

Key Actors in #OpenScience & #RRI Implementation

Funding Conditions

(jointly targetted with FP7 Pasteur4OA)

Figure: Ecosystem of Key Actors in research process that govern long-term Open Science integration in the knowledge generation process. Each group is a potential Target Group along the young researcher's career path, and has a unique role, needs and challenges with respect to Open Science, and can influence its integration into the standard Research Lifecycle differently ([doi: 10.5281/zenodo.49960](https://doi.org/10.5281/zenodo.49960)). Societal Impact through *Citizen Science*, *Public Engagement* and *Co-creation* are all emerging external forces that will also influence Open Science uptake.
