ACKNOWLEDGMENTS

I would like to thank Ann M. Early, Lois E. Albert, Jeffrey S. Girard, Robert L. Brooks, Scott W. Hammerstedt, Shawn Marceaux, Duncan McKinnon, Robert Z. Selden, Jr., Waldo Troell, Mary Beth Trubitt, and Mark Walters for their help with previous compilations of the Caddo bibliography. W. W. Crook, III, Chris Lintz, Juliana Barr, and John Samuelsen have also provided useful suggestions and bibliographic additions. For the present edition, Christopher Goodmaster and Mary Beth Trubitt provided additional references.

INTRODUCTION

Timothy K. Perttula

This Bibliography, April 2016 edition, is the latest and most comprehensive version of published sources concerning the archaeology, bioarchaeology, ethnography, ethnography, and history of the Caddo Indian peoples of the Trans-Mississippi South. Two early editions were published by the Arkansas Archeological Survey (Perttula et al. 1999, 2006), while a third edition (Perttula et al. 2011) was posted on the Caddo Conference Organization (www.caddoconference.org) website. A fourth edition was published by the Friends of Northeast Texas Archaeology (Perttula et al. 2013), and a fifth and now hopelessly outdated edition was published by the *Journal of Texas Archeology and History* in 2014. I had asked the Publisher of the *JTAH* to remove the out-of-date bibliography on the *JTAH* website, but he refused. Consequently, I have continued to update and reformat the bibliography through the Friends of Northeast Texas Archaeology, not for publication but as a resource to be shared. It is my hope that this most current version of the bibliography will continue to be a useful reference work for people conducting research on, and/or are interested in, Caddo native history and culture.

This latest and updated version of the bibliography contains over 5200 references whose subject matter in some manner is about the Caddo Indian peoples, an aboriginal people that lived in southwest Arkansas, northwest Louisiana, eastern Oklahoma, and eastern Texas (Figure 1) from as early as the Woodland period (ca. 500 B.C. to A.D. 800) to the present-day. References concerning older cultures that inhabited the area—Archaic and Paleoindian cultures—are not included in the bibliography. The traditional homelands of the Caddo Indian peoples, centering on the Red River in the Great Bend area, covered approximately 200,000 km².

The bibliography is organized into three major sections: (1) Caddo Archaeology and Bioarchaeology; (2) Caddo Ethnohistory & Ethnography; and (3) Caddo History.

I intend the Caddo bibliography to include references to all works that address Caddo research questions and topics and/or provide information that will be useful to people involved in Caddo research in this region, and it is current as I can make it as of December 2015. These include cultural resources management (CRM) reports of limited distribution, journal articles, books, and other published or formally completed documents, as well as important unpublished references. I have tried to select references that have substantive information on the archaeology and history of the Caddo or their Woodland period ancestors within the boundaries of the Caddo area. I will continue to regularly update this Bibliography, and am actively seeking contributions from others interested in Caddo archaeology, bioarchaeology, ethnography, and history.

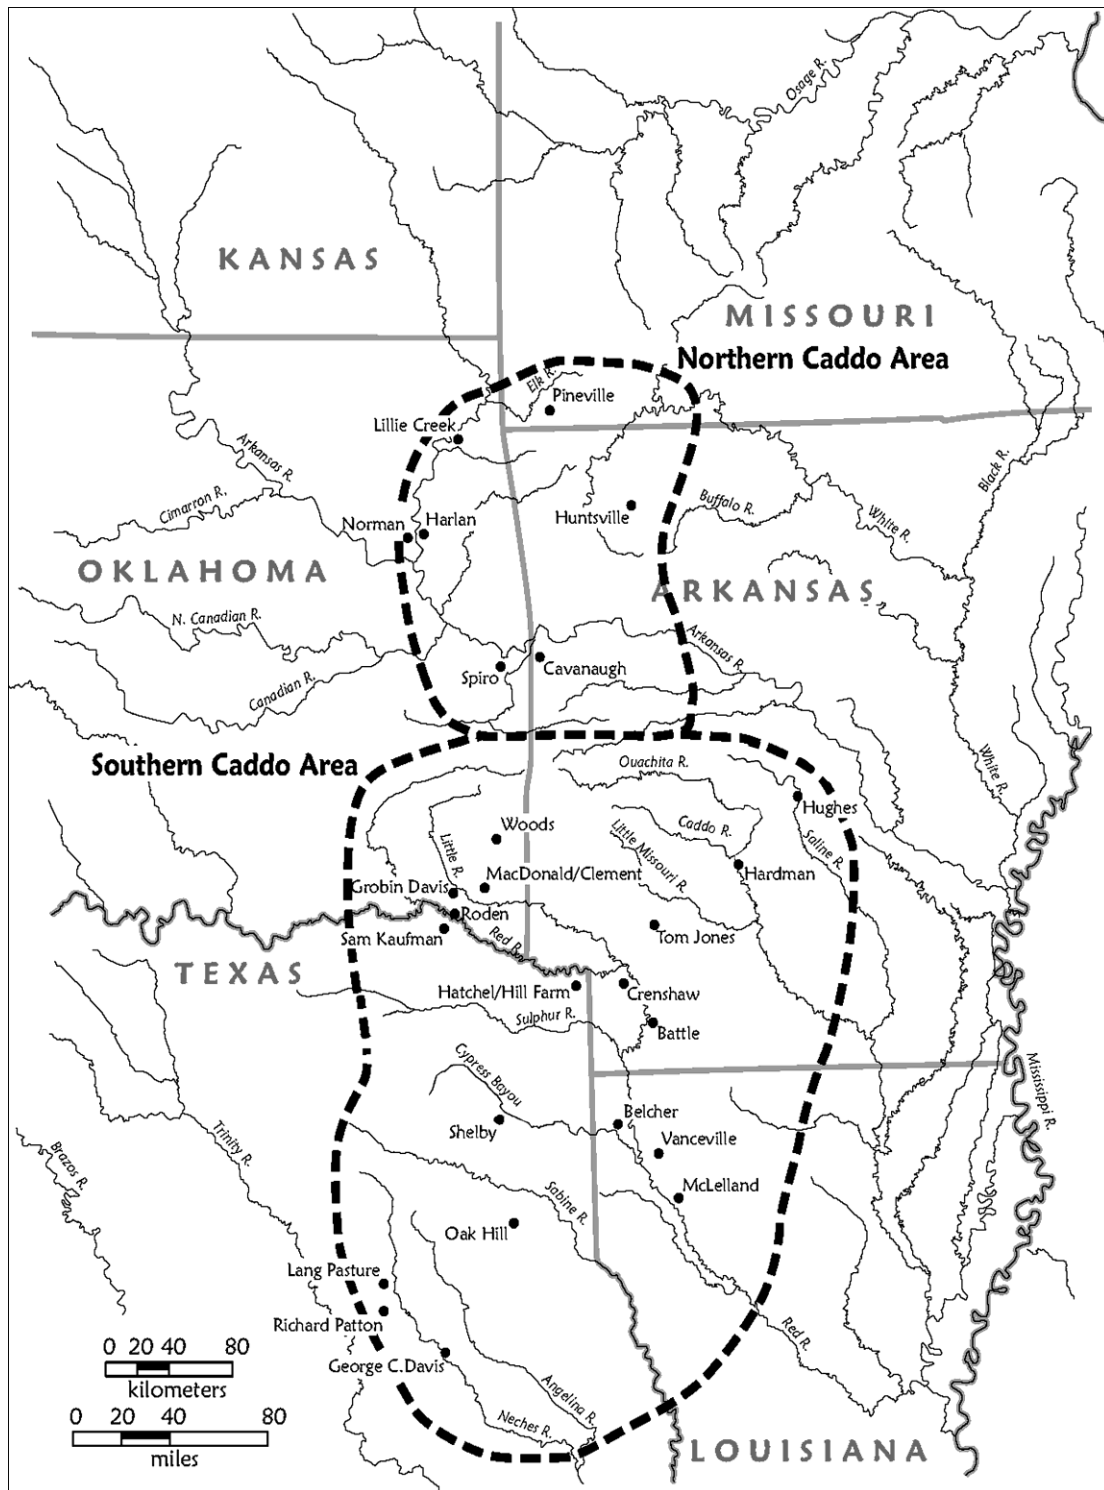

Figure 1. Map of the Caddo archaeological area, including both southern and northern areas.

This bibliography will likely be updated on a regular basis in a digital format, perhaps every six to 12 months. Thus, I would appreciate receiving submissions of new references, as well as mention of any older references that were inadvertently omitted from the present edition. These references can be submitted to:
