

Cheatsheet

Level 1

```
print Hello World!
```

With print you can make text appear.

```
ask What is your favorite colour?
```

With ask you can ask a question.

The screenshot shows the Hedy IDE interface. On the left, the code editor displays the command `ask what is your favorite color?` on line 1. On the right, the user interface shows a dark blue header area, followed by a light green box containing the question "what is your favorite color?". Below the question is a text input field with the placeholder text "what is your favorite color?". To the right of the input field is a green button labeled "Invullen".

```
ask What is your favorite color?  
echo So your favorite color is..
```

With echo you can repeat the given answer.
