

CONSENT FORM

I declare that I authorize the availability of the transcript of the interview I participated in in the context of the research entitled "a method for managing requirements changes in software ecosystems", which aimed to investigate the user feedback from a "crowd" in requirements management activities in software ecosystems (ECOS). This material is available in the ZENODO open-access repository (<https://doi.org/10.5281/zenodo.12600872>) as supplementary material for a manuscript related to referred research. Furthermore, the transcriptions guarantee aspects of the subjects' privacy, i.e., the researchers ensure that confidentiality will be maintained about the information obtained, thus keeping the privacy of the participants about information that directly identifies them, such as name, codename, initials, place of work, country, among others.
