World Academy of Science, Engineering and Technology International Journal of Chemical and Molecular Engineering Vol:8, No:7, 2014

Biosynthesis and Metabolism of Anthraquinone Derivatives

Authors: Dmitry Yu. Korulkin, Raissa A. Muzychkina

Abstract: In review the generalized data about biosynthetic routs formation anthraquinone molecules in natural cells. The

basic possibilities of various ways of biosynthesis of different quinoid substances are shown.

Keywords: anthraquinones, biochemical evolution, biosynthesis, metabolism

Conference Title: ICBBBE 2014: International Conference on Biochemical, Biomolecular and Biopharmaceutical

Engineering

Conference Location : Stockholm, Sweden **Conference Dates :** July 14-15, 2014
