

Encouraging Collaboration between Citizens, Higher Education and Library Staff and Students through Open Knowledge and Open Innovation Activities

- INOS Consortium Outputs:
1. Field Analysis of Open and Citizen Science within HEIs
 2. Develop Learning Design Framework + Planning Guides for Activities
 3. Pilot Activities 2020-2021
 4. Create resources for HEIs to integrate Open and Citizen Science
 5. Engage, Raise Awareness and Foster Policy Change

- Activity Outcomes:
- Open Knowledge Activities: Engaging and dynamic co-learning opportunities
 - Open Innovation Activities: Innovative ideas and prototypes addressing complex, real challenges
 - Empowering citizens to be involved in research and co-design
 - Motivating academics to engage in socially-relevant research and innovation
 - Improved relationship between citizens, academics and libraries

Open Innovation

Mediology Students

United Nations Refugee Agency

Technology and Migration: Interdisciplinary Project
Creating solutions for tech challenges for refugee communities

Techno-Anthropology Students

Norwegian Refugee Council

Open Knowledge

Co-Designing Public Services with the Elderly

Promoting digital inclusion and upskilling in elderly communities

Elderly Citizens

Designers

Academics

Open Knowledge

School Teachers

Local School Students

Co-designing Gamified Learning Activities

Enhancing primary and secondary education through gamification

Education Master Students

Coaches

Open Innovation

Uni. Peloponnese Students

Language Learning to Strengthen Active Citizenship

Exploring the potential of Citizen Science for language education

General Public

Aristotle Uni. of Thessaloniki Students

Open Knowledge

Library Studies Students

Academic Staff

Library Staff

Integrating Citizen Science at Universities: From "What" to "How"

Projects on integrating Citizen Science in universities and research libraries
Co-organised with University Library 'Svetozar Marković' (Uni. Belgrade), and Uni. of Library Studies and Information Technology (SULSIT)

Ocean i3 2019-2020

Open Innovation

Associations

Local Communities

Ocean i3

Proposing solutions to tackle ocean plastic pollution

Academics

Companies

Uni. Bordeaux Students (all disciplines)

Uni. Basque Country Students (all disciplines)
