

# ROMOR Staff Mobility Study School

## Department of Engineering and Architecture

### University of Parma

# UNIVERSITÀ DEGLI STUDI DI PARMA

## Group Work Task

# Group Work Task

Data stewardship in your institution. Final assignment of the ROMOR Study  
School

Write a web page on Data Stewardship for the (early career)  
researchers in your field or institution.

## Possible subjects

RESEARCH OUTPUT discovery and the PSHE Data Portal

RESEARCH OUTPUT protection, database copyright and ethical use

Data management plans

Managing RESEARCH OUTPUT during the research project cycle

Tip: for inspiration, look at the Research output management support services that other university libraries, research institutions, or data archives provide on their websites. Bear in mind that there may be differences in national legislation and institutional policies.

## Examples (but you do not limit to these)

University of Venice [Fostering Open Science in Italy: the role of IOSSG](#)

Contact: Marisol Occioni, Università Ca' Foscari Venezia

University of Bologna: <http://www.crrmm.unibo.it/attivita/data-management-plan>

Data management plan

Contact: Marialura Vignocchi

European University Institute

<https://blogs.eui.eu/library/2019-library-research-data-guide-7th-edition/>

EUI Library Research Data Guide

Contact: Pep Torn

## 2.1 Context

The texts and Web page will be placed on the Research output management support services website, listing the support staff as the first contact person.

### Requirements

The text ties in with the practice of PSHE and ITHE scientific research

The text focuses on the hows, whats and whys of Research output management support services

The text must be informative and task-oriented (= answers questions of visitors to the page)

The text satisfies web requirements (clear header and subheaders, concise paragraphs, use of bullet points, etc.)

The text must be written in correct English

## 2.2 Deadline

The deadline for submitting the texts is July 7

Submission by mail to: [annamaria.tammaro@unipr.it](mailto:annamaria.tammaro@unipr.it)

## 2.3 Feedback

The feedback of all texts will take place according to the following questions:

- does the text satisfy the requirements of FAIR principles?
- is the information consistent with that provided on the general PSHE or ITHE Research Output Management pages and other Research Data Management pages?
