It's not enough because of lack of rain, it is not at all sufficient.

[<Files\\H12>](#) - § 1 reference coded [1.79% Coverage]

Reference 1 - 1.79% Coverage

No, it is not enough because we are a big family and we don't make enough for everyone because of drought. We get less produce

[<Files\\H13>](#) - § 2 references coded [6.88% Coverage]

Reference 1 - 5.00% Coverage

We don't have livestock or garden, we do small-scale mining; we dig for stones and try to look for buyers at a very low price. That's the only thing we depend on, that's where we get money to buy food when; we sell our stones. A man called James ran away with my stones three years ago and he never paid for them. He is a white man from the city and he has taken many people's stones without paying.

Reference 2 - 1.88% Coverage

What we earn is not enough but at least we have a meal each day. This makes our kids to not go out and steal because they know there is a meal at home

Reference 1 - 3.44% Coverage

1. Is the production of your farm enough to cover the food needs of you and your family

It is not enough though the garden is big enough, we don't get enough due to lack of rain. Drought affects our planting and flood washes away our produce because most of our gardens are near the river.
