PROMOTION.

HOUGHTON, E. R., assistant surgeon. Commissioned as passed assistant surgeon. July 20, 1894.

AMERICAN PUBLIC HEALTH ASSOCIATION.

The American Public Health Association will convene at the city of Montreal, Canada, Tuesday, September 25th, at 9 o'clock A. M., and continue four days.

The following topics have been selected for consideration at this meeting: (1) The Pollution of Water-Supplies. (2) The Disposal of Garbage and Refuse. (3) Animal Diseases and Animal Food. (4) The Nomenclature of Diseases and Forms of Statistics. (5) Protective Inoculations in Infectious Diseases. (6) National Health Legislation. (7) The Cause and Prevention of Diphtheria. (8) Causes and Prevention of Infant Mortality. (9) The Restriction and Prevention of Tuberculosis. (10) Car Sanitation. (11) The Prevention of the Spread of Yellow Fever.

Upon all of the above subjects special committees have been appointed; therefore all papers upon these topics should be presented to the appropriate committee in season to be incorporated as a part of the report of the committee, if deemed advisable.

The Executive Committee announces the following additional subjects upon which papers are invited: (12) On the Education of the Young in the Principles of Hygiene. (13) Private Destruction of Household Garbage and Refuse. (14) Disinfection of Dwellings after Infectious Diseases. (15) Inspection of School Children with Reference to the Eyesight. Papers will be received on miscellaneous sanitary and hygienic subjects, but preference will be given to the topics announced above.

All persons who propose to present papers at the next meeting of the Association, will be governed by the following By-Laws of the Executive Committee:

"4. All papers presented to the Association must be either printed, typewritten, or in plain handwriting, and be in the hands of the Secretary at least twenty days prior to the annual meeting, to insure their critical examination as to their fulfilling the requirements of the Association.

"5. If any paper is too late for critical examination, said paper may be so far passed upon by the Executive Committee as to allow its reading, but such paper shall be subject to publication or non-publication as the Executive Committee deem expedient.

"6. All papers accepted by the Association, whether read in full, by abstract, by title, or filed, shall be delivered to the Secretary as soon as thus disposed of, as the exclusive property of the Association. Any paper presented to this Association and accepted by it shall be refused publication in the transactions of the Association if it be published, in whole or in part, by permission or assent of its author in any manner, prior to the publication of the volume of transactions, unless written consent is obtained from the Publication Committee.

"7. Day papers shall be limited to twenty minutes, and evening papers to thirty minutes, each."

Invitations extended to individuals to prepare papers for the Association do not imply their acceptance by the committee, merit alone determining that question.

All persons attending the meeting should obtain a standard certificate of the agent of whom they purchase their ticket, certifying that they have bought a ticket to Montreal and over what lines they will travel, which certificate must be countersigned by the Secretary of this Association at Montreal, in order to secure the reduction for the return trip.

All communications relating to local matters should be addressed to Dr. Elzéar Pelletier, Secretary of the Local Committee of Arrangements, No. 76 St. Gabriel Street, Montreal, Can.

The meetings of the Association are open to the public. All persons, of whatever profession or occupation, interested in the work of the Association, are cordially invited to be present. Ladies are especially invited to attend the evening meetings.

IRVING A. WATSON, *Secretary*, Concord, N. H.
