

**Data for the Paper „Retrieval-Mediated Directed Forgetting in the Item-Method Paradigm:  
The Effect of Semantic Cues“**

<b>File</b>	<b>Description</b>
Pretest_CRData.csv	Cued recall data (in long format) for the pretest.
Pretest_FRData.csv	Free recall data (in long format) for the pretest.
Study1_Data_ItemLevel.csv	Data (in long format) of study 1.
Study2_Data_ItemLevel.csv	Data (in long format) of study 2.
Study1_Data_wide.sav	Data (in wide format) of study 1.
Study2_Data_wide.sav	Data (in wide format) of study 2.
Study1_MPT_OrderConstraints.mpt	MPT data and model with order constraints for study 1. Can be opened with the program <i>multitree</i> .
Study2_MPT_OrderConstraints.mpt	MPT data and model with order constraints for study 2. Can be opened with the program <i>multitree</i> .
