master
research

Discussion – Skills and competencies

- 19 general
- 33 specific skills :
OA = 8, IR = 13, RDM = 12
- A position holder could be expected to an a specialist in more than one roles
- Not always clear lines between roles

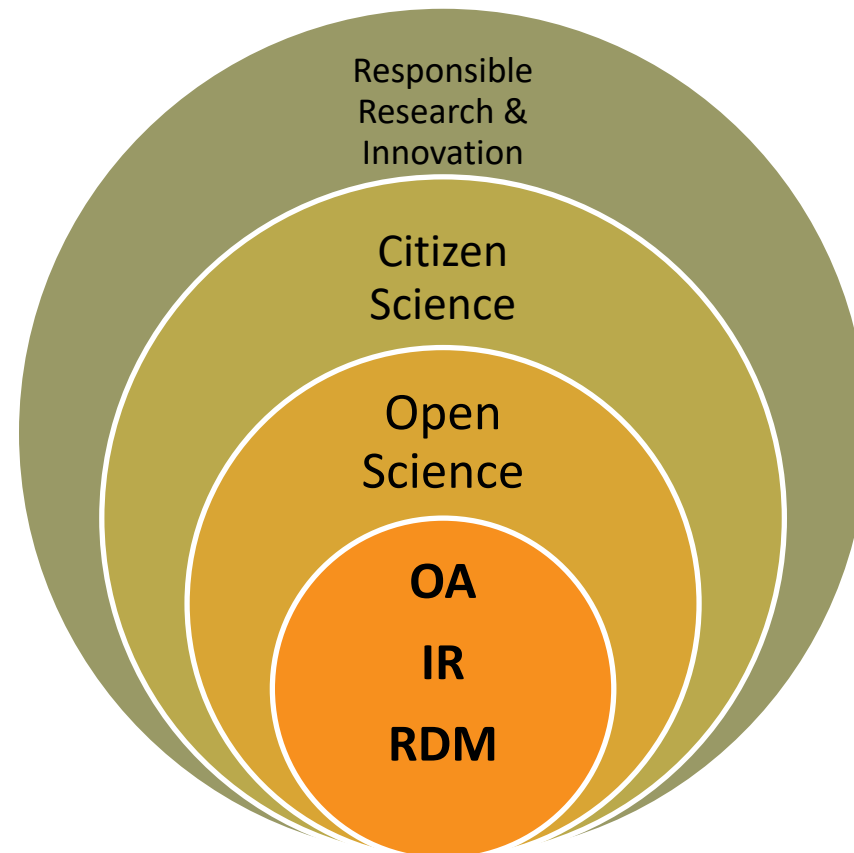

Discussion – RDM role

- 1 job advertised with the title “Research Data Manager” in combination with “Open Access”
- Often combined with another scholarly communications sub-category
- Research degree or previous research experience
- Have UK institutions already covered these positions or there is still a gap?
 - What happens in Europe, globally?

Future skills

What about my original question?

Scholarly Communication Competencies Coalition (SC3)

- Formed in 2017
- Group members: ARMA, British Library, CILIP, CORE, Jisc, RLUK, UKCoRR, UKSG, SCONUL, Vitae
- Monitor development of scholarly communications field both nationally and internationally
- Maps scholarly communication competencies against training provision options
- Addresses needs for inclusion in scholarly communication in academic degree courses
- Creates a self-assessment tool to help individuals decide if scholarly communication is for them
- Website : <https://www.ukcorr.org/partnerships/sc3-scholarly-communication-competencies-coalition/>

Thank you!
