#### INTRODUCTION

The Malaysian Government imposed the Movement Control Order (MCO) to mitigate the COVID-19 pandemic. Public were urged to comply with the instructions. This study aimed to better understand factors of adherence towards these measures:

1) Stay at home, 2) Remain wherever you are and 3) Only 1 person per family is allowed to go out to buy groceries.

## **METHODS**

Study Design - Cross-sectional (using Google Docs)

- Malaysian Public aged 18 years above

population

Study

Instrument - Using validated questionnaire

- Convenient and snowballing Sampling

technique

Data collection - 10-21 April 2020

Period

#### **RESULTS**

A total of 12251 respondents participated. Majority of the respondents are:

- Malaysian (96.0%)
- aged between 31-40 years old (41.9%)
- Malay (73.5%)
- Islam (80%)
- Living at home with families (88.8%),
- Degree holder (44.3%)
- Public servant (41.2%)
- Female (69.5%)

# Table 1: Attitude towards MCO Instructions

Item	Agree (%)	Disagree (%)
The MCO instructions is a good way to stop the spreading of COVID-19	97.9	2.1
The MCO instructions are beneficial to stop the spread of COVID-19	98.6	1.4
If I follow the MCO instructions I will be less vulnerable to COVID-19 infection	98.9	1.1
If I follow the MCO instructions it is less likely that I will contract COVID-19 in a public area	97.8	2.2
If I follow the MCO instructions I will be less anxious about contracting COVID-19	96.4	3.6
If I follow the MCO instructions they will cause inconvenience to me	83.1	16.9
If I follow the MCO instructions I will have to break my usual life habits	84.1	15.9
If I follow the MCO instructions my daily schedule will be disrupted	46.2	53.8

# Table 2: Social Norms towards MCO Instructions

Item	Agree (%)	Disagree (%)
People close to me wants me to follow the MCO instructions	97.9	2.1
My surrounding influences me to comply with MCO instructions	92.9	7.1
I am motivated to follow the MCO instructions to protect myself	98.7	1.3
I am motivated to follow the MCO instructions to protect my family members	99.5	0.5
I am motivated to follow the MCO instructions to protect my partner	98.8	1.2
I am motivated to follow the MCO instructions to protect my friends	99.1	0.9
I am motivated to follow the MCO instructions to protect my co-workers	98.9	1.1

## Table 3: Perceived behaviour control towards MCO Instructions

Item	Agree (%)	Disagree (%)
I can follow the MCO instructions if I want to	87.6	12.4
I am confident that I have the ability to perform the MCO instructions	98.8	1.2
It is difficult for me to carry out the MCO instructions	6.3	93.7

### Table 4: Behaviour Intention towards MCO Instructions

Item	Agree (%)	Disagree (%)
I intend to follow the MCO instructions	97.7	2.3
I want to follow MCO instructions	99.1	0.9
I expect to follow MCO instructions	96.4	3.6

#### CONCLUSION

Malaysian public are seen agreeable to the instructions but future studies need to identify the level of compliance to mitigate the COVID-19 outbreak.

#### **ACKNOWLEDGEMENT**

We would like to thank the Director General, Ministry of Health for the permission to present this study. We would also like to thank all the respondents that have participated in the study. Lastly our gratitude to those who have been involved either directly or indirectly on the assistance in completing this study.
