FINNISH SOCIAL SCIENCE DATA ARCHIVE

FSD – Finnish Social Science Data Archive

> National resource centre for research and teaching since 1999

> Basic services free of charge

- Archiving, long-term preserving, promoting and disseminating research data, information services, consultation in data management planning

> National Service Provider for CESSDA

> Separate unit within University of Tampere

Requirements for PIDs

> Free of charge (especially if used for variables)

> Possibility to identify versions

> Machine-usability:

- PID generation
- Automated updates for resolver

> Resolver and redirection in the web

> Persistence

Challenges of introducing PID

> Funding, personnel, time

- Planning

- Implementation

- Programming

  - PID generation

  - URLs to resolution service

Plans in FSD

> Plans for starting to use URNs

> The National Library of Finland

- Provides URNs

- Recommends using URNs

> Own namespace urn:nbn:fi:fsd:<NSS>

- urn:nbn:fi:fsd:M-FSD11110-DDIC.fi-1.5-20140417

> PIDs for

- AIP
- DIP
- DDI-C data descriptions

> Accurate rules for versioning

> New PIDs for new versions

> Only considerable changes can cause the change of URN

The role of CESSDA

> Waiting recommendations and guidance
  - Parts/packages to be identified
  - PIDs to use
> If obligations, transition time needed

Thank you!
