

# Utilization of Traditional Methods and Strategies by Rural Individuals

Radhika Kapur

**Abstract:** *The individuals, belonging to rural communities have one of the major goals of sustaining their living conditions in an effective manner. In order to achieve this goal, they are engaged in agriculture and farming practices. Furthermore, they are engaged in production and manufacturing processes of various products. In the production processes, they are utilizing different types of traditional methods and strategies. With advancements taking place and with the advent of modernization and globalization, individuals are augmenting information in terms of different types of pioneering methods and strategies. These are complicated as well as manageable and can be implemented in less amount of time or can be more time-consuming. Hence, it is necessary for rural individuals to acquire an efficient understanding of the concepts. In addition, one will render an important contribution in generating desired outcomes. In the present existence, rural individuals will bring about transformations in their overall quality of lives, when they will replace traditional methods and strategies by pioneering methods and strategies. Therefore, it is well-understood; utilization of pioneering methods over traditional methods and strategies has proven to be favourable to the individuals on a comprehensive basis. The main concepts that are taken into account in this research paper are, objectives of utilization of traditional methods and strategies, advantages of replacing traditional methods and strategies by pioneering methods and strategies and measures to be implemented in utilizing pioneering methods and strategies.*

**Keywords:** *Abilities, Efficiency, Methods, Pioneering, Rural Individuals, Strategies, Traditional*

## I. INTRODUCTION

The individuals, belonging to rural communities are overwhelmed by the problem of unawareness. They are unaware in terms of different types of methodologies and procedures, which are necessary in leading to up-gradation of their overall standards of living. The rural individuals are making use of different types of traditional methods and strategies in putting into operation various types of tasks and activities. The agriculture and farming practices are regarded as the primary occupations of rural individuals (Bhatia, 2013) [1][8][9]. Apart from these, they are engaged in production and manufacturing of different types of artworks and handicrafts. Furthermore, they are ironsmiths, goldsmiths, weavers, engaged in basket making, pottery making and so forth. In putting into operation different tasks and activities, they are utilizing traditional methods and strategies.

These are complicated as well as manageable. But one of the major disadvantages is, the job duties get implemented in more amount of time. Therefore, utilization of traditional methods and strategies is not as advantageous as compared to modern, scientific and innovative methods and strategies.

The rural individuals are required to be imparted information in terms of the factor that with advancements taking place and with the advent of modernization and globalization, individuals are required to be well-informed in terms of modern, scientific and innovative methods and procedures. These can be manageable as well as complicated. The individuals are required to acquire an efficient understanding of the concepts. Furthermore, they are required to get engaged in regular practice (Faulder, 2011) [3]. This is facilitating in acquiring an efficient understanding of the concepts. In addition, one needs to clarify all their doubts. The rural individuals are required to focus on implementing the measures that are necessary in honing their competencies in terms of modern, scientific and innovative methods and materials. As a consequence, they will be able to carry out their job duties in a well-ordered and regimented manner. In addition, there will be an increase in productivity and profitability. Therefore, in order to lead to progression, it is necessary to replace traditional methods and strategies by different types of modern, scientific and innovative methods and materials.

## II. OBJECTIVES OF UTILIZATION OF TRADITIONAL METHODS AND STRATEGIES

The rural individuals are making use of different types of traditional methods and strategies in putting into operation different types of tasks and activities. The individuals, belonging to rural communities are focused towards leading to up-gradation of productivity and profitability. In addition, they are required to make sure, they are augmenting information in terms of different types of pioneering methods and materials. These are favourable to the rural individuals in leading to an increase in productivity and profitability.

There are rural individuals throughout the country, who are making use of different types of traditional methods and strategies. These need to be put into operation in a well-ordered and satisfactory manner. The rural individuals need to be moral and ethical in their conduct. Furthermore, they are required to hone the traits of diligence, conscientiousness and resourcefulness. As a consequence, one will be able to carry out their job duties and responsibilities in a disciplined manner. Furthermore, one will be able to lead to an increase in productivity and profitability. In addition, customer needs and requirements will be met.

## Utilization of Traditional Methods and Strategies by Rural Individuals

It is necessary for rural individuals to be well-equipped in terms of objectives of utilization of traditional methods and strategies. These are stated as follows:

1. Making wise and productive decisions regarding various factors.
2. Making use of resources in an effective manner.
3. Bringing about improvements in one's financial positions.
4. Taking out sufficient amount of time for all types of tasks and activities.
5. Inculcating the traits of morality and ethics.
6. Implementing the traits of diligence, resourcefulness and conscientiousness.
7. Putting in efforts to one's best abilities.
8. Possessing the abilities to work under stress.
9. Reinforcing the traits of efficiency, honesty and truthfulness.
10. Coping with different types of dilemmas and challenging situations in an adequate manner.
11. Developing mutual understanding with family and community members.
12. Integrating with mainstream society.
13. Overcoming the feelings of seclusion and loneliness.
14. Augmenting information in terms of other methods and procedures.
15. Making wise and productive decisions.
16. Honing analytical, problem-solving and critical-thinking skills.
17. Possessing the abilities to prevent setbacks from assuming a major form.
18. Promoting enhancement of their overall personality traits.
19. Leading to up-gradation of overall standards of living.
20. Promoting family and community well-being.

### A. Advantages of Replacing Traditional Methods and Strategies by Pioneering Methods and Strategies

An aimless life is a meaningless life. Hence, all individuals have different types of goals and objectives to achieve. These are in personal and professional lives. Hence, when they are wholeheartedly committed towards putting into operation their tasks and activities, they are to be well-equipped in terms of different types of methods and strategies. With the advent of technologies, one needs to be well-informed in terms of different types of pioneering methods and strategies. As a consequence of making use of these, one will be able to carry out the job duties in a less time-consuming and efficient manner (Gadus, Gadusova, & Haskova, n.d.) [4].

In the utilization of traditional methods and strategies, one puts into practice the job duties manually. The individuals need to be moral and ethical in their conduct. Furthermore, they are required to hone the traits of diligence, conscientiousness and resourcefulness. As a consequence, one will be able to carry out their job duties in a well-ordered manner. Furthermore, one will be able to lead to an increase in productivity and profitability. Therefore, it is necessary for rural individuals to be well-informed in terms of advantages of replacing traditional methods and strategies by pioneering methods and strategies. These are stated as follows:

### B. Jobs get Implemented in less Amount of Time

The jobs get put into operation in less amount of time, as a consequence of putting into operation different types of pioneering methods and strategies. Furthermore, individuals

are required to manage the time in an effective manner. In addition, one needs to be well-informed in terms of time-management skills. In putting into operation different tasks and activities, the rural individuals in most cases are utilizing traditional methods and strategies. These are complicated as well as manageable. But one of the major disadvantages is, the job duties get implemented in more amount of time. On the other hand, through utilization of different types of pioneering methods and strategies, individuals will be able to put into operation different types of tasks and activities in a well-ordered manner.

The individuals will be able to complete all the job duties and responsibilities in less amount of time as comparative to traditional methods and strategies. Hence, in their occupations and putting into operation various job duties, individuals, belonging to rural communities are required to be well-informed in terms of various types of pioneering methods and strategies. Therefore, jobs get implemented in less amount of time is regarded as one of the indispensable advantages of replacing traditional methods and strategies by pioneering methods and strategies.

### C. Jobs get Implemented in an Efficient Manner

Through utilization of different types of pioneering methods and strategies, when the individuals are putting into practice various types of tasks and activities, they will be able to render an important contribution in reinforcing efficiency. The rural individuals are required to be well-informed in terms of traits of resourcefulness, conscientiousness and diligence. As a consequence, one will be able to carry out different types of tasks and activities in a well-organized and disciplined manner. But one of the major disadvantages is, the job duties get implemented in more amount of time. On the other hand, through utilization of different types of pioneering methods and strategies, individuals will be able to put into operation different types of tasks and activities in a well-ordered and efficient manner.

The individuals will be able to complete all the job duties and responsibilities in a more efficient manner as compared to traditional methods and strategies. Hence, in their occupations and putting into operation various job duties, individuals, belonging to rural communities are required to be well-informed in terms of various types of pioneering methods and strategies. Therefore, jobs get implemented in an efficient manner is one of the significant advantages of replacing traditional methods and strategies by pioneering methods and strategies.

### D. Lead to an Increase in Productivity and Profitability

The different types of pioneering methods and strategies are facilitating in leading to an increase in productivity and profitability. The individuals, belonging to rural communities are putting into operation various tasks and activities in order to sustain their living conditions in an adequate manner. When they are engaged in agriculture and farming practices and production of various types of products, they have one of the primary goals of leading to an increase in productivity and profitability.

As a consequence of being well-informed in terms of various types of pioneering methods and materials, they will be able to carry out all types of tasks and activities in an efficient manner.

The individuals are able to augment their information in terms of pioneering methods and strategies, which are necessary in doing well in one's job duties, achieving desired goals and meeting the expectations of others. The individuals, belonging to rural communities are required to be well-equipped in terms of techniques, which are facilitating in leading to up-gradation of various types of pioneering methods and materials. In this manner, traditional methods and strategies will not be utilized any more. Therefore, lead to an increase in productivity and profitability is an eminent advantage of replacing traditional methods and strategies by pioneering methods and strategies.

### III. HONE MOTIVATION LEVELS

The individuals, belonging to rural communities are required to lead to up-gradation of motivation levels towards putting into operation various tasks and activities. As a consequence of being well-versed in terms of different types of pioneering methods and strategies, rural individuals are able to carry out different tasks and activities in an adequate manner. When they will be well-informed in terms of methods and strategies, their mind-sets will be stimulated towards carrying out all tasks satisfactorily. Furthermore, they will contribute efficiently in leading to up-gradation of motivation and confidence levels. The main reason being, when one will be well-informed, they will be able to put in efforts to their best abilities in doing well in their job duties and generating desired outcomes.

It is apparently understood that utilization of various types of pioneering methods and strategies can be challenging. But acquiring an efficient understanding of the concepts and getting engaged in regular practice will be facilitating to the rural individuals on a comprehensive basis. This is considered as one of the essential factors in doing well in one's job duties and meeting the expectations of individuals within and outside the homes. Therefore, hone motivation levels is an expedient advantage of replacing traditional methods and strategies by pioneering methods and strategies.

#### A. Augment Concentration Levels

The individuals, belonging to rural communities are required to lead to up-gradation of motivation levels towards putting into operation various types of job duties and responsibilities. As a consequence of being well-versed in terms of different types of pioneering methods and strategies, rural individuals are able to carry out different tasks and activities in a satisfactory manner. When they will be well-informed in terms of methods and strategies, their mind-sets will be stimulated towards carrying out all tasks satisfactorily. Furthermore, they will contribute efficiently in leading to up-gradation of concentration and confidence levels. The main reason being, when one will be well-aware, they will be able to put in efforts to their best abilities in doing well in their job duties and generating desired outcomes.

It is apparently understood that utilization of various types of pioneering methods and strategies can be challenging. But rural individuals need to ensure, they form positive

viewpoints in terms of different tasks and activities. Furthermore, they are required to reinforce a constructive approach. This is considered as one of the essential factors in putting into practice one's job duties in an efficient manner. Furthermore, one will be able to meet the expectations of individuals within and outside the homes. Therefore, augment concentration levels is a renowned advantage of replacing traditional methods and strategies by pioneering methods and strategies.

#### B. Meet Customer Demands

The meeting of customer demands is regarded as one of the indispensable goals of individuals, belonging to rural communities. The customers appreciate the products, which are produced in an efficient manner. The customers are appreciating and acquiring an efficient understanding of products, which are put into operation through utilization of different types of pioneering methods and materials. In the modern society, when the production processes takes place through utilization of various types of pioneering methods and strategies, the individuals are able enhance the production processes. In other words, one is able to satisfy the needs and requirements of the customers. The individuals, belonging to rural communities are required to be well-equipped in terms of job duties and responsibilities. Furthermore, they are required to be well-informed in terms of different types of methodologies and procedures. As a consequence, they will ensure, they will implement all types of tasks and activities in a well-organized and disciplined manner. Hence, not only individuals will contribute efficiently in doing well in their jobs, but they will be able to incur the feelings of pleasure and contentment. Therefore, meet customer demands is a prominent advantage of replacing traditional methods and strategies by pioneering methods and strategies.

#### C. Inculcate the Traits of Morality and Ethics

Inculcating the traits of morality and ethics is regarded to be of utmost significance in putting into operation different types of tasks and activities in an adequate manner. As a consequence, one will be able to differentiate between various types of appropriate and inappropriate factors; inculcate the traits of efficiency, honesty and truthfulness; form positive viewpoints in terms of various factors and individuals; reinforce a constructive approach; put in efforts to one's best abilities; possess the abilities to work under stress; cope with different types of problems and challenging situations in an effective manner; possess a pleasant personality and an approachable nature; do well in one's job duties and promote well-being and goodwill of others. All these factors are beneficial to the individuals in all spheres.

The traits of morality and ethics are regarded as vital in putting into operation different types of job duties and methodologies. When the individuals are utilizing different types of pioneering methodologies and strategies, they need to ensure, they are able to carry out all types of job duties in a well-ordered manner. Furthermore, acknowledgement and implementation of traits of morality and ethics will be facilitating in achievement of desired goals.

Therefore, inculcate the traits of morality and ethics is a meaningful advantage of replacing traditional methods and strategies by pioneering methods and strategies.

### **D. Implement the Traits of Diligence, Resourcefulness and Conscientiousness**

Implementing the traits of diligence, resourcefulness and conscientiousness is regarded as vital in doing well in one's job duties and achieving desired goals. In some of the pioneering methods and strategies, the concepts are difficult to understand. As a consequence of acknowledging and implementing these traits, one will be able to overcome all types of setbacks. In this manner, one will put into operation different types of tasks and activities in a successful manner. Hence, individuals will do well in one's job duties and meet the expectations of others. One of the important advantages is, individuals will be able to cope with various types of stressful situations in a satisfactory manner. These will be prevented from giving rise to impediments within the course of putting into practice various job duties.

Within the course of putting into practice different types of pioneering methods and strategies, individuals need to ensure, they are confident. Furthermore, they are required to overcome the feelings of apprehensiveness and vulnerability. These need to be eliminated and prevented from assuming a major form. Hence, it is well-understood, implementing the traits of diligence, resourcefulness and conscientiousness are regarded as vital on a comprehensive basis. Therefore, implement the traits of diligence, resourcefulness and conscientiousness is a productive advantage of replacing traditional methods and strategies by pioneering methods and strategies.

### **E. Possess the Abilities to Work under Stress**

The rural individuals are well-informed in terms of the factor that one needs to possess the abilities to work under stress. Within the course of utilization of pioneering methodologies and strategies, there are occurrences of various types of dilemmas and challenging situations. The different factors in terms of which these take place are, job duties, procedures, techniques, approaches, materials, work pressure, lack of implementation of time-management skills, unawareness in terms of various factors, lack of analytical, critical-thinking and problem-solving skills, scarcity of financial, human, technical, material and information resources, lack of infrastructure, amenities and facilities and so forth. All these factors give rise to impediments within the course of putting into operation various types of pioneering methods and strategies.

The utilization of various types of pioneering methods and strategies are regarded as vital in carrying out tasks and activities in an efficient manner. The rural individuals are required to make sure, they possess the abilities to work under stress. This is considered essential in coping with different types of problems and challenging situations in a well-ordered and disciplined manner. Hence, this measure is considered to be advantageous on a comprehensive basis. Therefore, possess the abilities to work under stress is a favourable advantage of replacing traditional methods and strategies by pioneering methods and strategies.

### **F. Promote Enhancement of their Living Conditions**

Promoting enhancement of their living conditions is regarded as one of the major goals of individuals, belonging to rural communities. In order to achieve this goal, one needs to be well-informed in terms of different types of methodologies and procedures. In their occupations and fields, they need to ensure, they are putting into operation different types of pioneering methods and strategies in an adequate manner. When they are making use of different types of traditional methods and strategies in the production processes, they need to ensure, they augment their information in terms of different types of pioneering methods and strategies. They get enrolled in educational institutions and training centres in order to enrich their competencies and abilities.

As a consequence of leading to an increase in productivity and profitability, one will be able to generate income, hence, enhancement will take place of overall living conditions. The main reason being, through bringing about improvements in one's financial positions, one will be able to fulfil different types of needs and requirements. In this manner, one will acknowledge that they will be able to bring about improvements in their overall quality of lives, by putting into practice pioneering methods and strategies. Therefore, promoting enhancement of their living conditions is a worthwhile advantage of replacing traditional methods and strategies by pioneering methods and strategies.

### **G. Measures to be Implemented in Utilizing Pioneering Methods and Strategies**

With the advent of technologies, rural individuals are required to be well-informed in terms of different types of pioneering methods and strategies. They need to understand that these will be facilitating and approving to them on a comprehensive basis. In putting into operation different types of tasks and activities, i.e. agricultural and farming practices, production and manufacturing processes, basket making, pottery making, and so forth, pioneering methods and strategies are useful on a comprehensive basis (Information and Communication Technology, 2014) [5]. The rural individuals are required to be well-informed in terms of different types of measures to be implemented in utilizing pioneering methods and strategies.

These are complicated as well as manageable, these are implemented in more amount of time or can be less time-consuming and these are implemented on one's own or through obtaining support and assistance from other individuals, including family and community members. One of the important aspects that needs to be taken into account is, all types of measures are required to be implemented in a well-ordered and disciplined manner. Therefore, measures to be implemented in utilizing pioneering methods and strategies are, acquiring an efficient understanding of the concepts; getting engaged in regular practice; honing confidence levels; overcoming all types of setbacks; carrying out job duties in a well-ordered manner and meeting the expectations of others. These are stated as follows:

## H. Acquiring an Efficient Understanding of the Concepts

The different types of pioneering materials are, utilization of charts, graphs, maps, pictures, images, tools, devices, machinery, equipment, apparatus and technologies. The rural individuals are required to make sure, they are not overwhelmed by any types of questions. Furthermore, they need to ensure, they clarify their doubts in terms of various factors and concepts [6][7]. This will be facilitating in leading to up-gradation of motivation levels towards implementation of job duties and responsibilities. Furthermore, these are facilitating in honing confidence levels as well. In this manner, one will be able to do well in their job duties and generate desired outcomes. In cases of all types of pioneering methods, one needs to be well-equipped in terms of different types of concepts. Therefore, acquiring an efficient understanding of the concepts is regarded as one of the indispensable measures to be implemented in utilizing pioneering methods and strategies.

## I. Getting engaged in Regular Practice

In putting into operation pioneering methods and strategies in an adequate manner, one needs to get engaged in regular practice. For example, in making use of various types of tools, machinery and technologies, one needs to ensure, they get engaged in regular practice. Practice makes the man perfect. The concepts in some cases are complicated. Furthermore, individuals are overwhelmed by the feelings of apprehensiveness and vulnerability. But regular practice will be facilitating in overcoming these feelings. Furthermore, one will be able to hone confidence and motivation levels in carrying out job duties satisfactorily. The regular practice of pioneering methods and strategies does not take place at one point of time, but throughout the implementation of job duties of individuals. This is regarded as advantageous on a comprehensive basis. Therefore, getting engaged in regular practice is one of the significant measures to be implemented in utilizing pioneering methods and strategies.

## J. Honing Confidence Levels

It is apparently understood that, when one is committed towards putting into operation various types of tasks and activities, they need to promote enhancement of their confidence levels. This will be advantageous and facilitating to the rural individuals on a comprehensive basis. In order to overcome all types of setbacks and be successful in one's jobs, one needs to carry out different types of job duties with confidence. The concepts in some cases are complicated. Furthermore, individuals are overwhelmed by the feelings of apprehensiveness and vulnerability. But regular practice will be facilitating in overcoming these feelings. Furthermore, one will be able to hone confidence and motivation levels in carrying out job duties satisfactorily. The rural individuals will render an important contribution in putting into operation different types of pioneering methods and strategies in doing well in one's job duties and achieving desired goals. Therefore, honing confidence levels is an expedient measure to be implemented in utilizing pioneering methods and strategies.

## IV. OVERCOMING ALL TYPES OF SETBACKS

The rural individuals are required to augment their competencies and abilities in order to overcome all types of setbacks. Within the course of utilization of pioneering methodologies and strategies, there are occurrences of various types of dilemmas and challenging situations. The different factors in terms of which these take place are, job duties, procedures, techniques, approaches, materials, work pressure, lack of implementation of time-management skills, unawareness in terms of various factors, lack of analytical, critical-thinking and problem-solving skills, scarcity of financial, human, technical, material and information resources, lack of infrastructure, amenities and facilities and so forth. All these are barriers within the course of putting into operation various types of pioneering methods and strategies. Hence, one needs to ensure, these are overcome in an adequate manner. Furthermore, these need to be prevented from assuming a major form. Therefore, overcoming all types of setbacks is an eminent measure to be implemented in utilizing pioneering methods and strategies.

### A. Carrying out Job Duties in a Well-ordered Manner

When the individuals are carrying out certain types of tasks and activities in a well-ordered manner, they are required to be well-informed in terms of job duties and methodologies (Continuing Education, 1993) [2]. Furthermore, it is necessary to be well-equipped in terms of job duties and methodologies. In addition, there are number of factors that need to be taken into account, i.e. taking out sufficient amount of time for all tasks and activities; inculcating the traits of morality and ethics; implementing the traits of diligence, resourcefulness and conscientiousness; putting in efforts to one's best abilities; possessing the abilities to work under stress; reinforcing the traits of efficiency, honesty and truthfulness; coping with different types of dilemmas and challenging situations in an adequate manner; developing mutual understanding with family and community members; integrating with mainstream society and overcoming the feelings of seclusion and loneliness. As a consequence, one will augment motivation and concentration levels towards putting into operation various tasks and activities. Therefore, carrying out job duties in a well-ordered manner is a meaningful measure to be implemented in utilizing pioneering methods and strategies.

### B. Meeting the Expectations of Others

Within the course of putting into operation various types of tasks and activities, individuals, belonging to rural communities need to ensure, they meet the expectations of others. The other individuals include, family and community members. The family members are the first and foremost individuals, who wish that their family members should prosper. They contribute efficiently in leading to up-gradation of confidence and motivation levels among them. Hence, within the course of putting into operation different types of tasks and activities, they need to focus towards promoting family well-being.

## Utilization of Traditional Methods and Strategies by Rural Individuals

Furthermore, they need to be wholeheartedly committed towards satisfying the needs and requirements of customers. This is regarded as one of the essential factors towards leading to an increase in productivity and profitability. As a consequence, one will be able to do well in their job duties, achieve desired goals and bring about improvements in their overall quality of lives. In addition, one will be able to incur the feelings of pleasure and contentment. Therefore, meeting the expectations of others is a useful measure to be implemented in utilizing pioneering methods and strategies.

### V. CONCLUSION

The rural individuals are utilizing traditional methods and strategies in implementing different job duties. Advantages of replacing traditional methods and strategies by pioneering methods and strategies are, jobs get implemented in less amount of time, jobs get implemented in an efficient manner, lead to an increase in productivity and profitability, hone motivation levels, augment concentration levels, meet customer demands, inculcate the traits of morality and ethics, implement the traits of diligence, resourcefulness and conscientiousness, possess the abilities to work under stress and promote enhancement of their living conditions. Measures to be implemented in utilizing pioneering methods and strategies are, acquiring an efficient understanding of the concepts; getting engaged in regular practice; honing confidence levels; overcoming all types of setbacks; carrying out job duties in a well-ordered manner and meeting the expectations of others. Finally, it can be stated, utilization of pioneering methods and strategies are the key in leading to progression of rural individuals and communities.
