# Advancing AI-Enhanced Democratic and Inclusive Deliberations: From Co-Creation to Scalable Solutions

**Grazia Concilio**, Full professor, Department of Architecture and Urban Studies, Politecnico di Milano

**Ilaria Mariani**, Assistant professor, Department of Design, Politecnico di Milano

ORBIS has received funding from the European Union's Horizon Europe Framework Programme under grant agreement No 101094765.

# ORBIS. Augmenting participation, co-creation, trust and transparency in Deliberative Democracy at all scales

HORIZON-CL2-2022-DEMOCRACY-01-02  
The future of democracy and civic participation

*This project has received funding from the European Union's Horizon Europe Framework Programme under grant agreement No 101094765.*

## Project Information

### ORBIS

Grant agreement ID: 101094765

### DOI

[10.3030/101094765](https://doi.org/10.3030/101094765)

### EC signature date

6 December 2022

### Start date

1 February 2023

### End date

31 January 2026

### Funded under

Culture, creativity and inclusive society

### Total cost

€ 2 498 882,50

### EU contribution

€ 2 498 882,50

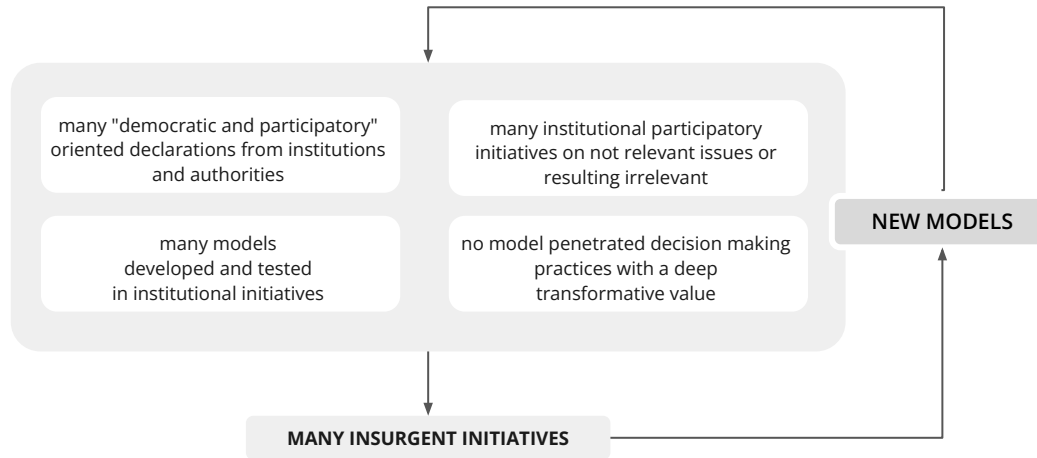

### Coordinated by

POLITECNICO DI MILANO

 Italy

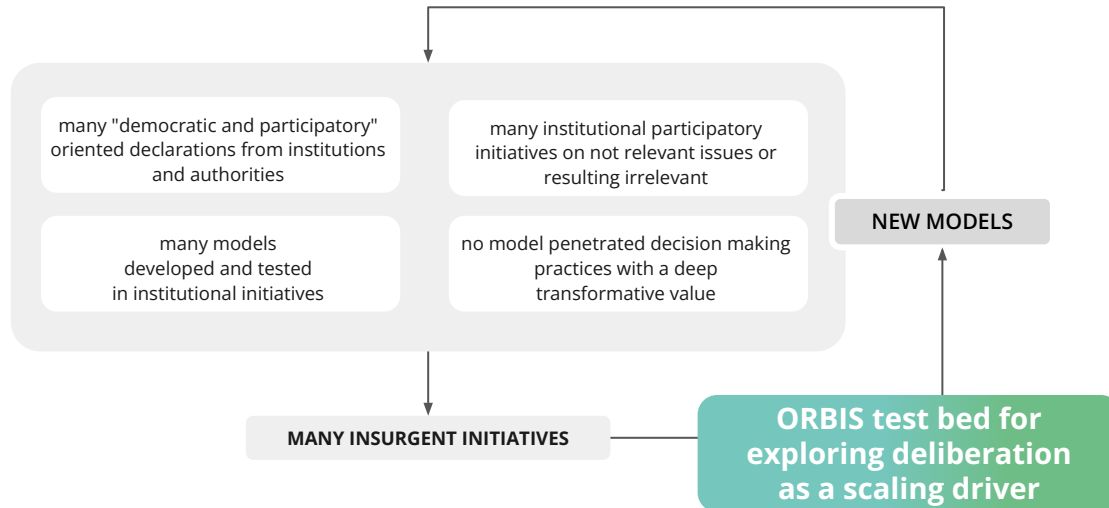

# Challenge

- Lack of **democratic ecosystems** that are both expansive and inclusive
- Issues of **effective and inclusive engagement**
- Failure to meet **user expectations**
- Gap between deliberation and outcomes **implementation**
- Misalignment** between democratic needs and tech features

# Challenge

- Lack of **democratic ecosystems** that are both expansive and inclusive
- Issues of **effective and inclusive engagement**

MAPPING ACTIVITIES AND NEEDS OF

# Pilots

TO UNDERSTAND HOW TO SUPPORT THEM  
IN THEIR DEMOCRATIC PROCESSES

# Democracy

LEVERAGING AND TAILORING A TOOLKIT  
OF TECH SOLUTIONS

# Technology

HOW DO WE INFORM AI-ENHANCED DEMOCRATIC  
DELIBERATIONS ENSURING AI INCLUSION IS TRUSTWORTHY?

- **Co-creation with pilots' communities**  
> requirements, deliberative and scaling journeys
- **Ethical approach with cross-disciplinary foundations**  
> ethical task force
- **Inclusivity of less engaged population**  
> toolkit and guidelines
- **Privacy, data protection, explainability**  
> pseudonymisation, minimisation, clear communication
- **Iterative, participatory design**  
> cycles of co-design

## EXPERIMENTATION

6 use cases for piloting, where to experiment with AI-enhanced deliberative democracy tools, methods and processes

UC1

### REIMAGINING THE BUILDING BLOCKS OF DEMOCRACY

International

Deliberation on the building blocks of democracy; leveraging the experience of DCF and its external network including partners such as [the newDemocracy Foundation](#), [Future Consensus Institute](#), [Konrad Adenauer Foundation](#), [Sapienship](#), and [The Bertelsmann Foundation](#); to be broadly promoted through the [Athens Democracy Forum](#)

UC2

### TEENS FOR DEMOCRACY

Initially European, to scale out to a global level

Participation of teenagers (13-17 years old) in deliberative processes carried out within the municipal councils of 5 European municipalities; collaboration with [Sapienship](#) to set up an edutainment document on democracy that will be launched under the auspices of [UNICEF](#)

UC3

### YOUNG THINKERS AND EU DECISION-MAKERS

European

Young people engage in deliberative processes with high-level EU policymakers and leading experts in the field of Citizen Science and Public Participation; built on the successful Young Thinkers initiative carried out by CEPS; to be widely promoted through the annual [CEPS Ideas Lab](#)

UC4

### FUTURE4CITIZENS

Initially national, to scale out to a European level

Employment of RIE Innovative Narrative Methodology and a variation on SITRA's [Futures Frequency Workshop](#) method to conduct a series of citizen dialogues; run by RIE in partnership with prominent foundations; focus on issues related to inequality and fiscal reform, and the role of innovation in realizing SDGs

UC5

### TRANSITION MECHANISMS FOR A DEMOCRATIC CITY

Initially local, to scale out to the national and EU level

Inclusion of less skilled and marginalized segments of local civil society and group of activists; participants of multicultural origin, high percentage of young and elderly residents, institutionalization of deliberative processes between civil society and local authority; focus on urban planning issues

UC6

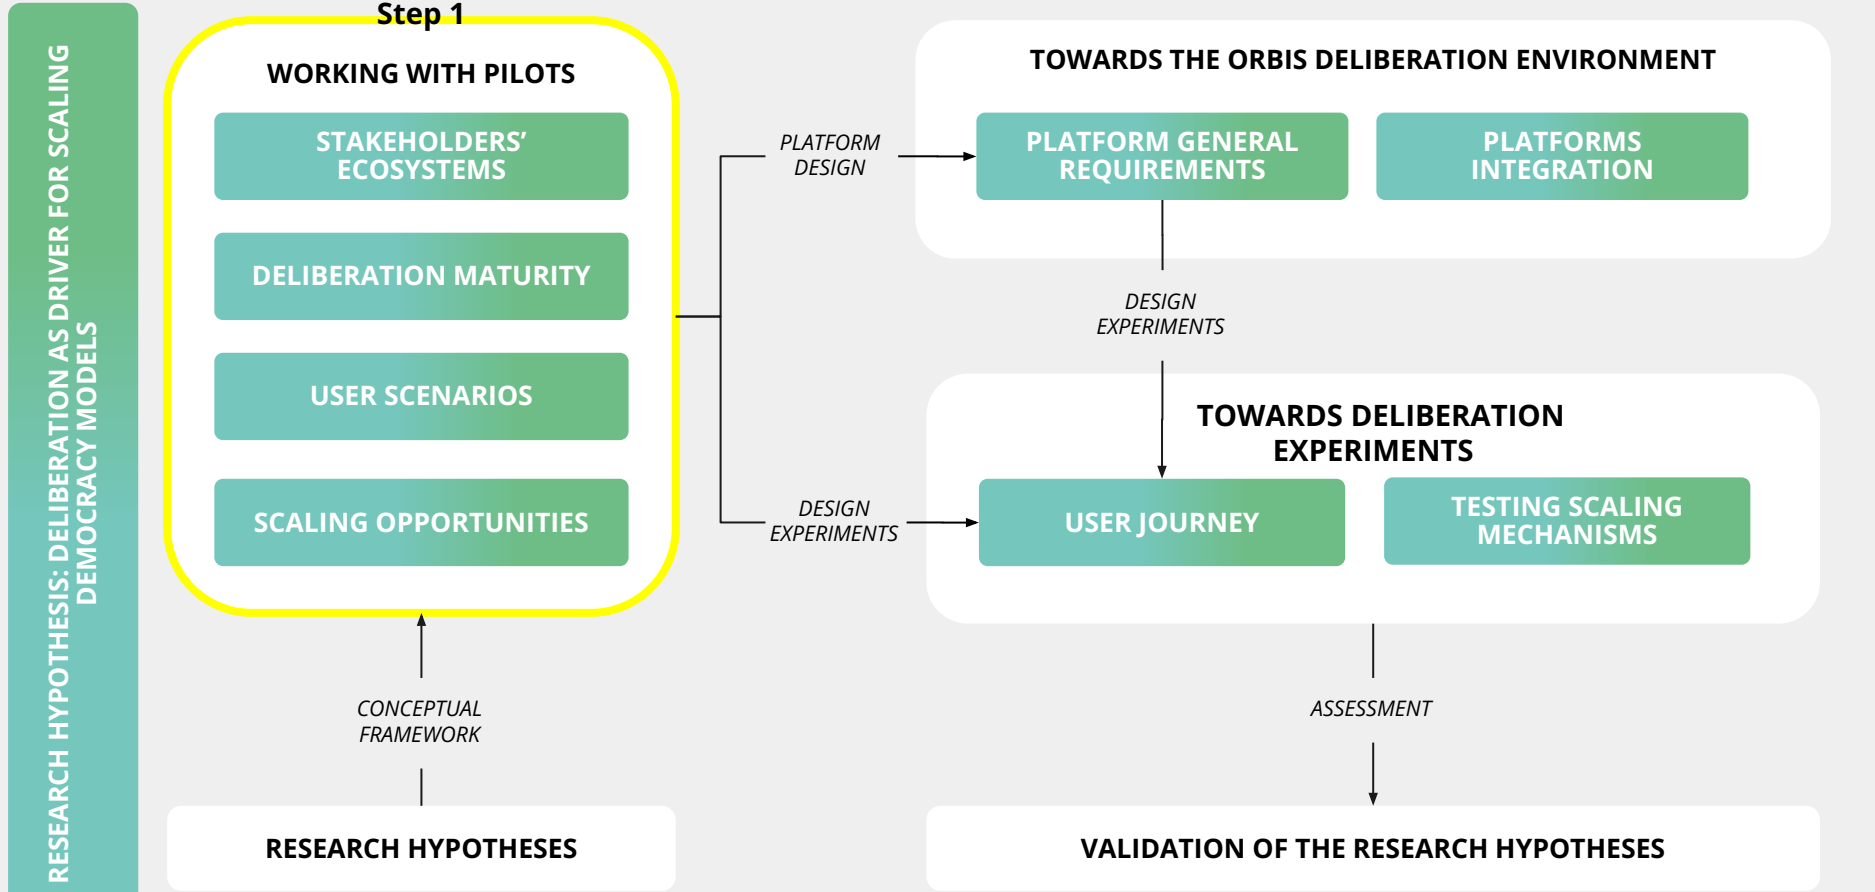

### ALLIANCE FOR ENTREPRENEURSHIP AND DEVELOPMENT IN WESTERN GREECE

Initially regional, to scale out to the national level

Deliberations at the regional level involving diverse types of stakeholders; positive attitude of stakeholders to wide and inclusive participatory processes on innovation actions; focus on social and female entrepreneurship issues

Scale

Distinctive character of the case

RESEARCH HYPOTHESIS: DELIBERATION AS DRIVER FOR SCALING DEMOCRACY MODELS

**Step 1**

**WORKING WITH PILOTS**

**STAKEHOLDERS' ECOSYSTEMS**

*1st informal*

**DELIBERATION MATURITY**

**STAKEHOLDERS' ECOSYSTEMS**

*2nd formal*

**USER SCENARIOS**

**SCALING OPPORTUNITIES**

**Step 1**

**ONE-TO-ONE ACTIVITIES WITH PILOTS**

*WP2*

1. INTERVIEWS
2. ELABORATION OF SCENARIOS
3. WS IN PRESENCE

**Step 2**

**ONE-TO-ONE CO-DESIGN WS PILOTS**

*WP3*

1. PILOTS INTERPRETATION THROUGH SCALING
2. CO-DESIGN SESSIONS
3. REALABORATION BY PILOTS

# Step 1

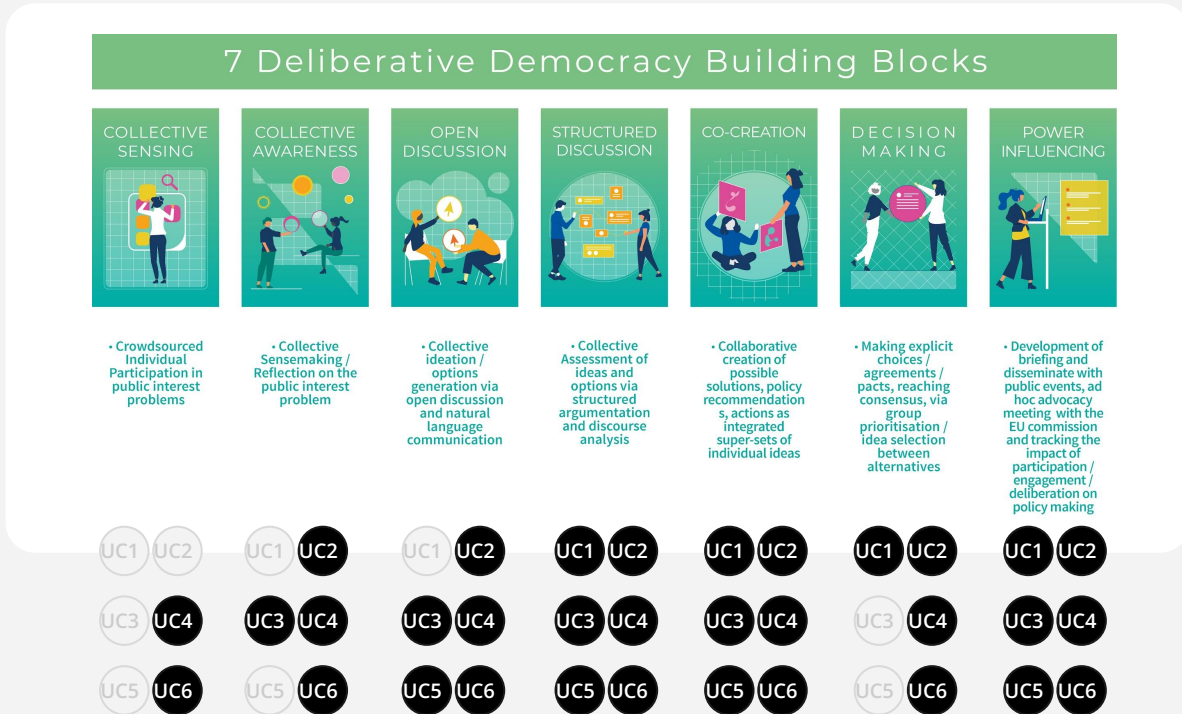

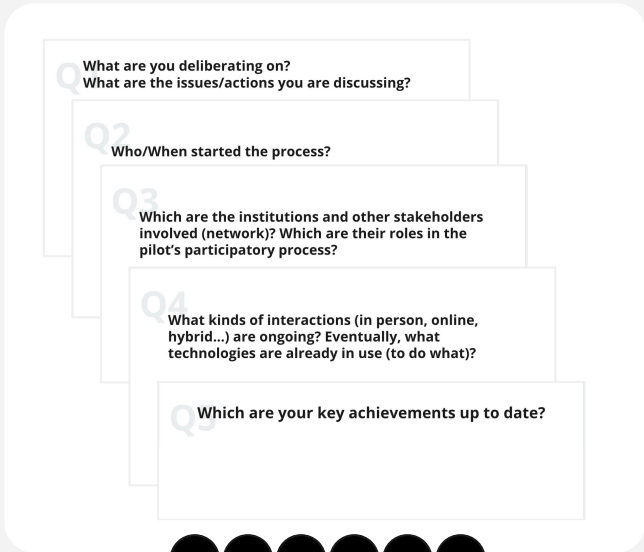

## first one-to-one activities with pilots

The deliberative processes are broken down and framed in seven modular building blocks, understood as components support the engagement and participation of citizens in issues of public concern. Deliberative Blocks are used to understand Pilot deliberative features and have been used as starting point to create User scenarios

Which are pilots **activities and practices** towards democratic deliberations?

How are they positioned against **Deliberative Democracy Building Blocks**?

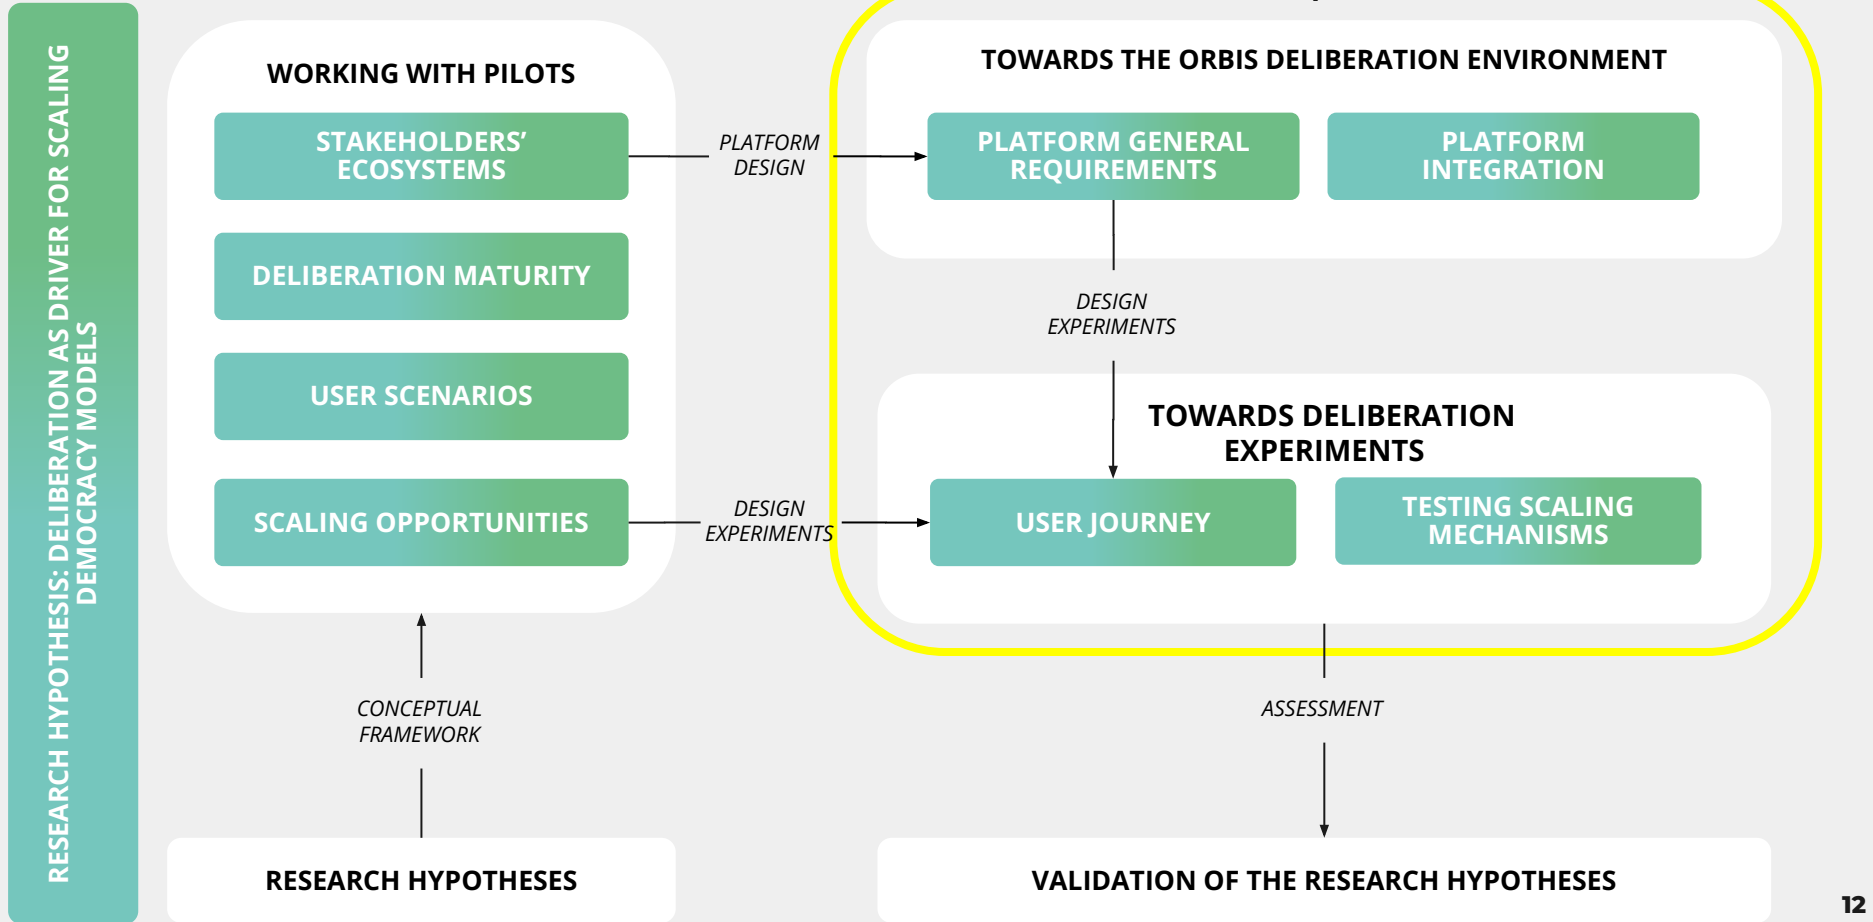

## Step 2

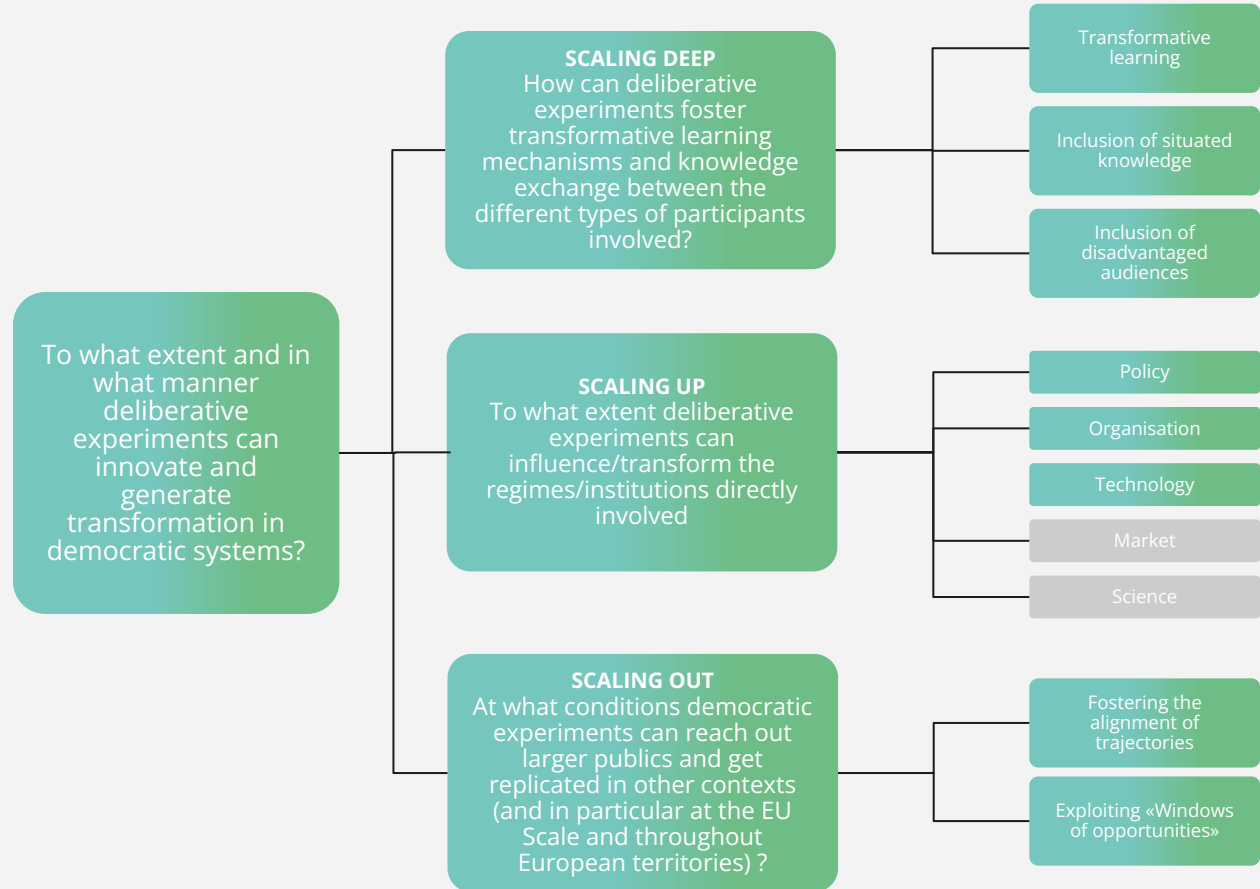

**second  
one-to-one  
activities with  
pilots**

The scaling perspective produces a complementary narrative of pilots macro-and-micro deliberative processes, described through two dedicated tools: the Ecosystem Map and the Process Graph, co-designed with pilots representatives

How are pilots situated as per **scaling mechanisms**?

## Step 3

The co-created user scenarios are used to derive tech requirements and initiate the design of the toolkit.

They also serve as the starting point to create user journeys for each pilot, which in turn offers input for the components' development.

How can **pilots inform technologies?**

How to **improve and develop socio-tech solutions** to answer real needs and **support scaling?**

**THEORETICAL FRAMEWORK**  
Scaling mechanisms & Deliberative democracy

**TECH**

**PILOTS**

co-design workshops with pilots

definition of user requirements

association to tech features

implementation of tech features

planning deliberative activities and sub-activities

revision of activities and sub-activities

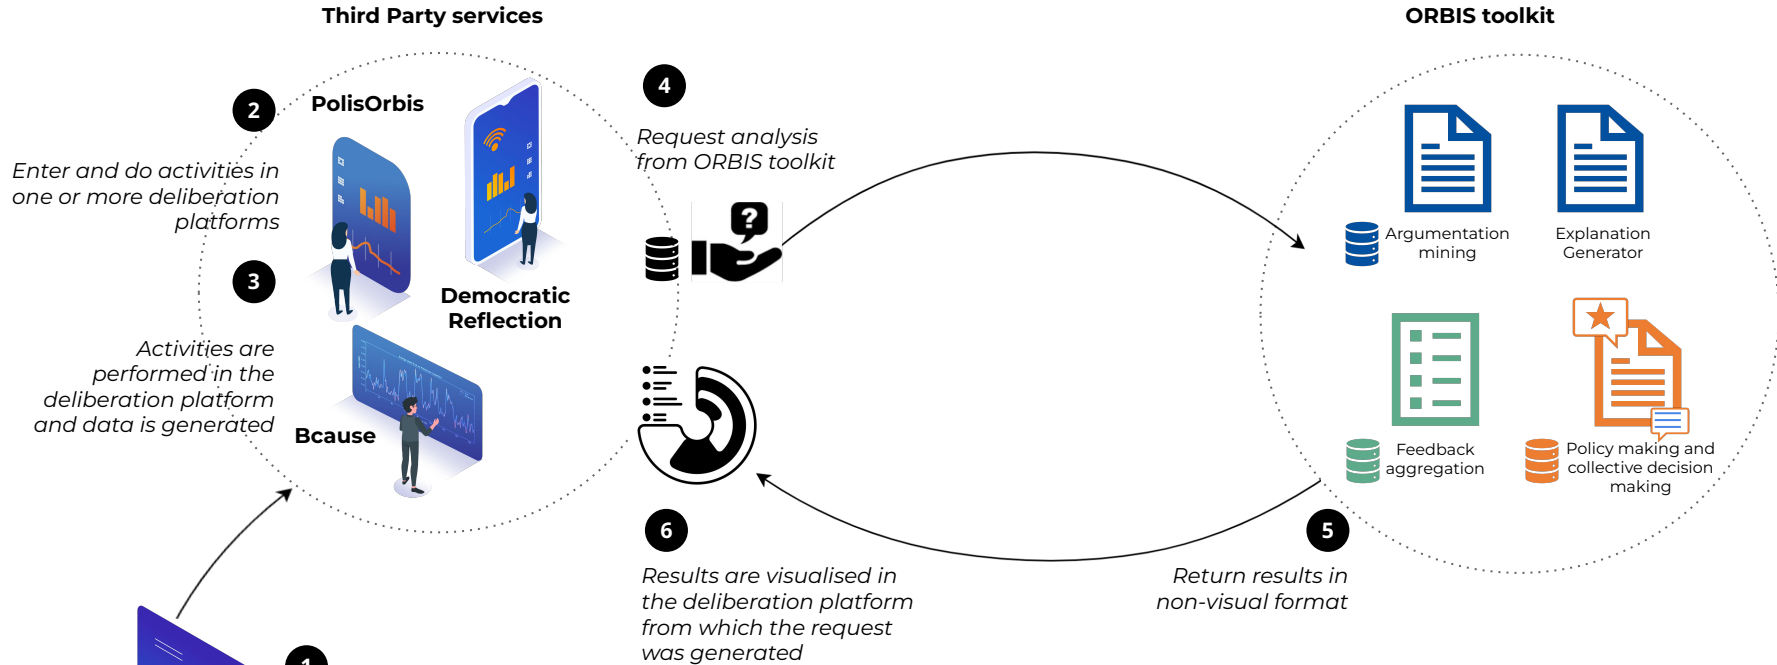

experiments with tech features

BCAUSE  
DEMOCRATIC REFLECTION  
POLIS ORBIS

ARGUMENT MINING  
EXPLANATION GENERATOR  
FEEDBACK AGGREGATION

POLICY-MAKING & COLLECTIVE DECISION MAKING

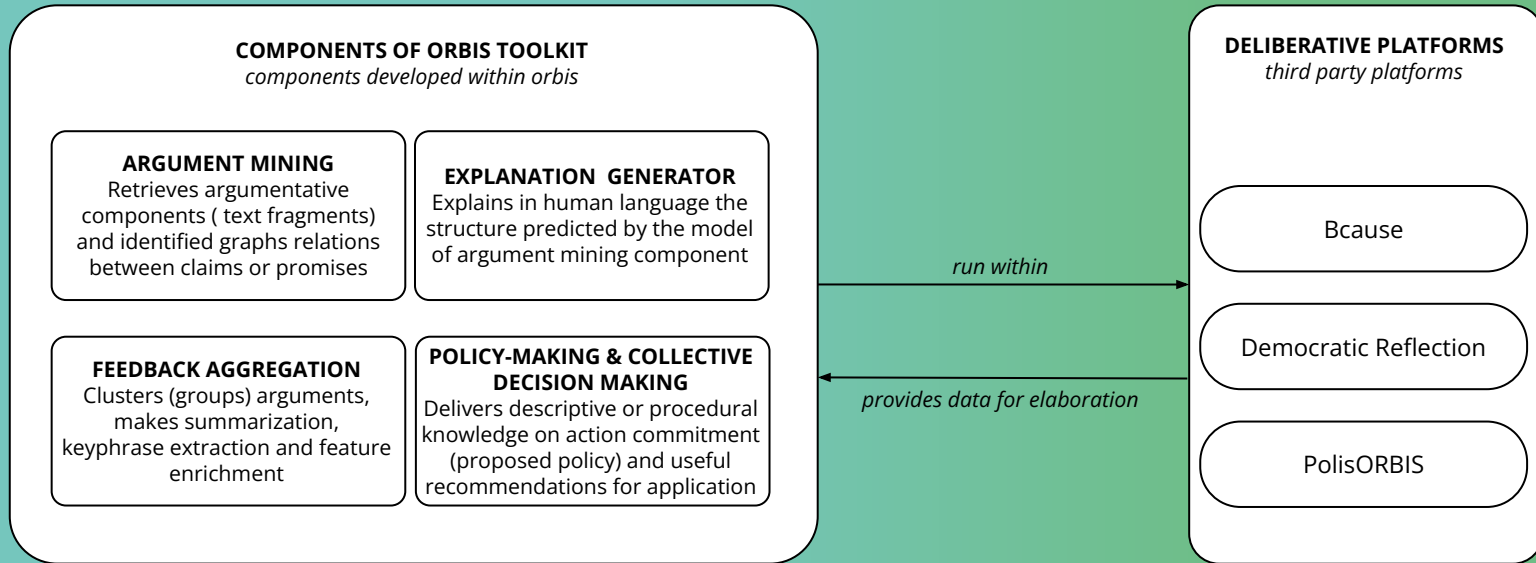

# User Journey

- Ethical foundations and data protection
- Constant engagement and oc-design
- Transparency and explainability
- Continuous monitoring and iterative adaptation

# ORBIS technical solution

# Thanks :)
