Seamlessly integrated
Privileged Access Management
& Multi-Factor Authentication

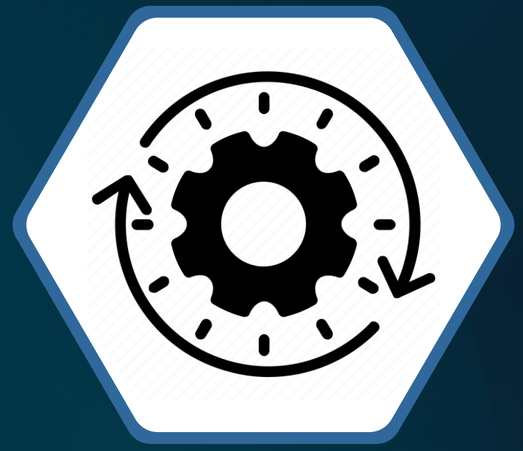
NERO

First recorded biometric authentication granting access to the whole kingdom

We just modernized it to make companies masters of their digital kingdom

Democratizing PAM for everyone

Phone-Centric



Easy to Use

MFA Integrated

Our Background

European Cyber Security Organisation

European Cybersecurity Competence Center

Cybersecurity Made in Europe

Today’s Reality

- Exploiting of credentials
- Human factor
- Too wide access for certain users, easily exploitable
- Many organizations exposed to potential breaches and compliance failures

Today’s Reality

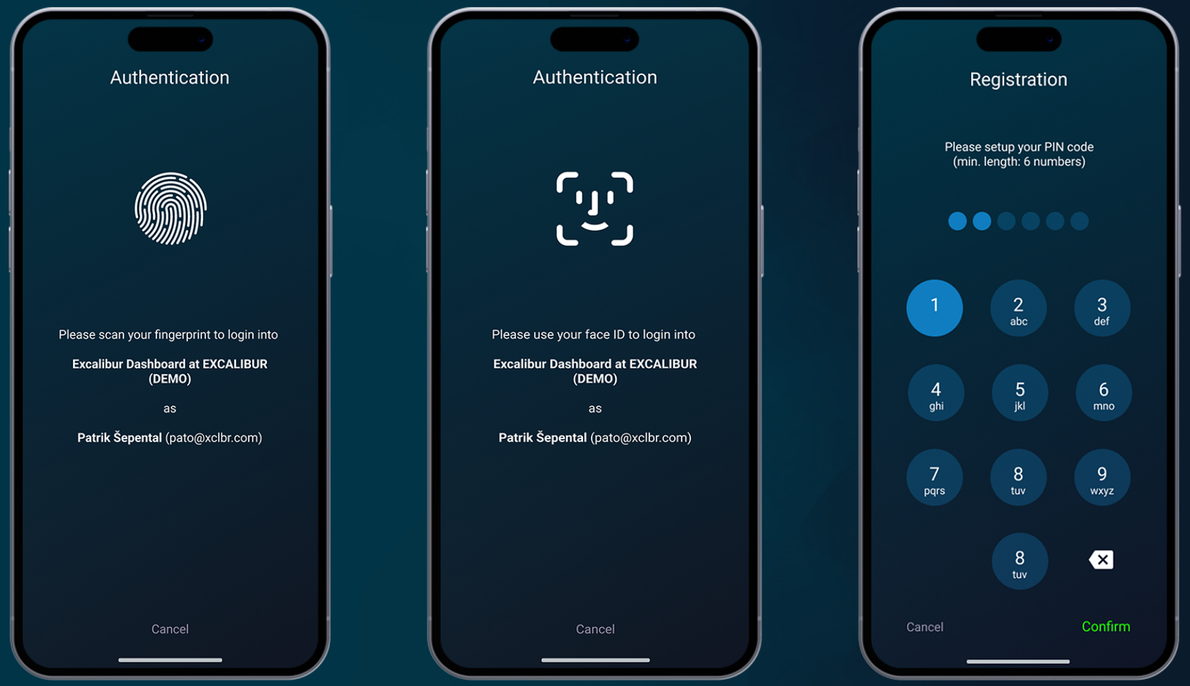
- Fading Security Perimeters
- Complex configurations and deployments deter more widespread deployment
- 58% of IT and security leaders avoid PAM due to its prohibitive expense
- 56% unable to fully implement it due to its complexity

Why Excalibur?

Our Approach

MFA

- Revolutionizes authentication by abstracting passwords from the users
- Multiple authentication factors
- Leverages the unique capabilities of users smartphones (e.g. GeoLocation, Biometry)



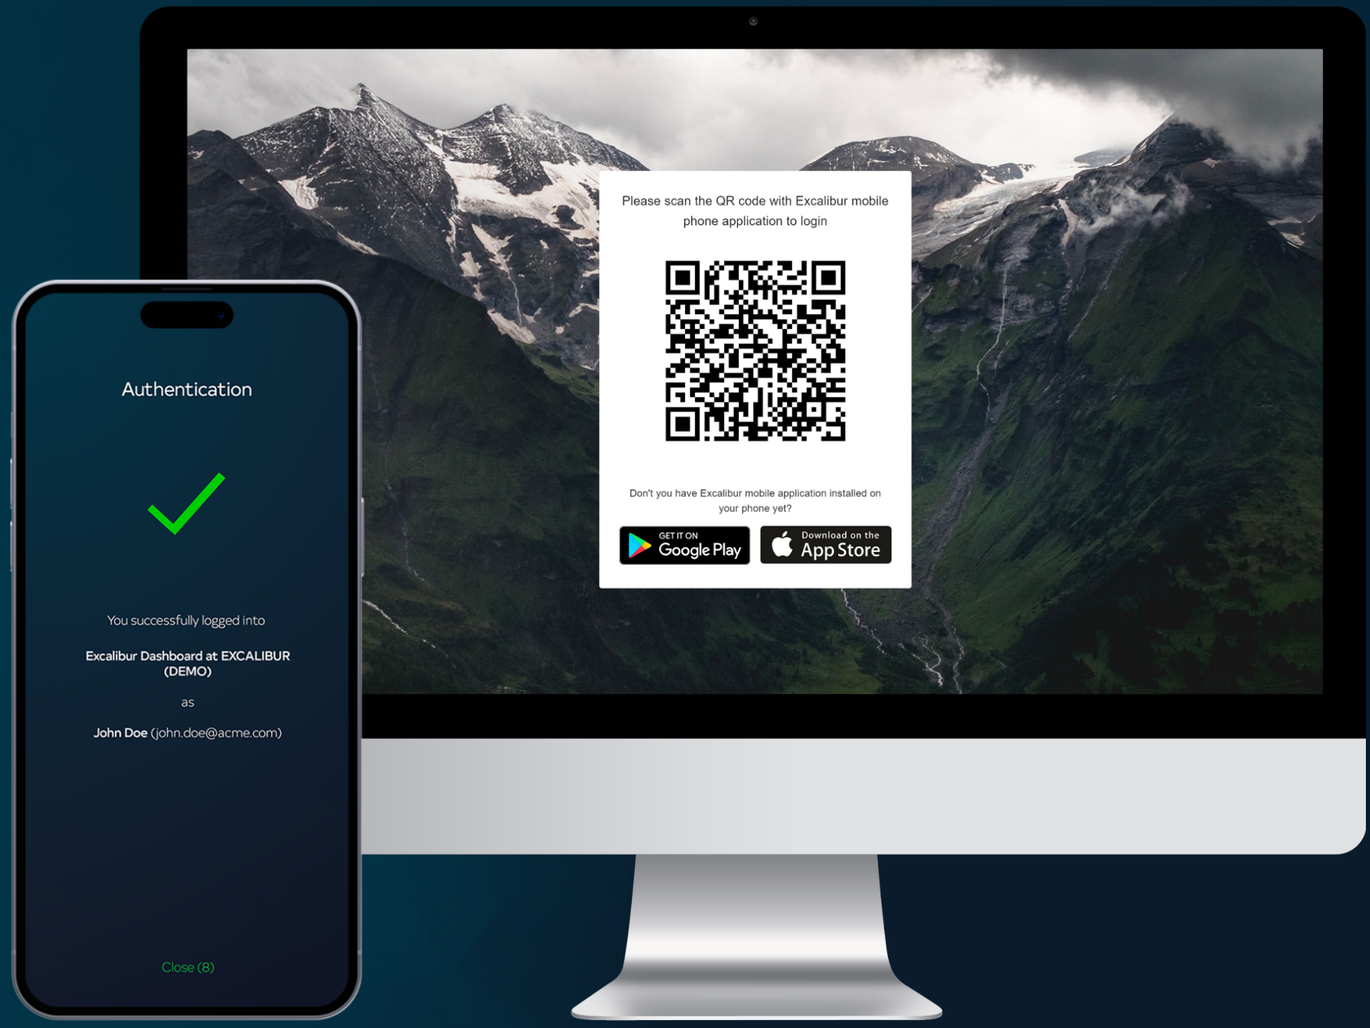
Our Approach - Differentiators

Market demand for stolutions:

- Cost effective
- User-friendly
- Simplified management
- Enable compliance

Our differentiators (MFA+PAM)

- Phone-centric
- Affordable licensing
- Holistic Reporting
- Four Eyes
- Multi-Tenancy



Product - Integrations

- Passwordless login to OS
- Authentication during login to Excalibur PAM
- Integration of MFA via SAML
  - Cisco Secure Client (VPN)
  - MS Office → Outlook
