

Exploring biodiversity through Scholia

A close-up photograph of green leaves with serrated edges. A small, light-colored frog with dark spots is visible on one of the leaves in the center. The background is slightly blurred.

Cost MOBILISE Wikidata Workshop, 13-14 February 2020

Some of the ways to explore Wikidata

- Item-based access via the Wikidata GUI ([example](#))
- [Bulk access](#)
 - [Dumps](#)/ [MediaWiki API](#)/ [Wikidata Query Service](#)/ [LDF](#)
- An ecosystem of [Wikidata frontends](#)
 - [Reasonator](#) - generic
 - [SQID](#) - generic
 - [Histropedia](#) - timelines
 - [WikiGenomes](#) - genome browser
 - [Wikidata for Digital Preservation](#) - software metadata
 - [Scholia](#) - scholarly profiles
 - [Ordia](#) - lexemes

Scholia basics - introduction

- Wikidata frontend for scholarly profiles
 - [Topics](#), [People](#), [Organizations](#), [Awards](#), [Journals](#) etc.
- Data curation via
 - [WikiCite](#)
 - [WikiProjects Taxonomy](#), [Invasive species](#) & [Ontology](#)
 - [Many others](#)
- [Scholia about Scholia](#)
- [Documentation](#)

Guided tour

- Some profiles relevant to biodiversity
 - Events, Taxa, Compounds, Pathways, Lexemes
- Demos
 - /missing, comparisons, redirects, template, widget, typos,
BibTeX, Author Disambiguator, taxon-compound links
- Gaps in biodiversity information
 - type specimens, collections, nomenclatural acts
 - phenotypes, occurrences, ecological relationships
