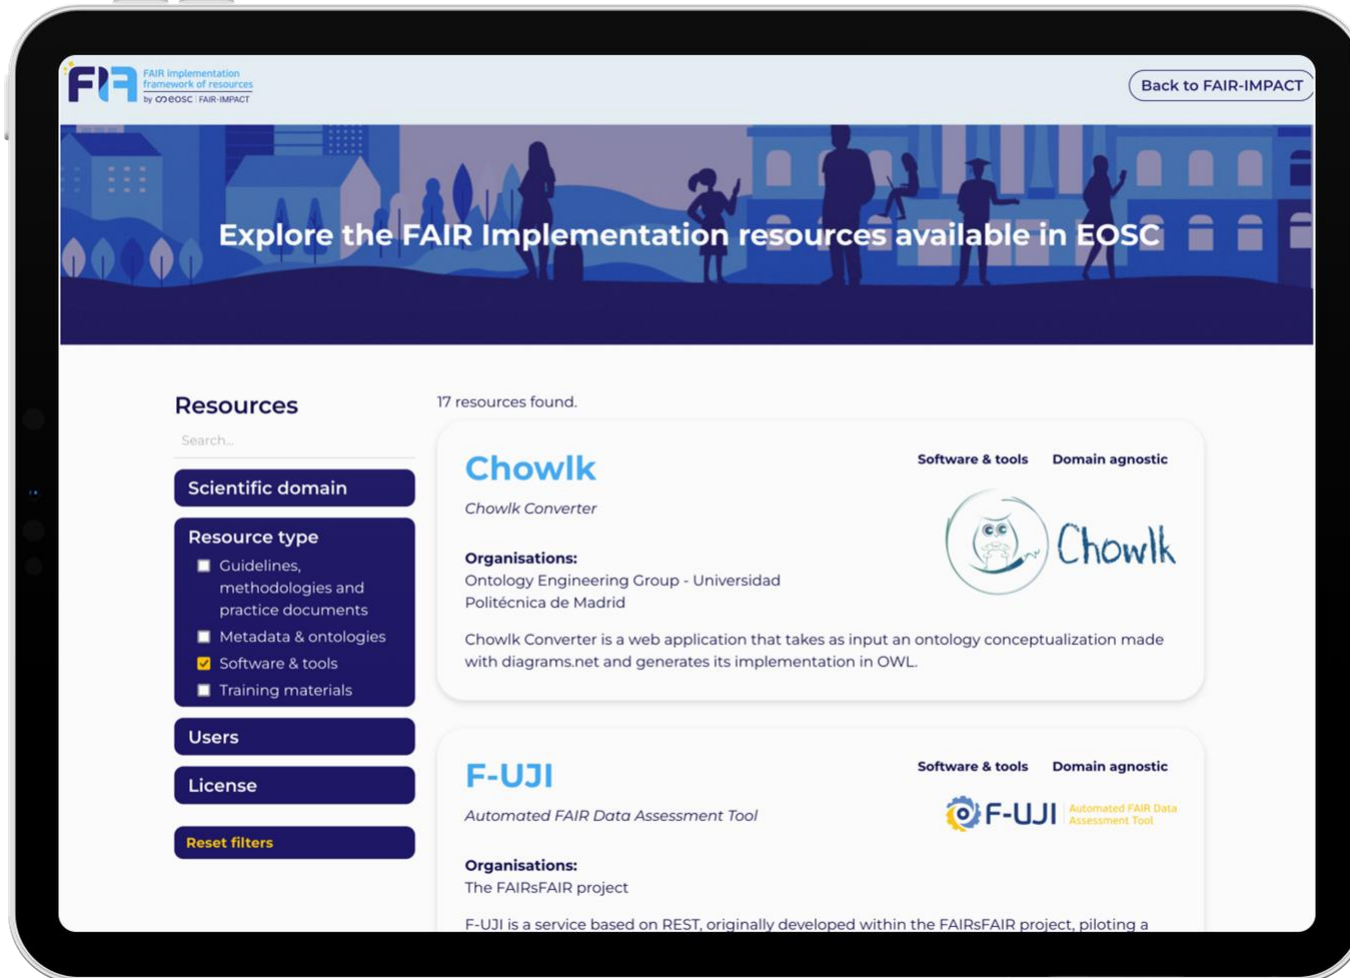

Repositories and Data
Service Providers

Recent technology-driven advances in **biodiversity research** have created a need for more, new types of FAIR repositories. In this meetup, we discuss two of these.

FAIR Implementation Catalogue

FAIR-IMPACT has developed the FAIR Implementation Framework (FIF) to help different stakeholders assess their drivers for becoming (more) FAIR-enabling and their current practices. A key component of the FIF is a **catalogue or resources that users can use to identify tools and solutions most appropriate for their use, with direct links to the original resources.**

FAIR Implementation Catalogue

Help us shaping the **FAIR Implementation Framework**: add details of currently available FAIR-enabling tools, approaches or solutions to be available in the catalogue of resources.
