What is Hsbooster.eu?

Purpose: To pilot a Standardisation Booster for EU projects to increase their impact, gain marked access and support the European green and digital agenda by using standards and contributing to standardisation

Support objectives within **EU Standardisation Strategy & Code of practice on standardisation**

Standards bridge research and global markets enabling knowledge transfer

Standardisation gives researchers the opportunity to

- Tap into a vast knowledge base
 - 28,000+ standards
 - 1000+ technical committees
- Increase impact of research
 - Build trust and confidence in your research
- Gain marked access
- Standards create an impact!**

Access free support for researchers

- Learn more about standardisation
- Develop a standardisation strategy
- Meet standardisation experts
- Adopt/use relevant standards
- Contribute to standardisation
- Available to ongoing or completed H2020, Horizon Europe and DEP research projects including MSCA projects.
