

Metagenomic data for *Bathymodiolus* symbionts deposited in IMG (2016)

We have deposited metagenomic data for the sulfur- and methane-oxidizing symbionts of *Bathymodiolus* mussels in the Integrated Microbial Genomes (IMG) database of the DOE Joint Genome Institute (<http://img.jgi.doe.gov/>). The following datasets have been deposited until October 2016:

ER Submission Project ID	Analysis Project ID	Analysis Project Type	Project/Study Name	Seq Status	Sequencing Project ID	IMG Taxon OID	Submission Date
Ga0101691	Genome from Metagenome	Primary	thiotrophic bacterial endosymbiont of <i>Bathymodiolus azoricus</i> SOX_1586O Ga0101691	Draft	5 projects	2642422680	20.11.2015
