**Fildena** the Perfect Solution to Help  
to Cure Erectile Dysfunction Easily

FILDENA

ED♂Pills

The advertisement features a photograph of a smiling couple in bed, with the woman holding a white pillow over the man's head. In the top left corner, there is a purple, teardrop-shaped pill with the word 'FILDENA' embossed on it. The background is a bright, clean bedroom with a white bookshelf. The 'ED♂Pills' logo is located in the bottom right corner of the image.

### **What Is Fildena? What Is It Used For?**

This is an incredible drug which men all over the planet are using, much to their delight and pleasure. When men who suffer from sexual dysfunction symptoms take this medication, they get very powerful hardons, which let them have sex for long hours.

Definitely the question lurking in your mind must be – how can men who are impotent be capable of having sex? And that too sex for many hours? This is possible as this drug has in it the active ingredient known as Sildenafil Citrate. [Sildenafil Citrate](#) acts by pumping blood into the penis and letting you get a very hard erection which lets you have just out of this world sex, for a long time.

### **What Are The Side Effects Of Fildena?**

Men all across the planet take this drug and in general side effects are not exhibited. But, in the event that you happen to take this drug and see side effects, be sure to see a physician at once.

Certain men who take this drug may experience side effects like sleepiness, back pain, watery or stuffy nose, nausea, headaches, facial flushing, vomiting, lightheadedness, breathing trouble and muscle pain.

### **What Are The Precautions Needed To Take Fildena?**

If you wish to take this drug, you need to know of the following precautions:

- This drug is not meant to be used by women.
- If your partner is breastfeeding, you cannot take this medicine.
- If your partner is pregnant, do not take this drug.
- If you suffer from any liver disease, you should not take this remedy.
- If you have heart problems, this drug is not for you.
- If you suffer from low blood pressure or high blood pressure, you cannot take this remedy.
- If you have any kidney disease, you should not take this drug.

### **What Is The Dosage Of Fildena? How to Take It?**

The best time for you to take this drug is about an hour before you want to have sex and you should take it with a glass of water. To get the maximum benefit from this medication, have it on an empty stomach. The effects of the drug can last for up to 5 hours. Do not take this drug with alcohol or with a meal that has too much fat in it, as they tend to slow down and reduce the effects of the medication. Important to note is that you can take this drug just once in 24 hours.

### **This drug can be procured in various doses like:**

- Fildena 100 mg
- Fildena 120 mg
- [Fildena 150 mg](#)
- Fildena 200mg

Which dose of this drug would be best suited to you in the treatment of weakness of man in bed (ED), will depend on your age, as well as on your current and past medical condition.
