The different types of skills are, communication skills, analytical skills, critical-thinking skills, problem-solving skills, time-management skills, decision-making skills, technical skills, creative skills, presentation skills, professional skills, personal skills, artistic skills and intellectual skills. On the other hand, abilities, which need to be honed are, convincing, persuasion, planning, organizing, leading, controlling, co-ordinating, emotional intelligence, systems thinking, putting in efforts to one's best abilities, possessing the abilities to work under stress, coping with different types of problems and challenges in a well-organized manner and carrying out all types of job duties and responsibilities in a satisfactory manner. As a consequence of augmenting different types of skills and abilities, it is necessary for individuals to lead to up-gradation of motivation levels. These levels are facilitating in promoting enhancement of mind-sets of individuals towards carrying out all types of tasks and activities in a satisfactory manner. Therefore, augmenting skills and abilities is a notable measure to be put into practice in leading to up-gradation of motivation levels.

A. Forming Cordial and Amiable Terms and Relationships with others

The individuals are putting into operation some job duties on their own, whereas, others are carried out through working in collaboration and integration with other individuals, including family and community members.

Hence, it is of utmost significance to form cordial and amiable terms and relationships with others. The individuals generate information in terms of various factors through implementing effective communication processes.

As a consequence, one will be able to augment information in terms of various subjects and factors; exchange different types of ideas and viewpoints; obtain answers to all types of questions that are overwhelming and clarify doubts in terms of different types of subjects and concepts. When one establishes linkages with family and community members, one will be able to contribute efficiently in augmenting motivation levels towards putting into operation different types of tasks and activities. One of the important aspects is, one will obtain help in solving all types of problems. Therefore, forming cordial and amiable terms and relationships with others is a noteworthy measure to be put into practice in leading to up-gradation of motivation levels.

B. Putting in Efforts to one's Best Abilities

The individuals need to put in their best efforts in doing well in one's job duties and responsibilities and generating desired outcomes. The individuals need to possess adequate information in terms of different types of job duties and responsibilities. Furthermore, one needs to be well-equipped in terms of various techniques, which are facilitating in carrying out all types of job duties and responsibilities in a well-organized manner. Furthermore, it is necessary for individuals to lead to up-gradation of motivation and concentration levels. This is apparently understood that there are occurrences of dilemmas within the course of doing well in one's job duties and generating desired outcomes. Hence, through reinforcing this measure, one will be able to render an important contribution in overcoming setbacks and preventing these from assuming a major form. As a consequence, the mind-sets of the individuals will be stimulated and they will be able to put in efforts to their best abilities in generating desired outcomes. Therefore, putting in efforts to one's best abilities is a productive measure to be put into practice in leading to up-gradation of motivation levels.

C. Possessing the Abilities to Work under Stress

Possessing the abilities to work under stress is regarded as one of the essential measures to lead to up-gradation of motivation levels. The individuals need to possess adequate information in terms of different types of job duties and responsibilities to be implemented in personal and professional lives. Furthermore, one needs to be well-equipped in terms of various types of strategies, which are facilitating in carrying out all types of job duties and responsibilities in a disciplined manner. Furthermore, it is necessary for individuals to lead to up-gradation of motivation levels. This is apparently understood that there are occurrences of dilemmas within the course of doing well in one's job duties and generating desired outcomes. Hence, through reinforcing this measure, one will be able to render an important contribution in preventing them from giving rise to impediments within the course of achievement of desired goals and objectives. As a consequence, the individuals will do well in their job duties and incur the feelings of pleasure and contentment. Therefore, possessing

the abilities to work under stress is a useful measure to be put into practice in leading to up-gradation of motivation levels.

IV. Meeting the Expectations of others

Within personal and professional lives within the course of putting into operation different types of tasks and activities, one will have to meet the expectations of others. Within homes, family members have certain kinds of expectations from individuals. Within professional settings, i.e. educational institutions of all levels and in different types of employment settings, the educators and employers are individuals, who are having certain expectations from students and employees. They assign tasks and activities, which they expect others to carry out in a well-organized manner (What is Creativity? n.d.).

Hence, it is necessary for individuals to lead to up-gradation of motivation levels. As a consequence, the mind-sets of the individuals will be stimulated, they will put in efforts to their best abilities and possess the abilities to work under stress. Furthermore, it is well-understood that one will render an important contribution in promoting enhancement of their career prospects and overall standards of living, when they will lead to up-gradation of motivation levels. Therefore, meeting the expectations of others is a suitable measure to be put into practice in leading to up-gradation of motivation levels.

A. Advantages of Leading to Up-gradation of Motivation Levels

An aimless life is a meaningless life. Hence, all individuals, belonging to all communities, categories and socio-economic backgrounds have different types of goals and objectives to achieve, i.e. acquisition of good-quality education; promoting enhancement of one's career prospects; getting engaged in employment opportunities; bringing about improvements in one's financial positions; augmenting skills and abilities; reinforcing the traits of efficiency, honesty and truthfulness; promoting good health and well-being, physically and psychologically; forming an effective social circle, comprising of family and community members; promoting enhancement of overall personality traits and bringing about improvements in one's overall quality of lives (Taylor, Cornelius, & Colvin, 2013). In order to achieve all types of goals and objectives, one needs to be well-prepared. In other words, one needs to augment information in terms of different types of methods that are facilitating in the achievement of desired goals and objectives. Furthermore, it is necessary for individuals to lead to up-gradation of motivation levels towards carrying out all types of tasks and activities in a well-ordered manner.
