

## User Stories

### First iteration (SPL Planning activities)

1. As a **Manager** I want **to create a new project** so that **I can start the SPL-reengineering**.
2. As a **Manager** I want **to add team members to a project** so that **they can participate**.
3. As a **Manager** I want **to register team information** so that **it can be used in the future**.
4. As a **Manager** I want **to assign roles to myself and to other users** so that **the users may be distinguished**.
5. As a **Team Member** I want **to select strategies and techniques** so that **they may be assembled**.
6. As a **Team Member** I want **to add activities to the generic process** so that **the assembled process may be created**.
7. As a **Team Member** I want **to Assemble Techniques in the generic process** so that **the assembled process may be created**.
8. As a **Manager** I want **to document the process experience** so that **the experience may be used in the future**.

### Second Iteration (Limitations Identified in the literature)

9. As a **Team Member** I want **to collect artifacts information** so that **the artifact repository is created**.
10. As a **Feature Retriever** I want **to execute the feature retrieval process** so that **the features may be retrieved**.
11. As a **Feature Retriever** I want **to document the feature retrieval artifacts** so that **the features retrieved may be documented**.
12. As a **Team Member** I want **to download reports of all tasks** so that **I can analyze the SPL reengineering artifacts**.
13. As a **Team Member** I want **to generate feature reports** so that **I can plan the evolution of the SPL**.

### Third Iteration (End-user requirements)

14. As a **User** I want to **create an account** so that I can **authenticate myself in the system**.
15. As a **Team Member** I want **I want to model the BPMN representation of the assembled process** so that **the assembled process may be created**.

16. As a **Feature Retriever** I want **to create a feature model** so that **the features retrieved may be documented**.
17. As a **Feature Tester** I want **to check the feature artifacts** so that **the features retrieved may be verified**.
18. As a **Team Member** I want **to configure products from the Feature Model** so that **these products may be stored**.
19. As a **Team Member** I want **to export an XML file of the Feature Model** so that **this file can be used in the FeatureIDE**.
20. As a **Team Member** I want **to export an XML file of the products from the Feature Model** so that **this file can be used in the FeatureIDE**.
