

Blue-Action
@BG10Blueaction

We are in Edinburgh City Chambers now for our public briefing on ocean observations and predictions for the climate emergency. Looking forward to meeting all our stakeholders today.

♥ 1 8:30 AM - Oct 16, 2019

Robotic underwater glider data visualisation

YouTube

A quick introduction to robotic glider operation, then data from a return mission from Scotland to Iceland. Data processed in Matlab and animated in Paraview

Blue-Action
@BG10Blueaction

@b_berx from @marinescotland is giving a fantastic introduction to the stakeholder briefing today, discussing climate change and the impacts and solutions in Scotland.

Blue-Action
@BG10Blueaction

Lots of interest in the room as Prof. Noel Keenleyside from @UiB describes how climate models are now able to make predictions from years to decades in advance.

♡ 6 9:00 AM - Oct 16, 2019

Blue-Action
@BG10Blueaction

Really interesting discussions with all stakeholders on how we can decide what climate services are needed... All sides need to understand more about the needs and data available, and have more conversations.
