Introduction to Wikidata for Maastricht University, Theory and Practice - 15 October 2024

[Navigating the World of Wikidata for Research, Science and Cultural Heritage](#)

Wikidata is a free, collaborative, multilingual database, collecting structured open data for anyone in the world to use. It also plays a crucial role in supporting Wikimedia projects, such as Wikipedia and Wikimedia Commons. Over the last 12 years it has strongly increased in popularity among the scientific and cultural heritage communities.

In this 2,5 hours workshop you will learn the basics of working with Wikidata, both in theory and practice. You will learn

1. The basics of Wikidata: What it is, and how it works, both technically and socially,
2. Why Wikidata is relevant for research, science and cultural heritage, and
3. How you can contribute to this knowledge graph yourself, with a focus on the topic of UM professors from past and present.

As part of the [Wikidata 12th Birthday](#) celebrations this workshop is open to academics, researchers, students, and professionals interested in working with Wikidata in the intersection of open data, research, and science. Whether you are new to Wikidata or looking to deepen your understanding, this session will provide valuable insights for improving your work.

Workshop outline

Part 1: Theory (45-60 minutes)

Slides (PPT)

- Introduction to the session ahead
- What is Wikidata? + Recap Wikidata
- Principles of Wikidata
- to ...

Break (15 minutes)

Part 2: Practice, contributing to Wikidata (75-90 minutes)

Slides (PPT) and [Handout for participants \(PDF\)](#)

The goals of this hands-on part are:

- Get familiar with basic data editing via the Wikidata interface
- Understand WD data models and structures related to professors (of Maastricht University)
- Extend existing [Wikidata items about UM professors](#), based on information in public sources.
- If time allows: Create new Wikidata items about UM professors

The visual slides and the textual handout explain the same content, blocks and exercises, albeit in a slightly different order.

<https://zenodo.org/records/13837957>

Professors are *humans*!

Chilean sailor, politician and president (1845-1922)

German-born Dutch Jewish diarist and Holocaust survivor

American game designer and author (1938-2012)

Julian Assange (Q360)

Australian editor, publisher, and activist (born 1971)
Julian Paul Assange | Assange | JulianAssange

André-Marie Ampère (Q675)

French physicist and mathematician

Michel Platini (Q420)

French association football player, manager and pundit

Sean Connery (Q1579)

Scottish actor (born 1932)

Jimmy Wales (Q181)

Ludwig van Beethoven (Q13)

Modelling humans in Wikidata

Molière (Q1114)

French playwright, actor, and poet

Indira Gandhi (Q1149)

Indian politician and leader of the Indian National Congress (1917-1984)

Horace (Q1114)

Roman lyric poet

Indira (Q5344)

Elvis Presley (Q303)

American singer and actor (1935-1977)

U Thant (Q1264)

third Secretary-General of the United Nations (1909-1975)

Ramón Freire (Q1332)

Chilean politician (1787-1851)

Linda Lovelace (Q407)

American pornographic actress, later anti-porn activist

Kalidasa (Q7011)

Classical Sanskrit poet and playwright

Tupac Shakur (Q6107)

American rapper (1971-1996)

Project page Discussion Read Edit Edit source View history More Search Wikidata

Wikidata:Wiki-wetenschappers

Met het project **Wiki-wetenschappers** (Wiki-wetenschappers (Q124134997)) wil de **Stichting Academisch Erfgoed** (SAE, Stichting Academisch Erfgoed (Q3212092)) de historische gegevens van Nederlandse hoogleraren en vooraanstaande wetenschappers centraal, gestructureerd en geredigeerd toegankelijk maken.

Project goals

- Creating and maintaining centralized structured data about Dutch professors (and other leading scientists) from 1575-present for a wide audience.
- Mapping work data of professors.
At which universities did they work? When did they join and leave? In what positions and in what fields did they work? Under what names did they publish?

Dit project is tot stand gekomen met steun van PICA Foundation (Q61754032), de organisatie die wetenschappelijke en openbare informatievoorziening bevordert door onder meer het financieren van projecten. Meer informatie over Stichting Pica is te verkrijgen bij de secretaris van Stichting Pica.

ERFGOED

& Wikidata

Maastricht professors

Maastricht professors & Wikidata

Manuël Boessen

In 2019, Maastricht University participated in a project with the aim of presenting a complete overview of Maastricht professors in Wikidata. This overview has been published via Wikidata of these professors in the Netherlands, since 1575, and for Maastricht, thus,

Wikidata is the free, collaborative and multilingual data support Wikipedia, Wikimedia Commons and the other Wikipedia sister projects make use of this site, but researchers from, among others, the digital humanities

This overview has recently been available for consultation. It provides central access to the distributed publications, collection and research held by various Dutch (university) libraries and heritage

On delivery in 2019, the dataset of Maastricht professors has received explicit permission for inclusion in Wikidata. Just like Wikidata, it is open to everyone to use, and on this interactive forum, the data

<https://www.kec-um.nl/collections/maastricht-professors---wikidata>

Het Wiki-Wetenschappers project

Een kort overzicht van activiteiten

Het project Wiki-Wetenschappers (eerste fase) heeft gelopen van eind 2018 tot 1 oktober 2019. In deze periode is door de Wikidata in Residences (WIR) biografische hoogleraren-data verwerkt van alle bij de SAE aangesloten universiteiten.

Startbijeenkomst

Na de nulmeting in januari is het project op 7 februari gelanceerd tijdens een startbijeenkomst met alle betrokkenen: universiteiten, WIR's, en Wikimedia Nederland. In een interactieve workshop werd door de deelnemers bepaald welke gegevens van hoogleraren in de systemen aanwezig zijn -en of de gehanteerde datavelden overeenkomen met de datasets. Het belangrijkste doel was de data-items zodanig te kunnen standaardiseren om ze te kunnen hergebruiken op biografische portals, zoals het Historisch Personen Portaal van Huygens ING.

Wikidata in Residence on tour

De periode april en mei 2019 hebben de WIR's een bezoek gebracht aan de 12 deelnemende instellingen onder de noemer Wikidata in Residence on tour. Tijdens deze bezoeken hebben zij per universiteit advies gegeven over het verzamelen en aanleveren van de biografische data.

Tussentijdse bijeenkomst

Op 14 juni 2019 heeft een tussentijdse bijeenkomst plaatsgevonden om de

Rapportage risicoanalyse

hoogleraren.

Een belangrijk onderdeel van Wiki Wetenschappers was de risicoanalyse gericht op vragen over de bescherming van de persoonsgegevens van betrokken wetenschappers. Het gaat hier immers om een grootschalige verwerking van persoonsgegevens in de zin van de Europese privacyverordening. De gegevensbeschermings-effectbeoordeling of Data Protection Impact Analyse (DPIA) richt zich zowel op Wikidata als op de websites van universiteiten met biografische gegevens van de eigen

University

Some definitions

Hoogleraar

- University teacher (lecturer, researcher) of most senior rank ([source](#))
- University office/position (*functie, ambt*)
- Academic education or degree *not* required ([source](#))

Professor

- Academic title and rank (*aanspreektitel*)
- In general for a university teacher (any rank), in NL for a *hoogleraar* ([source](#))
- Not an academic degree, but an indication that someone holds the university position of hoogleraar ([source](#))

Academic degree

- Degree that a university gives to its graduates ([source](#))
- Something you can study for
- Hoogleraar : commonly *degree = dr./ PhD*

Adding references to Wikidata

The image shows a Wikidata profile for Bruno de Witte (Q4979446). The profile includes a photo and the text "Belgian legal scholar". Below this, there is a search bar and a list of properties. The "employer" property is highlighted, showing "Maastricht University" with a start time of "2010". An "edit" button is circled in red. Below the profile, there is a table of references. The first row has a "reference URL" of "https://www.maastrichtuniversity.nl/befm-de-witte" and a "retrieved" date of "13 May 2024". Callouts point to these fields: a yellow callout for "reference URL (P854)", a white callout for "URL of page that states the fact(s)", a yellow callout for "retrieved (P813)", and a white callout for "Date when information was retrieved".

Uit Wikipedia, de vrije encyclopedie

Leonie M.E.A. Cornips (Heerlen, 27 oktober 1960) is een Nederlands taalkundige en sociolinguïst, die gespecialiseerd is in onderzoek naar nieuwere vormen van het Nederlands, zoals dat bijvoorbeeld gesproken wordt in Heerlen of in bepaalde wijken van Utrecht en Rotterdam. Zij onderzoekt daarbij met name hoe mensen door taalgebruik anderen in- of uitsluiten. Daarnaast verricht ze onderzoek naar tweedetaalvererving bij jonge kinderen en – meer recentelijk – communicatie tussen dieren en mensen. Cornips is werkzaam als onderzoeker Taalvariatie aan het Meertens Instituut in Amsterdam en als bijzonder hoogleraar Taalcultuur in Limburg aan de Universiteit Maastricht.^[2]

Biografie

[bewerken] brontekst bewerken

Jeugd en opleiding

[bewerken] brontekst bewerken

Leonie Cornips groeide op in de multiculturele mijnwerkersbuurt *Schaesbergerveld* in Heerlen. Van 1981 tot 1987 studeerde ze Nederlandse taalkunde aan de Universiteit van Amsterdam (waar ze, als ze haar mond opendeed, te horen kreeg dat ze op *logopedie* moest). In haar doctoraalscriptie over het *Heerlens Algemeen Nederlands* (HAN) toont ze aan dat aan die taalvariant een even vernuftig systeem ten grondslag ligt als aan het *Standaardnederlands*.^[3]

Loopbaan

[bewerken] brontekst bewerken

Leonie Cornips	
 <div>Plaats uw zelfgemaakte foto hier</div>	
Persoonlijke gegevens	
Volledige naam	prof. dr. L.M.E.A. Cornips
Geboortedatum	27 oktober 1960
Geboorteplaats	Heerlen
Nationaliteit	 Nederlands
Wetenschappelijk werk	
Vakgebied	taalkunde; sociolinguïstiek
Onderzoek	Heerlens Nederlands
Overig onderzoek	straattaal (o.a. in Utrecht); tweedetaalvererving bij jonge kinderen; 'koelentaal'
Alma mater	Universiteit van Amsterdam

About personal data, privacy, AVG/GDPR

Wikidata:Wiki-wetenschappers/AVG

< Wikidata:Wiki-wetenschappers

Contents [show](#)

Inleiding [\[edit | edit source \]](#)

De AVG is opgezet om persoonlijke gegevens van burgers te beschermen. Persoonlijke gegevens komen in veel digitale bestanden voor en ook dit hooglerarenproject heeft hier mee te maken. Als er met persoonlijke gegevens wordt gewerkt, is het uitgangspunt dat alleen het hoognodige wordt bijgehouden en dat bestanden professioneel afgeschermd worden.

Versturen van digitale informatie [\[edit | edit source \]](#)

Globaal gesproken is het niet toegestaan persoonsgegevens met ons te delen die niet publiek zijn. Indien wordt besloten om een bestand naar het project te sturen dienen daaruit alle kolommen verwijderd te worden die deze gegevens bevatten.

Welke gegevens verwerken we wel? [\[edit | edit source \]](#)

Het doel van dit project is de werkgegevens van hoogleraren in kaart te brengen. Bij welke universiteit zijn ze werkzaam geweest, indiensttreding, uitdiensttreding, in welke functie en op welk vakgebied en onder welke namen hebben ze gepubliceerd. Dit zijn ook gegevens die noodzakelijk zijn voor het wetenschappelijk functioneren van een universiteit en daarom door universiteiten volgens de AVG ook getoond mogen worden (in de AVG het 'gerechtvaardigd belang').

Deze gegevens worden indien mogelijk aangevuld met persoonlijke gegevens omdat we daardoor statistieken kunnen genereren en informatie over deze personen kunnen aanbieden (Wiki). Bijzondere persoonsgegevens vereisen de toestemming van hen over wie het gaat.

Levende personen

Persoonsgegevens van levende personen (daaruit volgend de nationaliteit) beschikbaar zijn. Volgens de AVG moet een medewerker de universiteit toestemming geven deze persoonlijke gegevens te plaatsen. Ze zijn immers niet direct van belang voor het functioneren binnen de academische wereld.

Levende personen [\[edit | edit source \]](#)

Persoonsgegevens van levende personen plaatsen wij uitsluitend indien deze publiek algemeen beschikbaar zijn. Het gaat hierbij om geslacht, geboorteplaats (daaruit volgend de nationaliteit), geboortedatum (of -jaar) en woonplaats. Als wij ze krijgen aangeleverd via bestanden moeten deze gegevens geverifieerd ook online beschikbaar zijn. Volgens de AVG moet een medewerker de universiteit toestemming geven deze persoonlijke gegevens te plaatsen. Ze zijn immers niet direct van belang voor het functioneren binnen de academische wereld.

Overleden personen [\[edit | edit source \]](#)

Van overleden personen kunnen dus meer gegevens overgebracht worden. Denk hierbij met name aan geboorteplaats, geboortedatum, sterfplaats en sterfdatum. Voor dode personen geldt wel dat informatie van daaruit af te leiden levende personen voor de AVG wel geldig is, met name informatie die betrekking hebben op de kinderen van de persoon, die soms in biografieën beschreven worden.

Wiki Wetenschappers

Van de op te nemen wetenschappers worden de volgende gegevens online geplaatst in Wikidata:

- voor- en achternaam;
- beroep;
- geboortjaar;
- overlijdensplaats;
- overlijdensdatum;
- opleiding gevolgd aan en
- academische graad.

Pagina 9

Wiki Wetenschappers

Het antwoord op de tweede vraag: *mogen de gegevens door universiteiten en SAE aan Wikidata beschikbaar worden gesteld?* kan eveneens bevestigend worden beantwoord. Wel zijn de risico's wat groter dan bij de individuele universitaire sites, door het grotere bereik en de grotere bekendheid van Wikidata. Anderzijds biedt het openbare karakter van Wikidata ook bescherming tegen ongewenste publicatie. Iedereen kan de gegevens wijzigen, ook de betrokkene, hoewel daar wel *altijd een openbare bron bij vermeld moet worden*. Bovendien wordt de wijziging gecontroleerd, en kan deze bij onjuistheid ook opnieuw gewijzigd worden door de Wiki-moderatoren.

Statements likely to be challenged

Almost any piece of data about a living person should be challenged or might be challenged should be removed. In particular properties that are challenged (Q44597997) should be supported. In the case of a dispute, the burden of evidence is on the challenger.

The automatically updated list of properties on Wikidata:WikiProject Properties. In individual cases, information about a property and users who add information to it should be removed. Privacy implications of the data that they are

Statements that may violate privacy

Living individuals with records in Wikidata should be respected. Values for living individuals should be considered widespread public knowledge if they are (otherwise hidden supporting references and other information) address is accessible by looking at a domain of widespread public knowledge for the sake of the individual.

There is also a list of properties that may violate privacy. In individual cases it's also valuable to be mirrored.

https://www.wikidata.org/wiki/Wikidata:Living_people

https://www.wikidata.org/wiki/Wikidata:WikiProject_Properties/Wikidata_properties_that_may_violate_privacy

Adding info about living UM professors to Wikidata

1. Only add info that is available in reliable, public, well-known sources
2. Always add references to those sources
3. Avoid religion, ethnicity, sexual orientation, political affiliation, health status etc.
4. Avoid home addresses, email, telephone etc.
5. Avoid info about partners, children etc.
6. Even if provided by professor him/herself!
