# Educating data literacy – a holistic concept

## Science Data Center working group

- Dedicated to exchange and coordination in Baden-Württemberg
- Nucleus for cooperation

## Sustainability

- All content is open for reuse and published under CC BY or CC0
- Long-term commitments by partners to continuously update [forschungsdaten.info](https://forschungsdaten.info)

## Cooperation

- Cooperation with 30 RDM-specialists in the [forschungsdaten.info](https://forschungsdaten.info) editorial board coordinated by bw2FDM
- [Forschungsdaten.info](https://forschungsdaten.info) live: series of webinars with experts from other institutions
- Participation in the DINI/nestor RDM working group on education

## Information hub

- RDM-information-hub curated by 21 partner institutions in Germany, Austria and Switzerland
- Information presented by topics and scientific specialties
- Extensive collection of RDM-tutorials and courses

## Webinars

- Basic RDM-skills as well as advanced topics – e.g. legal and ethical matters
- Adapted for specific target groups

## Open Science course

- Asynchronous: screencasts and supplementary materials
- Integrated in the curricula at the University of Konstanz
