

This document describes the data labels in the vanished open access journal dataset.

There are two datasets included in this bundle: One representing the primary dataset of vanished open access journals (labeled 'vanished') and the other one listing journals that were found to be inactive during our data collection process (labeled 'inactive').

Data label	Description
source	The source through which we first identified the journal.
second_source	Second source through which we identified the journal.
issn	Journal ISSN (International Standard Serial Number).
e-issn	Journal E-ISSN (Electronic International Standard Serial Number).
language(s)	The language(s) of the journal content.
country	Country of the publisher.
url	One of the original URLs for the journal website. In the inactive dataset, this is not recorded for every journal.
society_affiliation	If the journal was affiliated with a scholarly society. 1 = yes, 0 = no
other_sci_affiliation	If the journal was affiliated with a research institution, other than a scholarly society (e.g., university, national academy, governmental research institution). 1 = yes, 0 = no.
journal_name	Journal title.
publisher	Publisher of the journal
discipline	The journal's primary scientific discipline: LS = Life Sciences PSM = Physical Sciences and Mathematics SSH = Social Sciences and Arts and Humanities Health = Health Sciences
start_year	The year the first issue of the journal was published.
end_year	The year the last issue of the journal was published.
last_year_online	The last year the journal was accessible online (verifiably).
ia_link	A URL to an Internet Archive snapshot of the journal during its existence
