

# HAVE YOUR SAY!

We have two diabetes research opportunities available for you

## Eye Screening Research

My name is Fiona and I'm a researcher in University College Cork.

47% of people invited did not attend their retina screening appointment. We want to know how to improve this.

By taking part in this research you can help us develop ways to make the retina screening programme work for you.

This one off discussion group (2 hours) will take place in UCC.

If you have diabetes, and can spare the time to take part I'd love to hear from you.

## Shape Diabetes Research

My name is Emmy. I'm a researcher in University College Cork.

I am setting up a small group where your views and experience living with diabetes will help make our research better.

This group will meet 4 times over the next 2 years at a time that suits you.

If you or someone in your life has diabetes, and you can spare the time to be part of this group I'd love to hear from you.
