Cyber Security Competence Development

The CyberSecPro Approach

Empowering SMEs: Cybersecurity Strategies for a Secure Digital Future

03.07.2024 | NERO Webinar

Dr. Stefan Schauer
AIT Austrian Institute of Technology

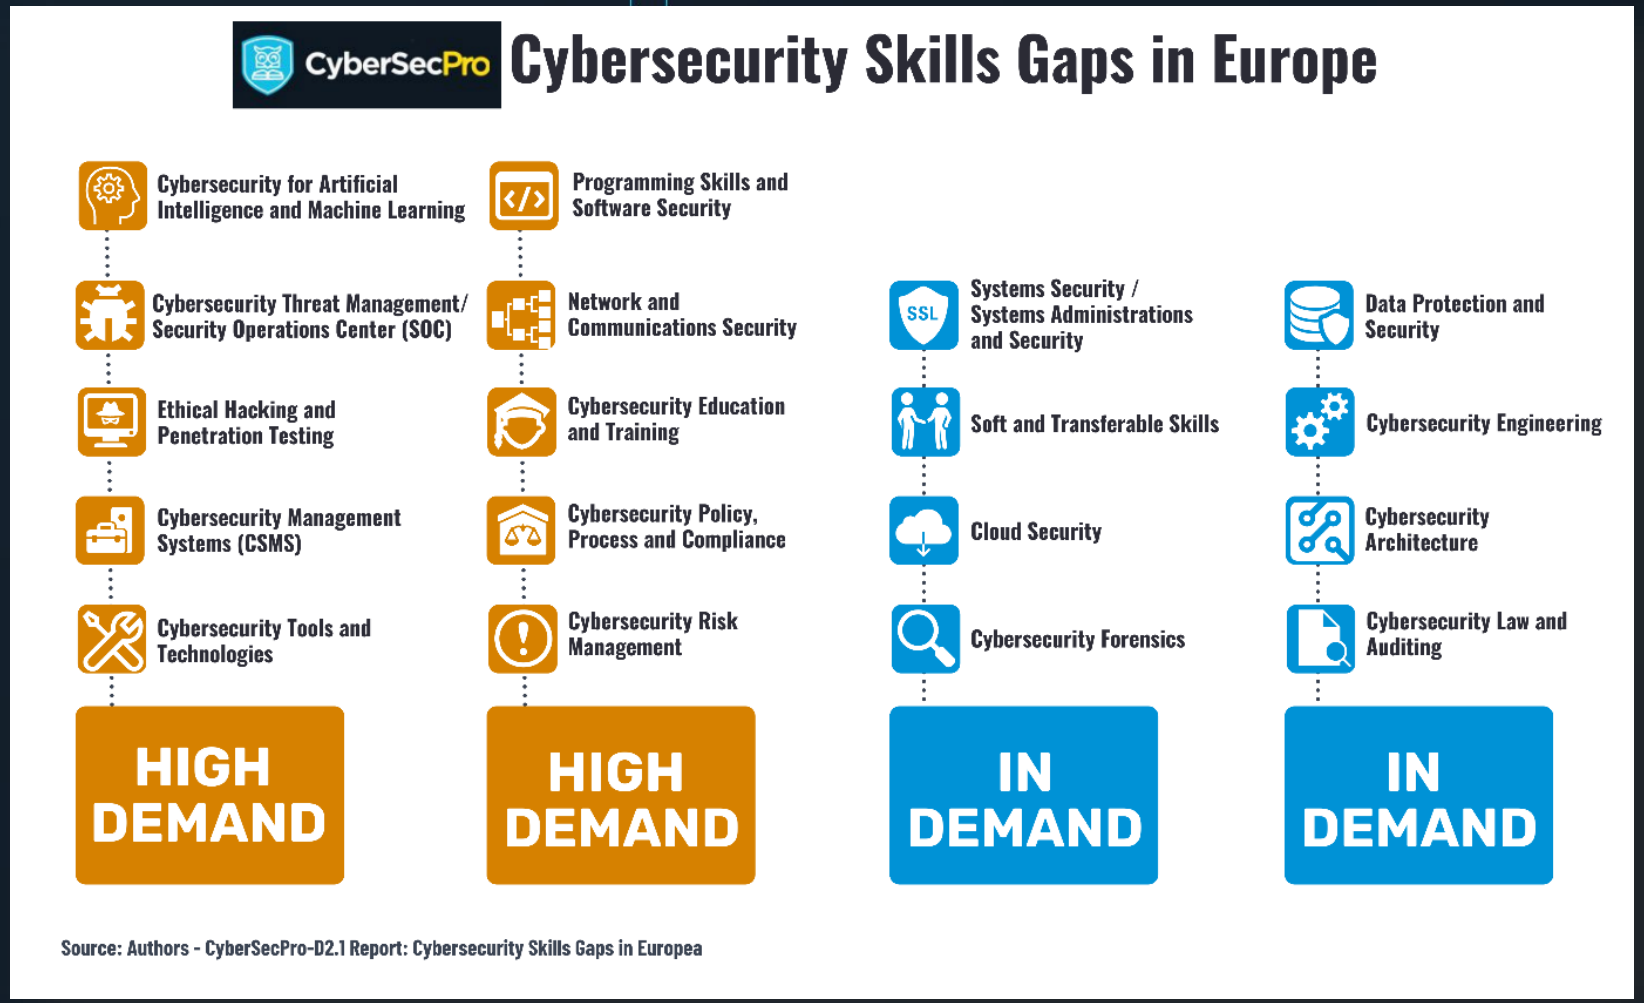
CyberSecPro

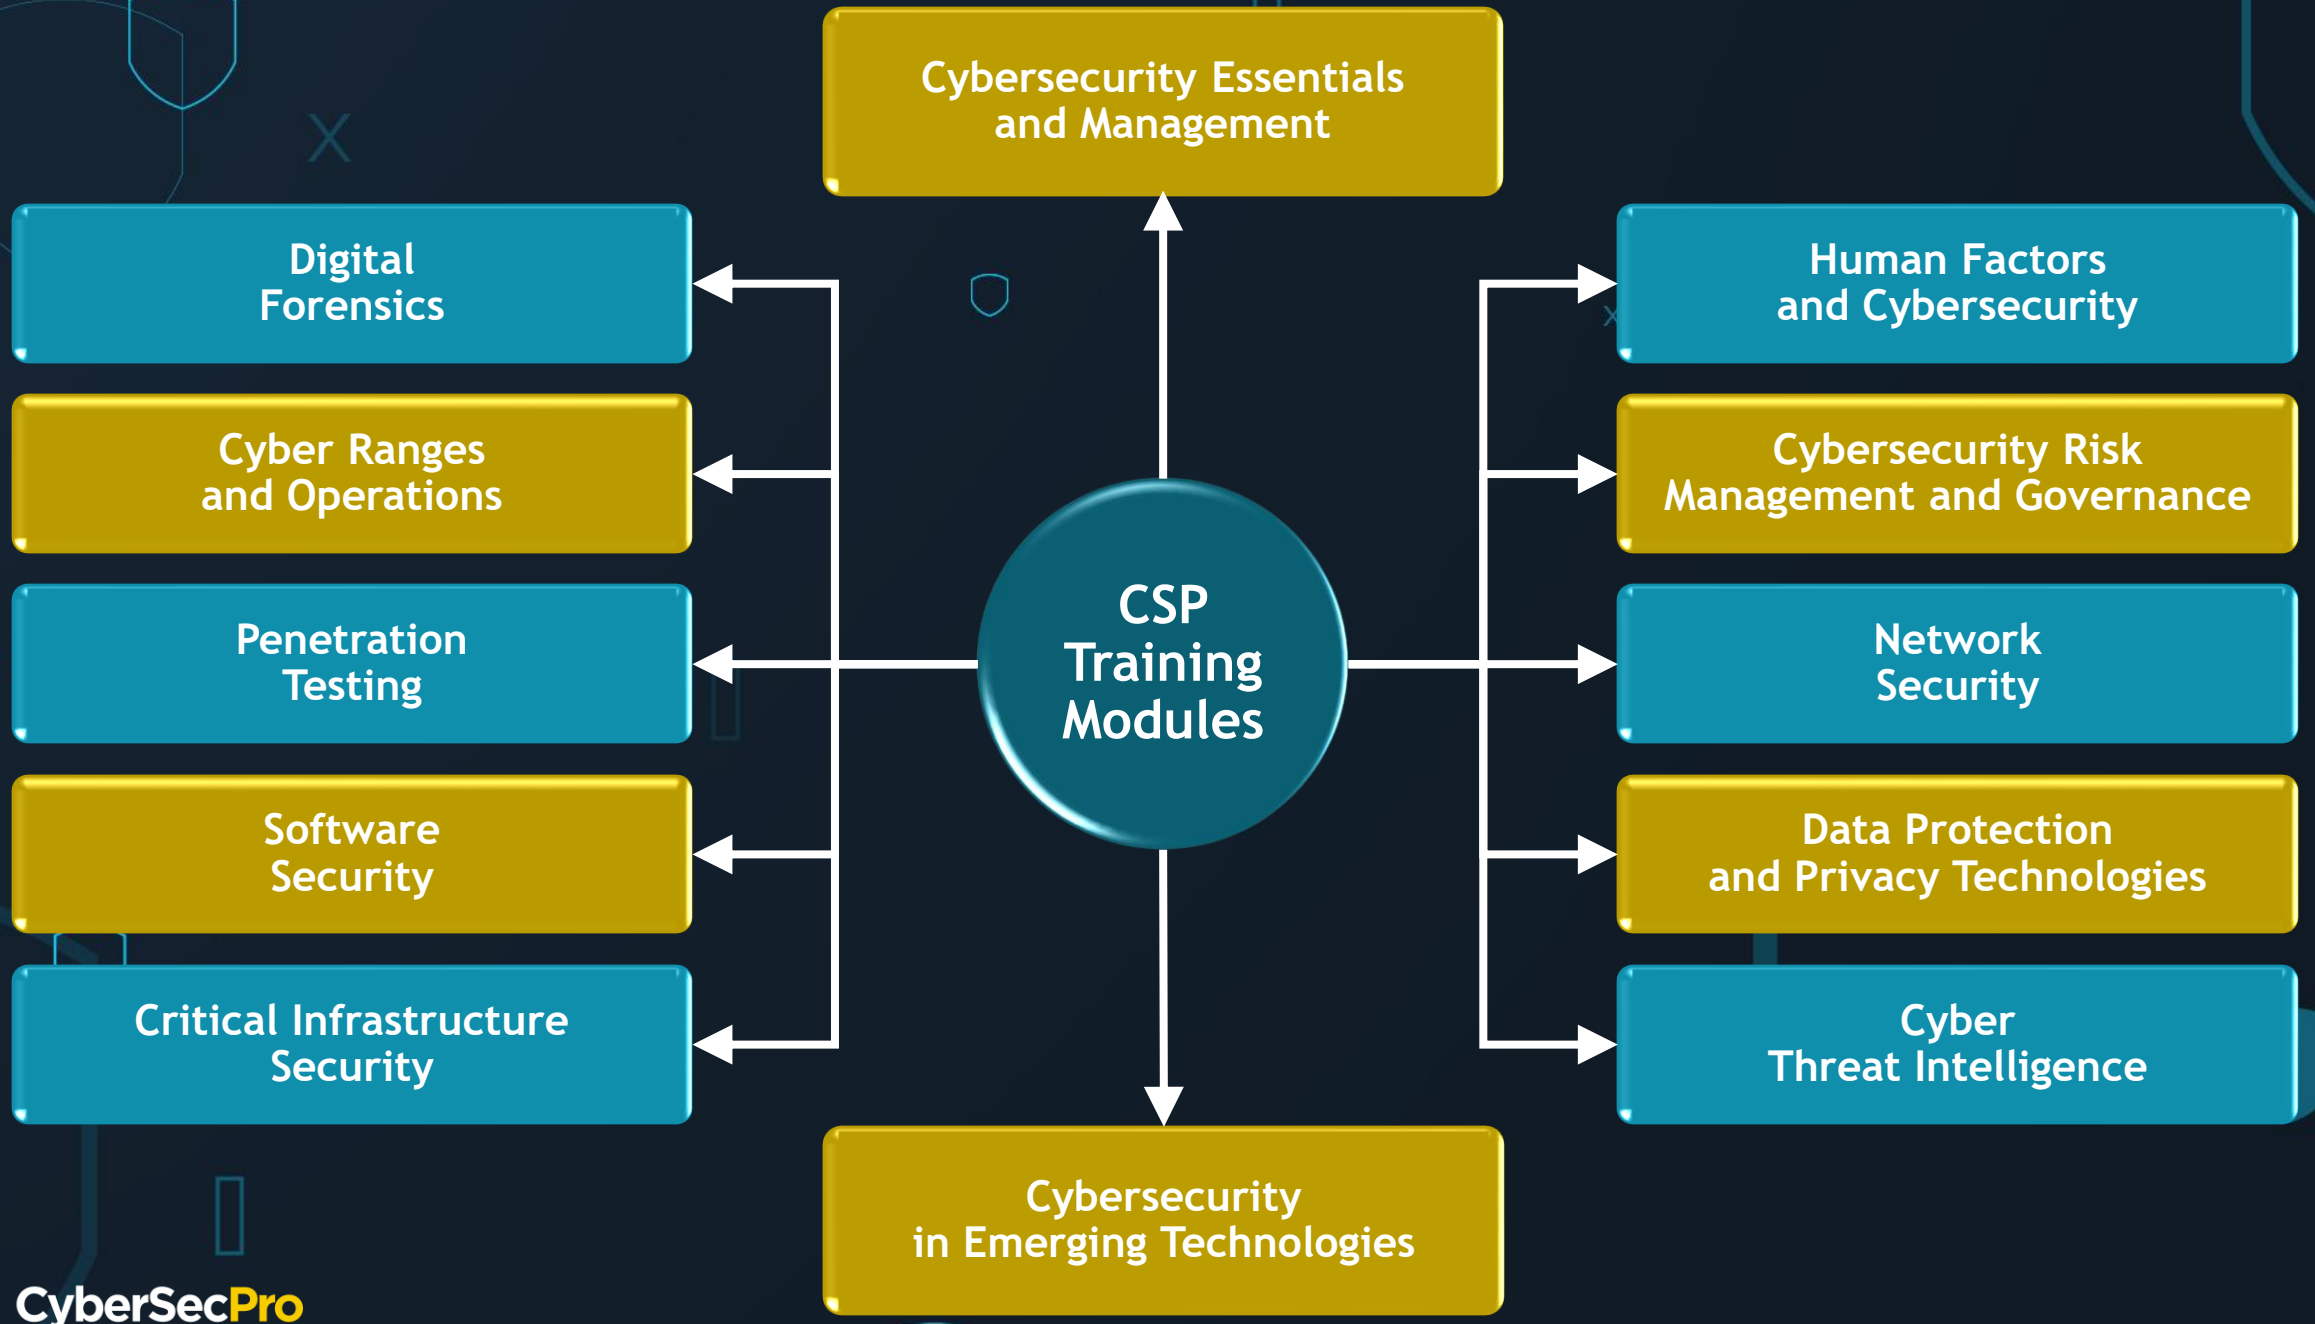
Co-funded by the European Union

CyberSecPro in a nutshell

- Funded by: Digital Europe Programme (**Call**: Advanced Digital Skills (DIGITAL-2021-SKILLS-01))
- Partners: 14 Higher Education Institutions and 13 companies from 16 EU countries
- Time: From 01.12.2022 to 30.11.2025 (36 months)
- Objectives:
  - Provide practical and hands-on state-of-the-art cybersecurity training for professionals from SMEs and the industry
  - Complement, support and advance existing HEI programs on cybersecurity
  - Increase societal impact with courses taught in all participating HEI institutions
  - Deliver training modules addressing actual needs from SMEs and the industry (Health, Energy, Maritime) based on European standards
  - Propose a new European Cybersecurity certification scheme for practical cybersecurity training programs accompanied with ECTS points

Skills gaps identified





CyberSecPro
