What is OpenAIRE

- OpenAIRE => **Open A**ccess **I**nfrastructure for **R**esearch in **E**urope.
- European Commission funded since 2009 and has ~55 institutions.
- Promote and provide support for Open Access and Open Science across the european countries and has:
  - National open access desk's (NOADs) in every european country to support the national open access infrastructure.
  - Services for Researchers, Funders, Projects, ...
- Collaborate with OpenAPC, EOSC, e-infracentral, and many other organisations.

OpenAPC <-> OpenAIRE

- This information is integrated in the OpenAIRE Research Graph

- and will be present in OpenAIREs Research Community and Explore Dashboards and also at the API (https://api.openaire.eu).

- We suggest that the repository developer also include APCs and BPCs in the repositories so that they can be harvested via OAI-PMH interfaces. (nice to have)
