

Project LiNaBioFluid

Deliverable 2.2: SEM images of nanostructures

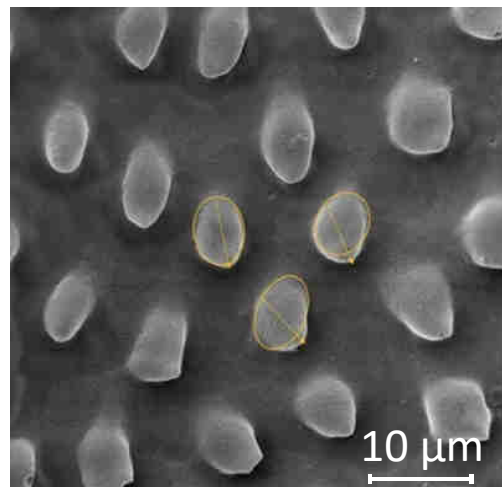

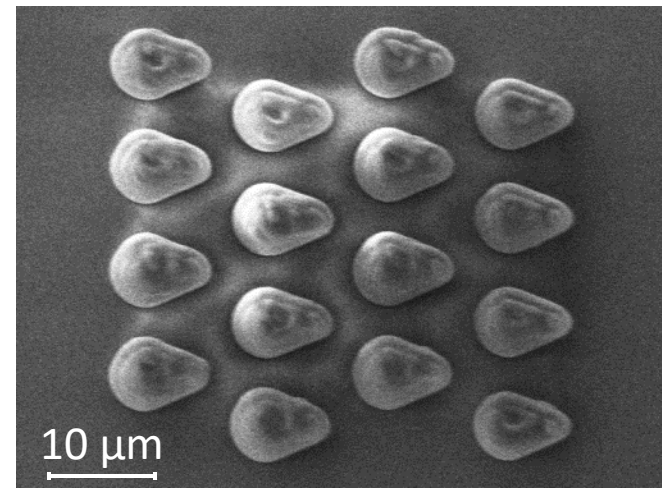

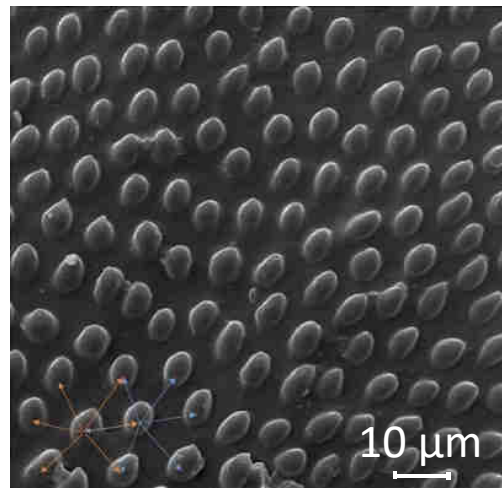

Reporting period	from	01.07.2015	to 30.06.2016
Report completed and released		21.06.2016	

Published on project website <http://www.laserbiofluid.eu/>

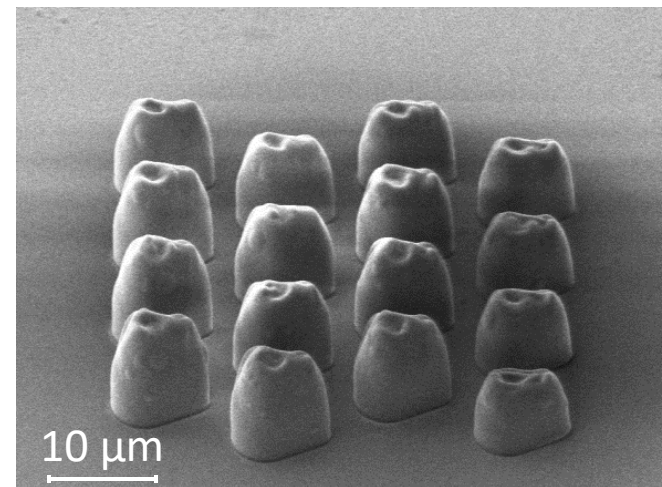

Bug model

Dysodius lunatus

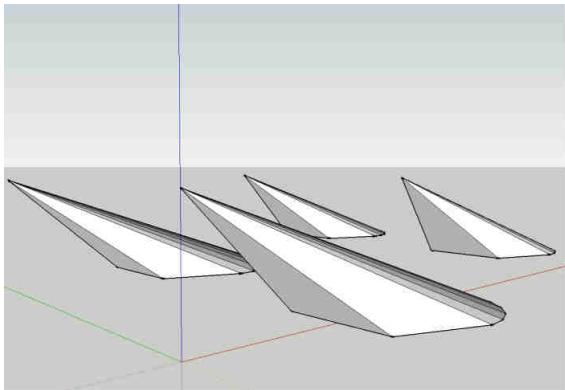

Dysodius lunatus cuticle
SEM images

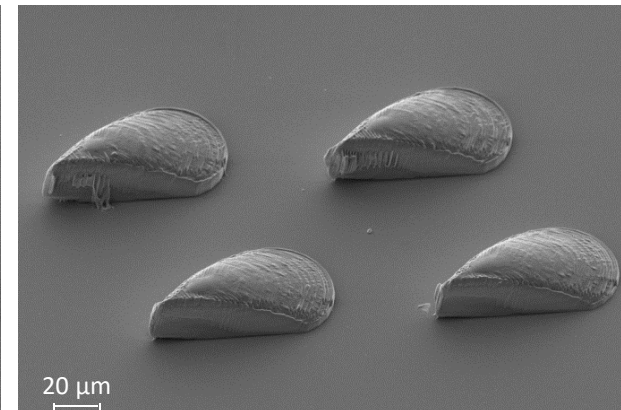

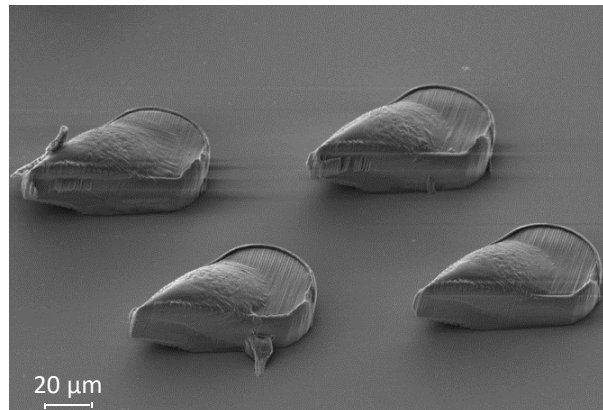

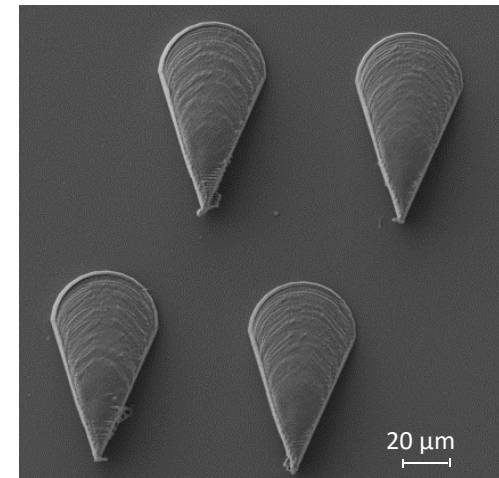

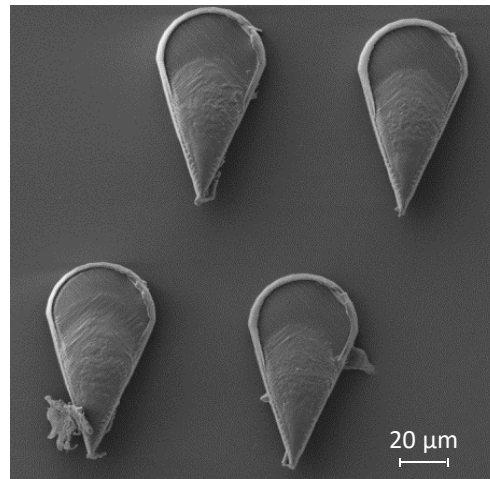

SEM images of Two Photon
Polymerization structures

Structures with undercut

3D model in CAD program

SEM images of structures with undercut (different number of layers)
