APC: Article Processing Charge

^a As of 11th September 2019; ^b OSF communities are still working out the balance of ownership between service leads and the Centre for Open Science; ^c Disciplinary scope of server is broader – we list only those relevant to biomedical and health sciences; ^d Based on article length, surcharges may apply for articles with unusually large word counts; ^e MNI will pay for one publication per lab only.

Table 2: scope & publishing practices: submission, viewing, discoverability & reuse
