

	VARIABLE NAME	DESCRIPTION	UNIT
1	participant number	excluded participant: 9	
2	condition	"1": delayed-selection "2": immediate-error "3": delayed-error	
3	trial number		
4	ring eccentricity		deg
5	ring radius		deg
6	post-saccadic location upper Gabor		deg
7	post-saccadic location lower Gabor		deg
8	Michelson contrast Gabors		
9	spatial frequency Gabors		cpd
10	cued stimulus	"1": upper Gabor cued task-relevant "2": lower Gabor cued task-relevant	
11	orientation deviation from cardinal upper Gabor		deg
12	orientation deviation from cardinal lower Gabor		deg
13	orientation deviation from cardinal cued Gabor		deg
14	orientation deviation from cardinal reference Gabor		deg
15	response	"-1":Reference and cued Gabor tilted differently "1": Reference and cued Gabor tilted the same Trials without a response are labeled NaN	
16	correct response	"1": correct "-1": incorrect	
17	primary saccade latency	Trials without a saccade before ring offset are labeled NaN	ms
18	primary saccade horizontal amplitude	Trials without a saccade before ring offset are labeled NaN	deg
20	primary saccade vertical amplitude	NOT recoded; Trials without a saccade before ring offset are labeled NaN	deg
21	trial excluded in analysis	"1": trial excluded; "0": trial not excluded
