

Event: What is the Research Data Alliance and how can it benefit you?

Organizer: Danish RDA Node

Date: June 14, 2019

Location: Copenhagen Business School, Frederiksberg, Denmark

About the event: Are you encountering everyday challenges while creating, collecting and managing data? Do you often find that your work as a data creator, data manager, data steward or data curator is not properly recognized and valued?

Then, the Research Data Alliance (RDA) is the right place for you!

With over 8100 members from 137 countries, the RDA provides a forum where members come together to develop and adopt solutions that promote data-driven research, data sharing and accelerate the growth of a cohesive data community.

Join us on June 14th, 2019 from 09:00 to 12:30 in Copenhagen for a workshop on RDA and the Danish RDA Node. At the event, you will learn more about RDA, its recommendations and outputs, and funding opportunities. You will hear more about how you can join, contribute and help shape the landscape for working with research data in Denmark and internationally.

Program

09:00-09:20: [Welcome and introduction to the Danish RDA node](#) – Anne Sofie Fink Kjeldgaard (Rigsarkivet/The National Archives)

09:20-09:50: The RDA network – Daniel Bangert (Göttingen State and University Library, via Zoom)

09:50 - 10:05: Break

10:05-10:30: [How to get involved in RDA and funding options](#) – Sacha Zurcher (RUC)

10:30-11:00: [RDA groups and developments](#) – Karsten Kryger Hansen (AAU)

11:00 - 10:15: Break

11:15-11:45: [What can RDA do for the social sciences?](#) – Mareike Buss (CBS) and Anne Sofie Fink Kjeldgaard (Rigsarkivet/The National Archives)

11:45-12:15: [What can RDA do for engineering?](#) – Nikola Vasiljevic (DTU)

12:15-12:30: [Summary and conclusion](#) – Mareike Buss (CBS), Nikola Vasiljevic (DTU) & Anne Sofie Fink Kjeldgaard (Rigsarkivet/The National Archives)
