

Welcome - NSC Education Day @

Block 1 - Emerging approaches in nanorisk assessment

- ▶ New developments in human hazard assessment - focus on AOP, QSAR, IATA
- ▶ Exposure & life cycle assessment - determination & modeling

Block 2 – Data workshop & e-tools for nano & beyond

- ▶ Data FAIRness, metadata completeness, scientific quality assurance
- ▶ Spectrum of e-tools along data life cycle

Block 3 - NanoRisk Governance & Safe-by-Design concepts - fit for translation to sustainable development?

- ▶ Features of nanoRGFs in development & current NRG concepts
- ▶ Elements of SbD for sustainable development & innovation
