[<Files\\H25>](#) - § 1 reference coded [0.51% Coverage]

Reference 1 - 0.51% Coverage

Diseases, no cellphone coverage

[<Files\\I1>](#) - § 2 references coded [3.37% Coverage]

Reference 1 - 2.94% Coverage

Some areas are really overgrazed and some people are forbidden to graze in some areas, leading to more overgrazing as they have no choice but to graze in one place only.

Reference 2 - 0.43% Coverage

Overgrazing is increasing

[<Files\\I11>](#) - § 2 references coded [2.81% Coverage]

Reference 1 - 1.54% Coverage

Yes, there is a problem of overgrazing because people are keeping too many livestock in a small area

Reference 2 - 1.27% Coverage

Overgrazing has increased but deforestation is not really a problem in this area.

[<Files\\12>](#) - § 2 references coded [1.98% Coverage]

Reference 1 - 0.88% Coverage

There is overgrazing and deforestation in the area.

Reference 2 - 1.10% Coverage

Deforestation has decreased because the government is now strict

[<Files\\13>](#) - § 1 reference coded [3.81% Coverage]

Reference 1 - 3.81% Coverage

Yes we have overgrazing and deforestation in the area. Many people keep constructing houses and for this they need building materials from trees. We keep animals because that's our livelihood, we are not educated, we do not have work and so this is how we survive, through livestock rearing

[<Files\\14>](#) - § 2 references coded [0.84% Coverage]

Reference 1 - 0.53% Coverage

Overgrazing is a big problem

Reference 2 - 0.32% Coverage

Always increasing

[<Files\\16>](#) - § 1 reference coded [3.42% Coverage]

Reference 1 - 3.42% Coverage

We don't really have a problem of deforestations because we have measures to follow and one needs permission to do this, though some people always disobey and make their own decisions.

[<Files\\18>](#) - § 2 references coded [0.74% Coverage]

Reference 1 - 0.22% Coverage

Overgrazing

Reference 2 - 0.51% Coverage

Overgrazing is increasing

[<Files\19>](#) - § 2 references coded [4.76% Coverage]

Reference 1 - 3.87% Coverage

There's overgrazing and deforestation. There's drought and more people are building houses. Sometimes the soil is also just very poor and shallow compared to other soils in some areas. These problems are caused by drought and more people are building houses.

Reference 2 - 0.89% Coverage

These problems have increased because of population growth.
