

Identification code – your birthday (DD/MM) 10/21/98

1. What is your mother tongue?

- Spanish

- intermediate

3. What is your opinion on learning foreign languages in general?

I think it is a good learning experience that allows you to expand your mind to other cultures.

4. What experience with Czech language did you have before you arrived here?

None

5. How would you describe your attitude to learning Czech?

nervous and excited

6. What are your learning goals?

to be able to have a conversation in Czech

This week was the first time for me speaking Czech. We learned numbers, food, and how to converse. I love the class so far because we play fun interactive games that help us learn. We do a lot of group work therefore we can talk about our learning experience which shows me I am not the only one struggling at times. So far I am excited about learning Czech but I think it is hard. However I am very motivated to learn and do well in this class.

Týden 1

Today we did new numbers and verbs. Learning the verbs is going to be very hard and I am not excited about it. The quiz we took today however was easy and with more practice I think I will be able to do well in the class.

Today we got our quizzes back and I passed, ~~thine~~ knowing that makes me feel more confident for the rest of the semester. ~~to~~ We continued to learn verbs today which I still find challenging but will keep studying. Overall the first real week of Czech class I would call a success.

Týden 2

This week we learned more ~~street~~ directions and locations. We started learning street names which I find challenging. However I am becoming more confident in speaking inside and outside of class.
