Sharing Approaches to Implementing the Data Guide at Medical Research Institutes

Tues 24 November 2020

PRESENTED BY

This event is a collaboration by the Australian Research Council, the National Health and Medical Research Council, the Australian Research Data Commons, Association of Australian Medical Research Institutes, Edith Cowan University, Macquarie University, the University of Melbourne, the University of Queensland and the University of Technology Sydney

We acknowledge and celebrate the First Australians on whose traditional lands we meet, and we pay our respect to the elders past and present.

Purpose of the today's workshop for MRIs

Raising awareness:
RDM policy, responsibilities, & best practices

- Support good research data management practice as outlined in the Code.

- Facilitate knowledge exchange within and across institutions to develop solutions to research data management.

- Provide practical examples from other MRIs and steps they can take to achieve the necessary changes.

- Encouragement to undertake a cross-MRI approach where applicable.
