Train-the-Trainer Bootcamp for Librarians

LIBER Online 23.06.2020

Tanya Yankelevich, Darja Fiser, Jakob Lenardic, Elisa Gorgaini & Ricarda Braukmann

Housekeeping...

- ❑ Keep your **microphone muted** and **camera off** during presentations
- ❑ **Questions?** Put them in the **chat** during presentations. Raise your hand or use your microphone during the discussion
- ❑ **Slides** and other useful links – in the **”materials”** section. They will also be made available after the bootcamp.
- ❑ Joined from the **web** and **having a problem?** Refresh your page! Not solved? Contact Tatsiana in the chat.

Programme of today

10.00 – 10.05 Introduction to SSHOC and CLARIN | Ricarda Braukmann

10.05 – 10.20 The SSHOC Training Toolkit - A Discovery Tool | Ricarda Braukmann

Short break with music

10.30 – 11.00 Hands-on session CLARIN | Darja Fiser

Short break with music

11:10 – 11.40 Bringing events online | Tanya Yankelevich

SSHOC
social sciences & humanities open cloud

Horizon 2020
European Union Funding
for Research & Innovation

Type of action & funding:
Research and Innovation action
(INFRAEOSC-04-2018)

Partners: 45

(20 beneficiaries + 25 LTPs)

SSH ESFRI Landmarks and Projects
& international SSH data infrastructures

Project budget:
€ 14,455,594.08

Duration: 40 months
(January 2019 – 30 April 2022)

Project website:
www.SSHopencloud.eu

Objectives:

- creating the social sciences and humanities (**SSH**) part of European Open Science Cloud (**EOSC**)
- maximising **re-use** through **Open Science** and **FAIR** principles (standards, common catalogue, access control, semantic techniques, training)
- interconnecting existing and new infrastructures (clustered cloud infrastructure)
- establishing appropriate **governance model** for SSH-EOSC

EXPECTED IMPACT

The Social Sciences and Humanities are seamlessly integrated in the European Open Science Cloud

Availability of an EU-wide, easy-to-use SSH Open Marketplace, where tools and data are openly accessible

EU-wide availability of high quality “cloud ready” SSH tools and high quality SSH data

EU-wide availability of trusted and secure access mechanisms for SSH data, conforming to EU legal requirements

State of the art Research Infrastructure in several pilot domains advanced through dedicated SSH data pilots cluster projects

Maximising reuse through Open Science and FAIR principles (standards, common catalogue, access control, semantic techniques, training)

Building the SSH Open Cloud

- ❑ **SSHOC Marketplace** of tools and services for the Social Sciences and Humanities

→ sshopencloud.eu/ssh-open-marketplace

- ❑ **SSHOC Training Toolkit** is a **discovery tool** for new and existing **training resources**

→ sshopencloud.eu/join-ssh-training-community

- ❑ **SSHOC Training Community** for knowledge exchange on best practices

→ sshopencloud.eu/join-ssh-training-community

- ❑ **SSHOC Workshops, Webinars and Bootcamps**

→ sshopencloud.eu/events

What is it?

- Common Language Resources and Technology Infrastructure
- **ESFRI** ERIC status since 2012, Landmark since 2016

Aim

Provide easy and sustainable access:

- for scholars in the **humanities and social sciences** and beyond
- to **digital language data** (in written, spoken, video or multimodal form)
- to **advanced tools** to discover, explore, exploit, annotate, analyse or combine data, wherever they are located

How?

Through a **single sign-on** environment that serves as an ecosystem for **knowledge sharing**

CLARIN & Open Science

- promotion for the **sharing and re-use of data through sustainable data registries**
- all integrated data is available in **open access** for research purposes
- support for **linguistic diversity**
 - data covering more than 1500 languages
 - tools for many languages
 - language resources in all modalities
- adherence to **FAIR data principles**
 - Findable, Accessible, Interoperable, Re-usable
 - promotion of responsible data science

Data Types

- newspaper archives
- literary texts
- social media data
- parliamentary records
- historical letters
- oral history data
- disciplinary libraries
- institutional archival data
- broadcast archives
- see also the info on the CLARIN Resource Families initiative: clarin.eu/resource-families

Services

CLARIN portal

Get an example-based impression of what's currently available

Depositing services

Store language resources in a sustainable repository at a CLARIN centre

Virtual Language Observatory

Discover language resources using a faceted browser or a map

Easy access to protected resources

Get easy access to protected resources, with your institutional username and password.

Language Resource Switchboard

Explore and analyze language data with a wide variety of tools

Virtual Collections

Create your own digital bookmarks, ideal for citing data sets.

Language Resource Inventory

Submit and access information about language resources relevant to your research.

Content Search (prototype)

Search different corpora with a single search engine

Questions & Answers

Searching for a specific data set or application? Wondering how CLARIN can assist your research? Feel free to contact us!

Who are you?

SSHOC Launches
Toolkit
for Trainers in SSH

training-toolkit.sshopencloud.eu

SSHOC Training Toolkit

training-toolkit.sshopencloud.eu

- Collection of available materials for SSH trainers
- Materials to reuse, develop and improve your SSH trainings
 - Searchable inventory
 - Materials, modules, slides, didactics, videos, games, etc.
 - Various topics including Open Science, RDM etc.
- Launched on April 20th 2020
- training-toolkit.sshopencloud.eu

SSHOC Training Toolkit

training-toolkit.sshopencloud.eu

- The Toolkit currently lists 41 sources and 76 items for trainers
 - Source = *organisation, group or project providing training materials.*
 - Item = *the individual material that is provided by a given source.*

CLARIN Resource Families

The aim of the CLARIN Resource Families initiative is to provide a user-friendly overview of the available language resources in the CLARIN infrastructure for researchers from digital humanities, social sciences and human language technologies. The overviews are organized according to the types of data in the resources and include listings sorted by language.

The listings include the most important metadata and brief descriptions, such as resource size, text sources, time periods, annotations and licences as well as links to download pages and concordancers, whenever available. In addition to the resources found in the CLARIN infrastructure, CLARIN Resource Families provides an overview of other existing valuable language resources which have not yet been integrated in the infrastructure.

CLARIN Resource Families also provides hyperlinks to other relevant materials such as the thematic CLARIN workshops and tutorials and their accompanying videolectures, as well as a list of key publications on the resources surveyed.

Resource families

Introduction

The aim of the CLARIN Resource Families initiative is to provide a user-friendly overview of the available language resources in the CLARIN infrastructure for researchers from digital humanities, social sciences and human language technologies. The overviews are organized according to the types of data in the resources and include listings sorted by language.

The listings include the most important metadata and brief descriptions, such as resource size, text sources, time periods, annotations and licences as well as links to download pages and concordancers, whenever available. In addition to the resources found in the CLARIN infrastructure we provide an overview of other existing valuable language resources which have not yet been integrated in the infrastructure.

We also provide hyperlinks to other relevant materials such as the thematic CLARIN workshops and tutorials and their accompanying videolectures, as well as a list of key publications on the resources surveyed.

We currently offer overviews of 10 corpora families, 5 families of lexical resources, and 3 tool families:

Corpora

- [Computer-mediated communication corpora](#)
- [Corpora of academic texts](#)
- [Historical corpora](#)
- [L2 learner corpora](#)
- [Literary corpora](#)
- [Newspaper corpora](#)
- [Parallel corpora](#)
- [Manually annotated corpora](#)
- [Parliamentary corpora](#)
- [Spoken corpora](#)

Lexical Resources

- [Lexica](#)
- [Dictionaries](#)
- [Conceptual Resources](#)
- [Glossaries](#)
- [Wordlists](#)

Tools

- [Normalization](#)
- [Named entity recognition](#)
- [Part-of-speech tagging and lemmatization](#)

SESSION DESIGN AND CONTENT cont.

Introduction

- Housekeeping rules are more important online than offline

Ice-Breakers

- Ask a question (favorite food / drink / pet / villain / ice cream flavor; if you were able to travel through time, where would you go etc.)
- Ask participants to share a picture that has a story (e.g. shoes they are wearing – they wore them on their favorite vacation, etc.) or to hold up their tea/coffee mug and tell the group about it.

www.liberconference.eu
