DIGITAL SKILLS for library staff and researchers / FOSTER+
LET'S BUILD THE SKILLS !

WORKSHOP

Lille 2018 LIBER

Wednesday July the 4th
9-12 am - Room C

Open science is gaining momentum, and research librarians are starting to invent new digital models, to implement new techniques and to spread a more open culture.

In this active and collaborative workshop, we will give you some tools and we invite you to think along on how to include open science digital skills in training programmes for librarians and researchers.

What digital skills do we still need to develop?

How can we do this?

How can we use the FOSTER+ to train, advocate and practice open science?

LIBER WG Digital Skills

Susanne Dalsgaard-Krag, DK & Cécile Swiatek, FR

Foster+

Helene Brinken, Göttingen & Vasso Kalaitzi, LIBER HQ

9:00 **Welcoming**

FOSTER+ presentation by Helene Brinken
Focus on the 2018 bootcamp training and the multimodule toolkit / FOSTER tools : how to use them

Active discussion: Feedback on FOSTER courses, interest and opportunities with Helene Brinken

*Items that would make sense ; How can you integrate the FOSTER modules in your learning systems? What are the training opportunities for your staff? Etc.
*Case-studies: How are you planning to integrate the modules in your systems/workflows…

20 min - break out groups
- Explore one course, e.g. OA, and think about how to use the course in your context, what is your interest, what might be opportunities or difficulties?
- Look at all courses, and think about what courses do librarians need? draw your training & skill development priorities
⇨ Presentation of group work results

10:00 Discover the *Open Science Training Handbook* by Helene Brinken
www.book.fosteropenscience.eu
15' presentation (collaborative writing process and show OSTH as resource to start training), 5' questions

Break-out groups for part II of the workshop : presentation and composition

10:30-10:45 **Coffee Break**

11:00 **Break-Out groups : from collaborative reflection to action plan**
2 tables with a shift, to build on each others notes

INNOVATION & EVOLUTION group : *Skills needed "from cradle to grave"*
1. *Basic skills: at beginning of career*
2. *Lifelong training programmes*
3. *Expert skills, Library staff and Researchers*
4. *Recruitment issues*

SHOWCASE AND GOOD PRACTICE groups : *highlights on digital skills implementation and development*
Collecting examples and good practices from various countries in Europe

11:45 **Closing & link with Knowledge Café** : the workshop input as part of the WG Action programme

12:00 End of workshop
