

**FAIR-IMPACT**

Expanding FAIR solutions across EOSC

# FAIR-IMPACT support

National Roadshow in Austria

Joy Davidson, DCC

## Our support activities

- 3 support routes:
  - **Route 1: via dedicated guidance and one-to-one support**
  - **Route 2: via support to test specific tools, approaches and solutions**
  - **Via our series of public FAIR Implementation workshops**

- 50 participants
- 27 participating organisations
- from 15 countries

## Second call for national-level initiatives

The FAIR-IMPACT project is pleased to announce the launch of a support programme for national-level initiatives. **This programme targets organizations with a national scope**, included (but not limited to) those mandated by EOSC. **Its purpose is to assist participants in developing their FAIR implementation activities.**

Through this programme, participants will have the opportunity to engage with experts in a series of virtual workshops covering a range of topics, including training, funding, convincing decision-makers, engaging researchers, and showcasing national initiatives. These sessions aim to provide comprehensive insights into what is achievable at the national level for FAIR.

Participants will also receive support from the FAIR-IMPACT team to help them draft their FAIR implementation plans.

This programme is an opportunity to gain valuable insights and guidance for advancing your organization's FAIR practices.

## What we will provide

- A **dedicated, tailored support package**, including virtual workshops, expert guidance and advice from FAIR-IMPACT project partners and resource providers to enable participants to **implement the particular tool or approach**.
- **Financial support** to enable participation, payable by invoice upon successful completion of the support action.<sup>1</sup> The exact amount of the financial support that will be provided will vary across the support actions as it is based on the number of days required to participate. In most cases, participation in support actions will require between 5-10 days of effort from participants spread over a 1-2 month period. Funds may be used solely for supporting staff time to carry out relevant support action activities (participating in the virtual webinars, carrying out homework, completing exit questionnaire and/or interview, etc.).
- The opportunity to share their knowledge and learn from their peers through the **virtual workshops**.
- The opportunity to promote their work via a published **FAIR-IMPACT Implementation Story**.

- Support package including virtual workshops, guidance and advice from mentors
- Financial support to enable participation (based on a flat rate of 500 euros per day)
- Opportunity to share knowledge and learn from peers

# Implementation & Adoption Stories

The FAIR-IMPACT Implementation stories illustrate good practices in research communities and organisations to support the implementation of the FAIR principles.

## IMPLEMENTATION STORY

### Navigating FAIR Waters: A Journey of Transformation for Radboud University's Data Repository

FAIRness Assesment Challenge

**A team from Radboud University's Research Data Repository used FDMM and F-UJI to assess the FAIRness of their service and as a starting point to create an action plan to improve it.**

*We selected two open access datasets from the RDR's collection for the assessment. We prioritised open access datasets as we consider it is more important to make those FAIR.*

*We got a moderate score for both datasets in F-UJI (62%). Findable (full score) and Accessible (moderate score) were good, Interoperable and Reusable appeared as less well developed, which makes sense because we are a generalist repository, and it is difficult to focus on the interoperability and reusability aspects. We got some feedback from the mentor on how to improve those aspects. Some points highlighted were that we need to complete the information in our metadata export via schema.org<sup>3</sup> in the html header of our dataset's landing page, and in our DataCite<sup>4</sup> metadata export, which we do by registering the DOI via DataCite.*

---

Supported applicant: **Didi Lamer | Radboud University**

FAIR-IMPACT Support: Clara Linés | Digital Curation Centre (DCC), Samantha Willemsen |DANS

# FAIR Implementation Workshops

Where do I start FAIRfication with sensitive research data?

14:00 - 15.15 CEST  
25 June 2024

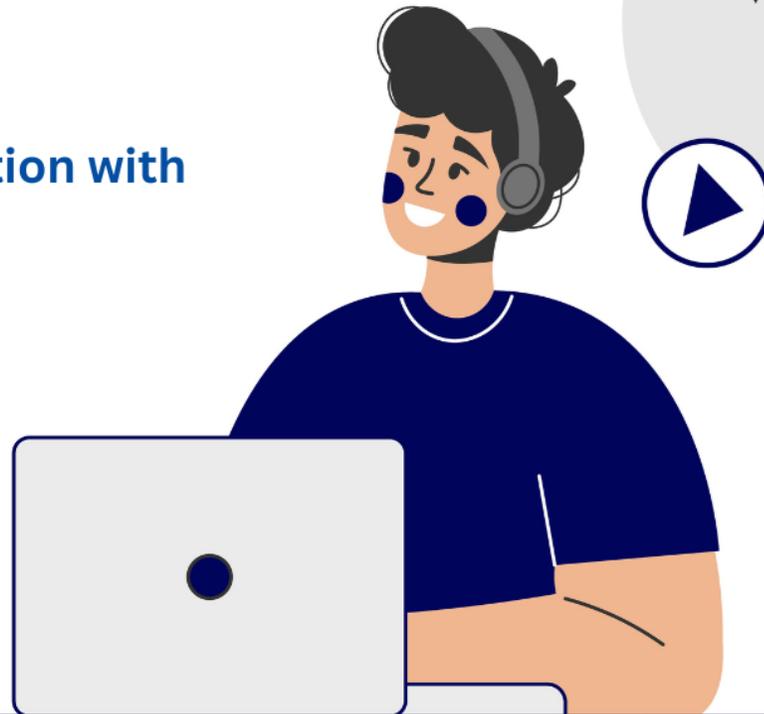

Online

**AUDIENCES**  
Repositories and Data  
Service Providers

Research Performing  
Organisations

- Free workshop open to all
- Register via our website
- Next one on June 25 on sensitive data

Thank you!
