

COVID (2020-21)Awareness Control Programme: Brief Review

Jaydip Datta

ABSTRACT :

In this review the awareness control programme, 2020-21 for SARS-COV-2 will review the two publications pointing the interdisciplinary awareness as well as pandemic Covid 19. Corona Virus – a spasm-demic ! . Spasm plus pandemic termed here . **spasmodic** with respect to our environment. This fatal virological pathogen throughout the world is destroying the environmental sustainability through infectivity rate followed by mortality rate for the last eleven months continuously . The COVID19 (SARS-COV-2) vaccination with successful clinical efficacy trial starting from Europe (USA , UK) – U.S.S.R (Russia) – Asia (India ,Pakistan , China) is the greatest headache for the approval of WHO or successful launching of the vaccines under trial .CITATION - JAYDIP DATTA. (2020, October 6). COVID 19 – An Environmental Pandemic! (Version <https://semver.org/spec/v1.0.0-beta.html>). <http://doi.org/10.17605/OSF.IO/B6DUW> . But most important aspect is future awareness program. Pandemic Control – To conclude from the view of **Human Resource (HR) training** / workshop / Seminar participation is a Key functioning area . In this note I am presenting the major issues of HR namely .Environment & Public Health Management to eradicate Corona Virus after lockdown – period to develop a sharp awareness program against such epidemic / pandemic situations (**The Do or Don'ts**) . Here resource persons are Doctors , Common public , Health workers & patients affected with Covid19 & administration ie GOVT with police . Apart from them humanities, scientific people, economists are also the resource persons . In the Concluding session we may hope that introduction of this type of INTERDISCIPLINARY SEMINARS as specified the above areas with PARTICIPATION OF THE RESOURCE PEOPLE will definitely combat against such PANDEMIC situation or a GOOD MANAGEMENT OF EPIDEMIOLOGY IN NEAR FUTURE .REF INTERDISCIPLINARY SEMINAR AND WORKSHOP PARTICIPATION: An Approach to Human Resource (An Awareness Program against Covid19 in near future) FORMERLY [INTERDISCIPLINARY SEMINAR AND...
