Charter

Social Science Research Data

- ◇ cover many disciplines,
- ◇ appear in many data types,
- ◇ deal with multiple objects and levels,
- ◇ are very distributed – coming from various sources

Entering the Implementation Phase of FAIR principles

- ◇ Find: cataloguing
- ◇ Access: how about sensitive data?
- ◇ Interoperability: alignment of standards, controlled vocabularies, semantics
- ◇ Reusability: lack of clarity in data policies

Bring Trust into the system

- ◇ Quality and Provenance of Data

Goals

- ◈ Engage all stakeholders:
 - ◈ Funders, data producers, service providers, users
- ◈ Three priority areas
 - ◈ Quality of Data
 - ◈ Data Policy
 - ◈ Sensitive Data

But this is open for discussion – Thursday 9.00-10.30

Set up a corpus of working members → WGs
